

FROST & WOOD No. 8 MOWER

HAY-MAKERS THEY WORK WELL TOGETHER

An ideal combination for getting in your crop of grass.
Our No. 8 Mower with its strong, substantial build, its accurate, clean-cutting power and ease of operation, is a real money-saver and profit-earner for thousands of farmers at every point in the Dominion. It is strong, durable, needs few repairs. It works day in and day out, proving the stalwart honesty and mechanical excellence put into every gear and wheel, knife and shaft, cutter-bar and pitman.

But there's the other tool—can't get along without that—the Tiger Hay-Rake.
It's all steel, except tooth-rail and shafts, which makes it proof against hard work, rain and exposure. A Tiger Rake is exceptionally durable. It does such clean work, too. The spring teeth have just enough elasticity, and are curved so as to pick up grass easily and evenly. It's an easy rake to handle for horse and driver. It can be dumped by foot or hand. The fall of the teeth after dumping is eased by a strong spring that prevents much of that disconcerting jar so evident in cheap rakes.
We can't tell you here the scores of good points about these hay-makers. Send for our catalog " " and "Farmer's Ready Reckoner." Both books are free, and answer your questions. Ask our local agent to show you our farm implements. He'll gladly do it.
