WHAT IS CATARRH?

Catarrh is a mucous-purulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are: Morbid state of the blood, as the blighted offspring of tubercle, the germ poison of syphilis, mercury, toxæmia, from the retention of the effete matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat, up the eustachian tubes, causing deafness; down the vocal cords, causing hoarseness, and destroying the proper structure of the bronchial tubes, ending in pulmonary consumption and death. Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue. Some time since a well-known physician of forty years' standing, after much experimenting, succeeded in recovering the necessary combination of ingredients which cured him absolutely and permanently of this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease, should, without delay, communicate with the business managers—**Toronto Mail, Messrs. A. H. DIXON & SON** 305 King St. West, Toronto, Canada. Please mention this paper.

The hard worked man of business, toiling day by day, with little chance for rest, should take occasionally **Nobelin's Phosphorized Emulsion**, to give activity to the brain and strength to the constitution, and thereby prevent the attacks of fever and other destroying diseases.

Scientific and Useful.

WHEN the burners of lamps become clogged with char, put them in strong soft-soap suds, and boil awhile to clean them.

To make sausage keep its shape in flat cakes, and after making them the size you wish, dip them into flour; this will effectually prevent their falling apart.

SOME one recommends this way of cooking potatoes: Peel and boil white potatoes whole until they are nearly done, but not too soft. Roll each one in coarse salt and fry quickly in dripping or lard.

To CLEAN SILVER.—First wash, to remove all the grease from the silver, then rub with a woollen cloth, wet with ammonia and whitening, and polish on the chased and filigree parts with a tooth-brush.

If tinware is stained so that a little whitening on a rag will not clean it, use a weak solution of oxalic acid in water by wiping the surface with a rag slightly moistened with the acid water, and then wipe dry with a little whitening on a cloth.

WELL TO REMEMBER.—A stitch in time saves nine. Serious results oft follow a neglect of constipated bowels and bad blood. Burdock Blood Bitters regulate and purify the stomach, bowels, liver, kidneys and the blood. Take it in time.

CHEESE TURNOVERS.—Make some good puff paste and roll it to about the eighth of an inch in thickness, cut it in pieces two inches broad and four long, place some small bits of cheese on the paste, turn it over and close it. Bake it in a hot oven.

SOUR MILK COOKIES.—Two cups of sugar, one cup of butter, one of sour cream or milk, three eggs, one teaspoonful of soda; mix soft, roll thin. When the cookies are cut out, sift granulated sugar over them, and roll it in by pressing the rolling-pin gently over the cakes, taking care not to flatten them too much.

SAGO custard is made by soaking two table-spoonfuls of sago in a half-pint of cold water for an hour and a half, then boil in the same water until it looks clear, then add a tumbler of sweet milk, let this boil for a minute or two, add sugar to your taste, and when you remove it from the fire add one well-beaten egg, and flavouring to your taste.

SOUP.—Do not throw away the bones of turkey or chicken. Crack them and let them boil for two or three hours in a little water, put in also any nice bits of the fowl that are left, particularly the neck, which is never eaten. To this add any soup stock you have, and, with a little barley or sago, you will have a nourishing soup. Season with pepper, salt, and any herbs you choose.

REMEDY FOR MALARIA.—Dr. Crudell, of Rome, gives the following directions for preparing a remedy for malaria which has proved efficacious when quinine has given no relief. Cut up a lemon, peel and pulp, in thin slices, and boil it in a pint and a half of water until it is reduced to half a pint. Strain through a linen cloth, squeezing the remains of the boiled lemon, and set it aside until cold. The entire liquid is taken fasting.

SALAD DRESSING.—A salad dressing much used in Italy is made in this way: The yolk of one egg, six table-spoonfuls of oil, three of vinegar; put this into a bottle and shake it until it is white and creamy looking. When this simple dressing is used it is necessary to dry the salad after washing. A wire basket is a convenient receptacle to put the salad in to after washing, as it will drain perfectly there, and can be lightly shaken. All salads, whether simple or plain, would be improved if care in drying sufficiently were observed.

A NEW method of fastening the strings of upright pianos has been invented by the Mason & Hamlin Organ & Piano Company, which is regarded as one of the most important improvements ever made, making the instrument more richly musical in its tones, as well as more durable, and less liable to get out of order.—*Boston Journal*.

PARADISE PUDDING.—Three eggs, three apples, quarter of a pound of bread crumbs, one lemon, three ounces of sugar, three ounces of currants, half a wine-glassful of wine, nutmeg, butter, and sugar for sauce. Pare, core, and mince the apples and mix with the bread crumbs, nutmeg grated, sugar, currants, the juice of the lemon and half the rind grated. Beat the eggs well, moisten the mixture with these and beat all together, adding the wine last; put the pudding in a buttered mould, tie it down with a cloth; boil one hour and a half, and serve with sauce of butter and sugar mixed together.

Scott's Emulsion of Pure COD LIVER OIL, WITH HYPOPHOSPHITES
In Pulmonary Affections and Scrophulous Diseases.

Dr. Ira N. Lang, New York, says: "I have prescribed Scott's Emulsion and used it in my family and am greatly pleased with the results. It is very serviceable in scrophulous diseases and pulmonary affection."

Thousands Hastened to their Graves.

By relying on testimonials written in vivid glowing language of some miraculous cures made by some largely puffed up doctor or patent medicine has hastened thousands to their graves; the readers having almost insane faith that the same miracle will be performed on them, that these testimonials mention, while the so called medicine is all the time hastening them to their graves. Although we have

Thousands upon Thousands!!!
of testimonials of the most wonderful cures, voluntarily sent us, we do not publish them, as they do not make the cures. It is our medicine, Hop Bitters, that make the cures. It has never failed and never can. We will give reference to any one for any disease similar to their own if desired, or will refer to any neighbour, as there is not a neighbourhood in the known world but can show its cures by Hop Bitters.

A Losing Joke.
A prominent physician of Pittsburgh said to a lady patient who was complaining of her continued ill-health, and of his inability to cure her, jokingly said: "Try Hop Bitters!" The lady took it in earnest, and used the Bitters, from which she obtained permanent health. She now laughs at the doctor for his joke, but he is not so well pleased with it, as it cost him a good patient.

Fees of Doctors.
The fee of doctors at \$3.00 a visit would tax a man for a year, and in need of a daily visit, over \$1,000 a year for medical attendance alone! And one single bottle of Hop Bitters taken in time would save the \$1,000 and all the year's sickness.

Given up by the Doctors.
"Is it possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"
"I assure you it is true that he is entirely cured, and with nothing but Hop Bitters, and only ten days ago his doctors gave him up and said he must die, from Kidney and Liver trouble!"

None genuine without a bunch of green Hops on the white label. Shun all the vile, poisonous stuff with "Hop" or "Hops" in their name.
