THE SUN.
 NEW YORK, 1883.
 More people have read **THE SUN** during the year just now passing than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in any year by so many men and women.
 We are credibly informed that people buy, read and like **THE SUN** for the following reasons, among others:—
 Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for humankind—the events, the deeds and misdeeds, the wisdom, the philosophy, the notable folly, the solid sense, the improving nonsense—in the news of the busiest world at present revolving in space.
 Because people have learned that in its columns concerning persons and affairs **THE SUN** makes a practice of telling the exact truth to the best of its ability three hundred and sixty-five days in the year before election as well as after, about the whales as well as about the small fish, in the face of dissent as plain and fearlessly as when supported by general approval. **THE SUN** has absolutely no purpose to deceive, save the information of its readers and the furtherance of the common good.
 Because it is everybody's newspaper. No man is so humble that **THE SUN** is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.
 Because in politics it has fought for a dozen years, without intermission and sometimes almost alone among newspapers, the fight that has resulted in the recent overwhelming popular verdict against Robersonism and for honest government. No matter what party is in power, **THE SUN** stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroachments of monopolists, and the dishonest schemes of public robbers.
 All this is what we are told almost daily by our friends. One man holds that **THE SUN** is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper printed, because it has already whipped half of the rascals out of that party, and is proceeding against the other half with undiminished vigour. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of **THE SUN** discovers one of its many sides that appears with particular force to his individual liking.
 If you already know **THE SUN**, you will observe that in 1883 it is a little better than ever before. If you do not already know **THE SUN**, you will find it to be a mirror of all human activity, a storehouse of the choicest products of common sense and imagination, a mainstay for the cause of honest government, a sentinel for genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.
