WHAT IS CATARRH?

(From the Toronto (Canada) "Advertiser")

Catarrh is a mucopurulent discharge caused by the presence and development of the vegetable parasite anoba in the internal lining membrane of the nose. This parasite is on developed under favorable circumstances, and these are: Morbid state of the blood, as in biliousness, mercury, toxemia, from the retention of the effete matter of the skin, increased perspiration, badly ventilated sleeping apartments, and other poisons that are generated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for deposit of the seeds of these germs, which spread up the nostrils and down the fauces back of the throat, causing ulceration of the throat; up the Eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; wrapping the structure of the bronchial tubes, causing pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Some time since a well-known physician, forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never, in absolutely and permanently eradicated this horrible disease, whether standing one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp.

A New Treatment

FOR THE
RAPID AND
PERMANENT
CURE OF

CATARRH

THE DIXON & SON

NO 305 KING ST. WEST. TORONTO-CANADA.

What the Rev. B. B. Stevenson, D. D., a Clergyman of the London Conference of the Methodist Church of Canada, has to say in regard to A. H. Dixon & Son's New Treatment for Catarrh.

Messrs. A. H. DIXON & SON
OAKLAND, ONTARIO, CANADA, March 17, 1883.
Dear Sirs,—Yours of the 13th just, to hand. It seems almost too good to be true that I am cured of Catarrh, but I know that I am. I have had no return of the disease and never felt better in my life. I have tried so many things for catarrh, suffered so much and for so many years, that it is hard for me to realize that I am really better.
I consider that mine was a very bad case. It was aggravated and chronic, involving the throat as well as the nasal passages, and I thought I would require the three treatments, but feel fully cured by the two sent me, and I am thankful that I was ever induced to send to you.
You are at liberty to use this letter, stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are suffering.
Yours, with many thanks,
Rev. B. B. STEVENSON.
