Galt Shingles

As a roofing material for your home nothing else can compare with "GALT" Steel Shingles. Light in weight, handsome and dignified in appearance, a roof constructed of them is just as fire-proof as one of slate, in fact more so because steel is also lightning-proof. "GALT" Shingles cost little if any more than wood shingles and they last from two to five times as long without any attention whatever. The British Galvanized Steel from which they are made is wear-proof—can't burn, crack, curl up or rust. They last indefinitely. The patented construction of locks or seams is so tight as to exclude even light. You can't force water through "GALT" Shingles with a hose. Our new booklet "Roofing Economy" contains information that every progressive-minded property owner should have. It's free to interested people.
