ROBINSON'S 'PATENT' BARLEY

---is the Ideal Food for Baby.

The large majority of the illnesses attending the early life of a child are due to under-nourishment, the result of improper feeding. Baby may apparently have a good appetite but the food it takes fails to nourish, and baby is peevish, cries constantly, is irritable, etc.

Robinson's "Patent" Barley is the ideal food for baby. It will be digested and assimilated when no other food can be retained, and is wonderfully nourishing. It is recommended by leading doctors and nurses everywhere.

Every mother should have a copy of "Advice to Mothers"; write for it today.
