

BRITISH MARKETS.

The London Tea Letter of Messrs. J. Lewenz & Hauser Bros., dated London, 8th August, says: "Extremely little disposition for business was apparent this week, and the fresh supplies of new season black and red-leaf teas which were poured on the market met with scant attention. Among all the recent arrivals from Hankow the lower grades largely preponderate, and for these there is not much demand as long as prices, in the absence of any pressure to sell, are maintained so firmly by importers. As to the new Foochow Congous, the more is seen of them the more increases the unfavorable opinion formed of them from the first.

The imports during last month amounted to 19½ million lbs., viz.: 9½ million lbs. China, 4 million lbs. Indian, 5½ million lbs. Ceylon, and ½ million lbs. Java tea.

The bonded stock on 31st July compared as under:—

Solid Progress & Good Results.

Persons insuring their lives should investigate the financial standing of a Company, the same as they would a Bank in which they intended to invest—not by the volume of business passing in and out, but by its financial record, its age, and its profit-paying results.

No Company in the U. S. has made as regular and solid dividend-paying progress, and increased its ANNUAL CASH DIVIDENDS to policy-holders for so many years past, without a retrograde step, as the
