HAVE IN PRESS

PARLIAMENTARY GOVERNMENT IN CANADA.

12mo, cloth, about 90 pp. 50 cents.
This will be the best practical manual of our institutions which has yet appeared. The late Mr. Alpheus Todd, who read it in manuscript, wrote as follows:—"Having had an opportunity of perusing Mr. C. C. Colby's lecture on Parliamentary Government, I would cordially commend it to public attention. It presents, in a popular form, a comprehensive outline of our political system, drawn with great fidelity and insight, and with a keen appreciation of the worth of British constitutional principles. It has been a reproach to our political literature that a simple and correct description of our form of government is rarely to be found. For this reason, Mr. Colby's essay ought to have a wide circulation. As the production of an experienced politician, as well as a close observer, and an earnest student in the region of political knowledge, it cannot fail to be read with interest and benefit by all who desire a more intimate acquaintance with the free institutions under which it is our privilege to live."
—ALPHEUS TODD.

The work was originally prepared as a lecture, but has been rewritten and brought down to date.

The MARQUIS OF LORNE's Book.

CANADA AND SCOTLAND: Speeches and Poems by the Right Hon. MARQUIS OF LORNE. Cloth, 372 pp. \$1.50.

The second edition of Mr. S. E. DAWSON's Book.

A STUDY: With Critical and Explanatory Notes, of Lord Tennyson's Poem, "The Princess." Second edition. Handsomely bound in cloth, gilt top, 136 pp. \$1.00.

The *Saturday Review* (London) says:—"It is sensible, simple and to the point. To us, who almost know the poem by heart, it has served to illustrate some imperfectly comprehended allusions, to throw some light on imperfectly appreciated beauties; and, if we cannot wholly agree with the writer's views, we can recommend the 'Study' to ordinary readers of Tennyson as well worthy the slight demand which its perusal will make upon their leisure."
The *Liverpool (England) Mercury* says:—"This is a thoughtful and charming little monograph upon one of the most thoughtful and charming of Tennyson's poems. Mr. Dawson has done his work exceedingly well. Even those who are most familiar with the poem on which it treats, cannot rise from a perusal of this explanation and commentary without possessing new lights and a better understanding of the poet's meaning and intention."

The *Boston Daily Advertiser* says:—"It is a positive pleasure to read so deliberate a criticism of a purely literary kind. It gives one a sense of leisure and serenity in pleasant intellectual work, and renews something of the delight that Tennyson's poems gave us thirty years ago."

The *Edinburgh Scotsman* says:—"A very thoughtful and sympathetic estimate of a poem which we agree with him in thinking 'singularly underrated.' Mr. Dawson displays a thorough grasp of the poet's intention, and is able to discern the underlying unity and consistency of design and purpose which the poem really possesses. People who read 'The Princess' after going through this book will find themselves better qualified to understand it and to do justice to the genius of its author."
