

Put your town on the good roads map this year

COME to think of it, is there anything so expensive to a community as *bad roads?*

Bad roads slow up business, lower land values, make markets inaccessible, isolate neighbors, cost a lot of money and waste much more.

People tolerate bad roads year after year because they *think* good roads cost too much.

But good roads are *not* ex-

pensive, if they are built in accordance with a well-thought-out program, somewhat along these lines.

Consider—

1. The traffic the road will have—
2. Its initial cost—
3. Cost of maintenance—
4. Durability—
5. Ease and rapidity of construction—
6. What "Barrett Service" can do for you.

Thousands of towns and cities all over this country, have had their road problems economically, satisfactorily and quickly solved by the use of this popular road material.

No matter what your road problems may be—a road binder for new construction, a dust preventive, a preservative, or a patching material—there is a grade of Tarvia for each need.

IF YOU want to know how to get GOOD ROADS in your community at VERY LOW COST, write today to our Special Service Department for booklet and data on this vital subject.

Tarvia

Preserves Roads—Prevents Dust

Special Service Department

This company has a corps of trained engineers and chemists who have given years of study to modern road problems. The advice of these men may be had for the asking by any one interested.

If you will write to the nearest office regarding road problems and conditions in your vicinity, the matter will be given prompt attention.
