

Tennis Court, Abenakis Springs Hotel Lawn.

Tennis

Lawn Tennis bids fair to give golfing a close run for popularity this season. One of the best Tennis Courts in the country is located directly in front of the Hotel. Tournaments are held during the summer.

Clock Golf

Clock Golf has become very popular, and "Dials" at Abenakis are particularly inviting and very much in demand. Clock Golfing is a very gentle exercise, and for those who are not strong enough to take the long walks or make the muscular strokes required to "drive" in golf, it is even better than Ping-Pong.

Fish and Game

The fishing by hook and line in the St. Francis River and Lake St. Peter is first class, rivalling the very best of the fishing resorts in Quebec or in the Maritime Provinces. During the month of September the wild duck, the woodcock and the snipe are found in great abundance around "the hundred islands" near by, at the mouth of the River St. Francis at its confluence with the St. Lawrence at Lake St. Peter. From time beyond

memory these have been known among the Abenakis and other Indians as the "feeding grounds" of the wild duck. Trustworthy Indian guides for hunting and fishing can be had at reasonable rates.
