THE T. EATON CO LIMITED

U.S. MUST JOIN IN COLLARWORK

Otherwise League of Nations Will Be Useless, Says London Journal.

London, March 5.—President Wilson's speech in New York last night arrived in London too late for extended editorial comment in the afternoon papers, but it occupies a prominent place in the news columns.

The Pall Mall Gazette, referring to the president's expressed conviction that an overwhelming majority is prepared to form, unless America is prepared to share in the "collar work" of the league, she can have no voice in its policy.

The Westminster Gazette, in expressing the hope that the league will be much more than a debating society, says that even if it is a debating society it probably would have prevented this war had it been in operation in 1914, and it will be an insurance against other wars springing from the same motives.

Referring to the report of Senator Lodge and 36 other Republican senators

RUSSIAN SOVIET HOPES TO RAISE LOAN IN U. S.

Stockholm, March 5.—The soviet government of Russia hopes to be able to arrange a big loan in America and is prepared to offer in exchange important mining and railroad concessions, according to Petrograd advices received here.

Reports show that the internal war in Russia has cost four billion rubles during the past two months and that an extra levy of ten billion rubles has been insufficient to cover the total deficit of the soviet government. It is said that the Bolshevik treasury is hardly able to raise 450,000,000 rubles.

Paris, March 5.—A man who later admitted his name was Kneller, and that he was a Russian Jew, fired two shots from a revolver from the Palais Poincaré, today, Kneller, who at first refused to divulge his nationality, declared that he desired to protest against allied intervention in Russia.

The shooting occurred in the presence of the guards and sentinels. The bullets fell harmlessly on the verandah of the court of honor.

Ukraine Food Consignment Requisitioned by Bolsheviks

Berne, Tuesday, March 4.—A large consignment of food has reached Moscow from Ukraine, where it was requisitioned by the Bolshevik army, according to a telegram given out here by the Ukrainian press bureau today. The shipment consisted of 60 carloads of flour, two of manufactured articles and 30 of sugar. The requisitioning of these supplies was approved by M. Rakowski, premier of the Ukrainian soviet ministry, it is said.

GERMANY IS RESTIVE OVER SHIPPING TERMS

Cabinet Said to Have Refused to Submit to Coercion by the Allies.

Paris, March 5.—At a meeting of the German cabinet on Monday morning attended by party leaders and delegates of shipowners, it was agreed unanimously, it is understood, that Germany could not submit to coercion from the entente powers, either in the armistice negotiations or in the peace parliaments proper, according to a Zurich despatch to Le Journal.

Two Polish Officers Killed On Allied Mission Train

Warsaw, March 5.—Two Polish officers were killed when the Ukrainians fired on the train bearing the inter-allied commission to Poland after its departure from Lemberg on Sunday. The officers had boarded the train by mistake.

STRIKE IN CUBA BEGINS.

Havana, March 5.—The third general strike that Cuba has faced within the last six months began at midnight when union men estimated to a number of 75,000 quit work. The strike is a result of the failure of the building trades union to effect a settlement of their demands for an eight-hour day, a Saturday half-holiday and a considerable increase in wages.

BOLSHEVIK FORCES ACTIVE IN UKRAINE

Warsaw, March 5.—Strong forces of Bolsheviks are still active in Ukraine. They still hold Kiev, where they are reported to have levied a contribution of 200,000,000 rubles and have forced the bourgeoisie class to exchange houses with the population of the slums and ghetto quarter of the town.

A large detachment of Ukrainians are now holding the Bolsheviks south of the Kiev-Kovel railway line, but the whole of this line is reported to be in the hands of the Bolsheviks.

PeLura, the present dictator of the Ukrainian government, appears to be a strong leader and of pro-ally sentiments, but he is not sufficiently supported by the various elements in Ukraine.

At Opening of Manitoba Fair, D. C. Coleman Refers to Tariff

Brandon, March 4.—The Manitoba night with what is said to be the finest exhibition of prize-winning Winter Fair was formally opened last night. Mr. D. C. Coleman, vice-president of the Canadian Pacific Railway, who opened the fair, made a plea for reasonableness in the customs tariff, and asked that his company be given an opportunity to prove its value before adverse judgment is passed.

EXPECT PORT OF ST. JOHN TO BE NATIONALIZED

Ottawa, March 5.—The nationalization of the port of St. John, N. B., is now the subject of conference between the government and representatives of that Atlantic coast city, and it is probable that the government will take over the harbor and shipping facilities and make it a national port.

Mayor R. T. Hayes and T. H. Bullock, commissioner of harbors, ferries and lands of St. John, have been in Ottawa since Sunday attending conferences with members of the government.

A final conference will be held tomorrow, then it is expected that a settlement and price for the taking over of the port will be reached.

President Wilson Sails; Departure Was Quiet

New York, March 5.—President Wilson sailed today on his second voyage to France. The transport George Washington bearing the presidential party left the Hoboken, N. J., pier at 8:15 a.m.

The chief executive's departure was marked by a simplicity which contrasted with the noisy demonstration accorded him on his first journey to Paris, last December. Today there was only a small crowd of persons assembled at the army transport pier.

As the army transport turned her nose toward the statue of liberty in the almost strike-paralyzed harbor, an escort of destroyers got under way ahead, and a presidential salute of 21 guns was fired.

SHIPPING SHORTAGE PREVENTS RELIEF

British Expert Says Only Hope is for America to Release More Vessels.

London, March 5.—Sir John Deale, who recently resigned his position as British representative on the various inter-ally organizations for the distribution of food, is quoted by The Times in an interview as saying that it will be extremely difficult to prevent widespread famine in southeastern Europe, Germany and Poland.

Financial relief is available, he said, but the difficulty is due to the shortage of shipping.

Great Britain is still obliged to support France and Italy out of her own shipping resources, and the position regarding the arrivals of food and coal in Italy is causing the greatest anxiety. The ministry of shipping will probably be able to rectify the Italian position, but it will be impossible for them to make further substantial tonnage available for other relief purposes.

The only possibility of avoiding disaster, said Sir John, lies in the American shipping board increasing the number of ships available, which it is reasonable to hope they will do.

Sir John Deale attributed the shortage of tonnage mainly to the slackening efforts of workmen through the world, both in the loading and repacking end.
