JEROME KEEPS HIS MIND SECRET

Another Alienist Replaces Evans on the Stand and Prosecutor's Mysterious Questions Puzzle Court.

New York, March 4.—After five days of tiresome cross-examination, in which he keenly protected the interests of the defence, Dr. Evans left the witness stand in the Thaw trial today, subject to recall for re-direct and re-cross-examination.

The insanity expert appears to have been quite a match for the district attorney, who displayed so much intimate medical knowledge during his famous grilling of Dr. Wiley, the Pittsburgh alienist.

But Jerome's ways are so devious and he has built up such an atmosphere of mystery as to the probable development of his side of the case, that the outlook for Thaw is regarded by a number of those who have followed the trial closely, as being doubtful.

Jerome has asked so many apparently meaningless questions, the replies to which he has used effectively to confound later witnesses, that the daily spectators are beginning to put question mark after each point that he seems either to have dropped, or to have passed over with no consequence.

Another Alienist Testifies. Dr. Evans was succeeded on the stand by Dr. Charles G. Wagner of Birmingham, N. Y., who accompanied him on most of his visits to Thaw in the Tombs. Jerome indicated by his questioning of the witness that he may wish to cross-examine him.

William Thaw, it is expected, will be the next person in the witness chair. She may be sworn either late tomorrow or early on Wednesday.

With Mrs. Thaw's testimony in the defence practically having been completed, it seems likely that the trial will close by the end of the week. Jerome complained today in seeking a broad interpretation of the rules of evidence by Justice Fitzgerald, that if he should call any of the defence's alienists in rebuttal, they might refuse to answer any questions put to them. This seems to indicate that Jerome's strategy is to prevent the prosecution from asking questions put to them.

Rockefeller Has Great Scheme in View for People

He Won't Tell What It Is, But He's Just Gone to Take John D. Jr. Into His Confidence.

New York, March 4.—A remark John D. Rockefeller made to several reporters before starting for Augusta, Ga., today, led to the publication of a report that he contemplates another large gift to the cause of education or philanthropy. In excusing himself to the reporters, Mr. Rockefeller said: "I have matters of great importance to discuss with my son, matters of more importance to the public in the future than any change remarks I might make just now."

HOUSE HEATED BY WHIFF OF CIGARET

Premier Takes Hold of the Hot End of the Argument and Gently Turns Aside Demand to Banish the Weed. "NO TIME FOR LAW THIS TERM" Sir Wilfrid Tells Advocates of Bill That the Public Wouldn't Hear of Legislation Putting End to Use of Tobacco.

Ottawa, March 4.—Sir Wilfrid Laurier gently waved aside the proposal to introduce at this session of parliament a bill to prohibit the importation, manufacture and sale of cigars when it came up for discussion in the house to-day, saying: "Such a law would not be supported by public opinion and would become a dead letter."

Mr. Blain (Peel) started the discussion by declaring it was expedient to bring in such a bill at this session. He pleaded for the growing youth of Canada, and said statistics showed that the number of cigars manufactured in Canada had increased from 85,000,000 in 1896 to 270,000,000 in 1906.

A resolution declaring such legislation necessary had passed the house in 1887 by the vote of 128 to 48. A bill had been introduced, but had been ruled out on a technicality. A bill could not be introduced now unless preceded by this resolution.

Would Let Provinces Act. E. M. MacDonald (Liberal, N.S.), apparently in response to a question from the premier, asked if Mr. Blain would not prefer a law giving to each province power to make the manufacture and sale of cigars a criminal offense.

Mr. Monk (Conservative, Quebec) favored the intention of Mr. Blain, but doubted if legislation would be practicable.

Premier Opposes Scheme. Sir Wilfrid Laurier did not minimize the importance of the bill, saying: "Cigaret smoking is injurious, he said, physically and mentally to the immature youth. It is, indeed, the use of tobacco in any form."
