School Section Separation.

An informal meeting of representatives from York Township Council, the Town Council and members of the Public School Board in reference to the separation of Union School sections 13 and 22 from the town, took place this afternoon in the Council chamber. The township represented by Reeve Duncan and Counciliors Goulding, Miller. Syme and Sylvester, Township Clerk W. A. Clarke, Auditor S. Over and Critzens Glichrist, Buil and Jessop. The town was represented by Mayor Laughton and Counciliors Paterson and Anderson, Town Solicitor Going and Mr. Harris, secretary of the board. The township representatives objected to dealing with the separation of school section No. 22, because there has been no appeal to them for it, and it would take several momths to get the necessary legislation providing for the separation. The town, if separating from the township at all, wants to cut its strings from them altogether. The greatest difficulty, however, looms up in arranging what assets the township shall take and what amount of the dehentures the township will pay. The outlook is one of expensive and long-continued litigation, or arbitration, and when finally settled will leave the township school sections in such awkward shapes that it will be Mfficult to so rearrange them as to make it convenient to scholars, School Section Separation,

Outward Sweetness

Is not the only essen-

tial to attractiveness. Many a beautiful face and sweet temper are marred by the presence of that most disgusting of diseases-Catarrh. Dr. Agnew's Catarrhal Powder is the quickest, surest, most harmless and easiest applied remedy for this disease to-day -it will relieve the most distressing cold in the head in ten minutes and persistency in its use will cure the most stubborn and deep-seated cases of Catarrh, whether of one or fifty years standing. There are volumes of indisputable evidence to prove these claims.
