which the railway company was to handle and smelt the ore for the mine at a figure which rumor placed at two militon doilars annually. Mr. C. R. Hosmer, who is a director in both of these companies, was seen in his office this morning, and substantially confirmed the rumor. He said that shipments from both the Centre Star and the War Eagle mines were being held pending the signing of an agreement by which the War Eagle Company would receive special terms for transportation and specifing. This would so reduce the cost of mining that it would be possible to profitably mine ore of lower grade than has hitherto been the case. Under this agreement, if put thru, it is estimated that the War Eagle and Centre Star mines would ship a minimum of a thousand tons per day. Mr. Hosmer stated that, altho there would likely be no fixed sum paid, a reasonable rate per ton would likely result in the payment of the immense sum of \$2,.000,000 to the Canadian Pacific Railway are expected to reach Rossiand on Aug. 20, and if is antifipated that a speedy agreement will be reached with the railway company.
