Scene in the British House of Commons -An Irish Member Ejected.

London, April 5.—There was a scene in the House of Commons yesterday, on the acknowledgment by the first quick.

Senator McCallum's view finally prevailed, and the press men were boylord of the admiralty, Mr. George J. Goschen, that a seaman belonging to the British first-class battleship Resolution had been sentenced to a fortnight's confinement in a cell and to be deprived of his good conduct badge for wearing the shamrock on St. Patrick's Day, in disobedience to orders. Mr. Goschen explained that it was a point, but it was Latin to the witness. Mr. Wm. Redmond (Parnellite) hotly replied to Mr. Goschen, and was called to order by the speaker, Mr. draw a revolver. The remark was followed by loud cries in question there was in the of "order." The speaker called upon room a large combat knife, which Mr. Redmond to withdraw, but he did Tuttle picked up, and said: "The next not leave his seat until the sergeant- kick I hear, he gets this." The knife at-arms advanced, when he yielded, and followed that officer out of the house, repeating, "It is an outrage."

Germany and Russia Displeased as Britain's Deal With China and

Pekin, April 5.-M. Pavloff, the Russian charge d'affaires, had a long interview with Sir Claude Macdonald yesterday. He informed the British minister that both Russia and Germany regard the situation as serious, England's action tending to prevent the development of their enterprises. Sung, who commanded at Port Arthur, is now at New Chwang, province of Leao Tong, near the Gulf of Pe Chi Li, with 25,000 troops.

London, April 5.—It was semi-officially announced yesterday that Great Britain has made arrangements with China to take over the port of Wei Hai Wei, on the Shang Tung Peninsula, when the Chinese Government shall have paid the war indemnity due to A.—It struck me that he was going to keep his money back.

Mrs. Mack, in her evidence, stated she had seen Tuttle in a bad temper, and that when Tuttle vaid her he al-

have evacuated the place. The arrangement, it is added, was made with the knowledge and approval of Japan, with which country an un-derstanding had previously been arrived at. The latter fact was kept secret until China had actually agreed to the lease, and the British fleet had assem-

bled in the vicinity. It is said on good authority that neither Russia nor Germany is pleased at the arrangement, and it is added that the Island of Lou Kung Tau, at the entrance of Wei Hai Wei, will be strongly fortified. It is said to be capable of being successfully defended, while the land batteries, destroyed by the Japanese can speedily be reconstructed.

The correspondent of the Times at Constantinople says: At the audience at the palace on Saturday. M. Zenovieff, the Russian ambassador, casually told the Sultan that 20,000 Russian recruits for the far east would shortly traverse the Dardanelles in vessels of the Russian volunteer fleet.
