Leader of German Independent Socialists Was Shot a Month Ago.

Berlin, Nov. 7.—Hugo Haase, president of the Independent Socialist party, died this morning from wounds received October 5, when he was shot three times when entering the Reichstag Building.

### FIRE AT GOLF CLUB

Toronto, Nov. 7.—Fire caused by spontaneous combustion in a large pile of soft coal destroyed the shed and garage of the Lambton Golf and Country Club early this morning, and for a time threatened the existence of the main building, which is one of the oldest and most historic golf clubs in Canada. The prompt response by the firemen was largely responsible for checking the flames, before they spread to the main building. As it is, the loss is estimated at \$1,000, which is covered by insurance.

## IF THIN AND NERVOUS, TRY PHOSPHATE

Nothing Like Plain Bitro-Phosphate To Put on Firm, Healthy Flesh and To Increase Strength, Vigor and Nervous Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and marks on the face, lines of health and beauty, there are evidently thousands of men and women who feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance of the thin. The numbers will still be good in the drawing contest.

**EVERYBODY BOUGHT.**  
Five pamphlets thrown away by Ferris at the corner of Dundas and Richmond streets Saturday night at 9:45 o'clock. The numbers will be bulletined as they are announced.

**CHECKERS.**  
Those who assisted in checking up Thursday's bond total were: M. F. Gould, R. E. Fotheringham, D. E. Hand, G. W. Taylor, and A. McNeil, of McCormick Manufacturing Company.

Many buttons were found around the streets, and Victory Loan headquarters has devised a means of restoring them to their original owners. A button found on the streets to headquarters Friday morning between 10 o'clock and 10:30 p.m. will be given a numbered pamphlet for it.

**DRUGLESS PHYSICIANS ARE  
OPPOSED TO COMPULSORY  
VACCINATION, THEY STATE**

On Thursday the Drugless Physicians' Association held its convention in the I. O. F. Hall, many members from distant parts being present. The morning and afternoon sessions were held at which there were interesting discussions on various topics.

Prof. J. J. Taylor, of Toronto, spoke on "Vaccination," and there appeared to be unanimity of opinion against this being compulsory.

The next convention is to be held in January.

Volume, Not Profit, Is the Slogan of This Big Pure Food Store.

We are out to give the workingman value for his money. We are not connected with any ring or combine, and can set our own prices. We have our own packing house, do our own killing and select our own cattle from the finest herds in Ontario, and in this way we do not have to take anything the big packers care to send. We buy our groceries in large quantities and pay spot cash; thus we get the very lowest quotations. The bargains we list below will be snatched up quickly, so we advise you to phone or shop early tomorrow.

## NEW ORGANIZATION OF C. OF C. FORMED

Membership Council Will Have Work to Do.

A new organization of the chamber of commerce was unanimously launched today after a largely attended luncheon at the Temmish House of the directors and members; it is to be called the membership council, of which Lord Bridge has been chosen chairman.

George M. Field, president of the chamber of commerce, in explaining the formation reasons for the new branch, said that the most important one was to further the social, industrial and commercial interests of the city in every respect. "We desire to secure 'live wire' members for the new year," he continued, "for without work and the part they will play, the executive of the chamber can accomplish nothing toward the betterment of the city, through one section of the constitutional rules."

Sketches Plans.  
Then John Bridge took the floor and graphically outlined the objects and work of the membership council. Through its efficient organization, the majority of the members will be initiated to an office of some kind, and will consequently be interested in all of the work and promised work for the welfare of the city, of the whole organization. He said that there had been a misconception toward the organized community welfare work as at present, and the work of clubs and organizations of that nature were largely responsible for the education of the people.

**The Aims.**  
The Chamber of Commerce and the membership council should continually help the people to help themselves, said Mr. Bridge, "and they should include in their memberships, all citizens who have distinguished themselves through working toward the advancement of the trades and labor class. In the minds of many people as to the real value to the community of the Chamber of Commerce, and the work it is doing, but it will be one of the duties of this new organization to dispel those doubts."

The members were asked for their support and an unanimous response was given with additional enthusiasm. The marks of the work which the membership council will perform and the value it will be to the general public and to the city.

### THE LOCAL MARKET

Potatoes are firmer on the local market. This morning they were quoted at \$2.25, but a few sold yesterday at \$1.90. Several carloads of western oats have arrived in the city during the past days, sending the price down to \$2.75 @ 2.80 per cwt.

Choice dressed hogs are back to \$22. Mutton, lamb and cow beef have dropped \$1 and \$2 per cwt, but heifer beef is a little firmer.

### NEW YORK.

New York, Nov. 7.—Wall Street, 10:30 a.m.—The uncertain money situation continued to hang over the stock market at the outset of today's trading, first quotations showing a mixture of advances and recessions. For the most part, however, changes were limited to fractions, the only important exceptions being some of the motors, which rose a point, while several of the active steels were that much lower with shipbuilding and chemical issues, represented the strong specialties, and low-priced rails were again active and firm.
