Two New Religions Predicted.

Co-Operation Grows Apace With Oshawa Fruitmen

The Annual Meeting Taking Place in Oshawa To-Day Reveals a Decided Gain for Co-Operation Selling-Prices for Apples to the Farmers Here Have Been Nearly an Average of Two Dollars.

OSHAWA, June 11.-Is there any barrels, about half rating No. 1's, for benefit in co-operation? This is the which he received some \$1340.

A Ben Davis Story.

In 1908, S. Trevail sent down his big question that is latent in the minds of

This association of fruit growers spraying. This association of fruit growers began in a co-operative way some four or five years ago, and working upon the shipping knowledge acquired by Elmer Lick in private capacity hive steadily advanced the prices received by the farmers. From a prevailing 75 cents to a dollar per barrel outside farmers now receive one dollar to a dollar and a half per barrel, while members of the association reap as high as \$2.25 per barrel. And this is not the end. While consumers must pay five dollars per barrel for their supply of apples, it is not quite within reason that the man whô plants, sprays and waits for results should receive less than half the same purchase prices. It is true that transportation and commission charges have a trund and commission charges the second contents are too many varieties in some orchards. In many, these varieties are too many varieties in some orchards. In many, these varieties are too many varieties in some orchards. In many, these varieties are too many varieties in some orchards. In many, these varieties are too many varieties in some orchards. In many, these varieties are too many varieties in some orchards. In many, these varieties are too many varieties are too many varieties in some orchards. In many, these varieties are too many varieties are too the commercial successes. An instance of returns from such is given in the the commercial successes. An instance of returns from such is given in the the commercial successes. An instance of returns from such is given in the the commercial successes. An instance of returns from such is given in the the commercial successes. An instance of returns from such receive less than half the same purchase prices. It is true that transpertation and commission charges have a peculiar habit of absorbing the big end of the pay bills as the milk producers also know, and it is no less so in the fruit world. To reduce that difference in favor of the grower is the assignation of every conspertive can sent over seas brought \$2.50, the

ladder are more or less parasitic in character, and while necessary should not swallow up the big end of the profits as is at present the case.

with, the fruit growers in ards filled with many varieties, poor pruning, indifferent packing, and credulous tyros in the co-operation, were incidents of the growth. But the money returns have cemented the organization, and if many men are bard to convince along abstract lines, all men are open to the conviction of dollars and cents.

The returns to the first packing of the marketing end. The northwest trade is worth more cultivation. Some one should go there. Some one should go there. Some one should be in Great Britain to size up the situation.

Some one should go there. Some one should be in Great Britain to size up the situation.

A new system of bookkeeping has been introduced and is working well. But the work is almost too much for one person; a competent clerk to take one person; and the intended to commit suicide.

Two weeks later the body was found.

Two weeks later the body was found.

The council congratulated itself on the defeat of the defeat o

to Great Britain. The total returns ing of personal are completed and while the associa- well. tion had the misfortune to lose a few carloads of early apples, the others

no northern spies being among them. This little orchard sent out 147 bar-\$205-an average of over \$2 per barrel. Enos Remmer, another Pickering man with a very young orchard, the trees being twelve years planted, received tisement in The World. \$2.15 per barrel. He has made spies

G. B. Mothersili of Oshawa has about 200 barrels of spies, for which he rectived nearly \$1.96 per barrel.

J. Trevail, north of Oshawa, had a Markham Township. Anyone wishing to see how the machine operates will thinned and as the fruit set very heavy, the outlook in September was very poor for No. 1 fruit. Upon advice from the secretary he

left his apples on the trees till late, thus allowing them to ripen more, and

DRS.KENNEDY & KENNEDY

the fifty odd members of the Oshawa outfit of Ben Davis apples, and owng Fruit Growers, Limited, who meet to the poor sample and bad year, his to-morrow (Saturday) in their annual returns were almost nil. The year he to-morrow (Saturday) in their annual thinned, sprayed and allowed the fruit to ripen, and moreover, sturk a good market, making over \$2 fer barrel. Thus the benefit directly traceable to

There are too many varieties in some orchards. In many, these varieties are

the aspiration of every co-operative car sent over seas brought \$3.66; the association, and Ontario already has several of them in the fruit business. Some sold here brought \$3.00 and \$3.75. Some sold here brought \$3.00 and \$3.75. To push their war into Africa and uniting with co-operation among consumers, many foresee a direct dealing among these two, to the advantage of both.

Some sold here brought \$3.00 and \$3.75. Wagner apples had the honor of netting the highest prices last year, although the honor roll of the previous year. The Wagner returns were \$4.23 gross per barrel, while Production and consumption are the \$1.33 was received for each of 114 two great ends of supply and demand. boxes. The great trouble with the Intermediary steps in the economic Wagner apple is its heavy bearing and

Growers Must Expand. While there are plenty of members with a good fruit acreage in the association, the time is fast approaching Whitby and Pickering Townships had when more attention must be paid to big odds to contend with. Small orch-

all men are open to the conviction of dollars and cents.

The returns to the farmers for apples shipped from their orchards have been considerably higher than what their neighbors have received from the dealers, during every year. Last year was no exception and its returns are pleasing reading. The annual statement is out for the shareholders and the auditors' report has been is-

PARKER'S SALE.

Some Farmers' Returns.

W. H. Stainton has a neat orchard near Oshawa, and he takes care of the The majority of the trees are northern splez. Last season he took the barrels from his orchard to the ruit house. His net returns for these means that the standard Fuel Company get possession.

Messrs, Poucher and Powell were fruit house. His net returns for these show a total \$565, being an average of \$2.17. Here is a straight gain over dealers' prices of 92 cents per barrels. prices were secured. Good Shropshire Gervais Cornell, who recently sold his 50 acre Kingston-road farm in Pickering for \$100 per acre, had a young orchard of various varieties, well. The cows went for an average of \$48 each, while the young stuff sold The cows went for an average reis last year for which he received very bigh. ONTARIO MAN'S DEATH MAY INVOLVE FOUL PLAY

Thomas Blackstock's Body Found Council Pleased Over Defeat of in River in New York State With Pockets Inside Out

COBOURG, June 11.—(Special.)—A body found floating in the Black River, at Dexter, N.Y., two weeks ago, and buried as Joseph A. Kellar of Watertown, nas been identified as that of Thomas M. Blackstock, a member of one of the best known families of Haldimand Township. His brothers, James, undertaker at Grafton, and John Blackstock, went to Watertown,

James, undertaker at Grafton, and John Blackstock, went to Watertown, found the remains to be their brother and brought them to Grafton.

How death came to him is a mystery. When he left his boarding house he wore an overcoat and undercoat; when found he was without these, and the pockets of the vest and trousers were turned inside out, strengthening suspockets of the vest and trousers were turned inside out, strengthening suspicion of foul play. His family learned of his death accidentally. Joseph A. Kellar of Watertown is said to have left his coat and a note on a bridge saying he intended to commit suicide.

The weeks leave the body was found of medical associations in the interview.

The members are not yet divested of that selfish concern that characterizes father, five brothers, James and Wilvoted the sum of \$500, and the janitor, C. F. Crouch, was given a free house Some 6300 barrels of apples were commercial transactions, but their ar-shipped last year, to the northwest and dor for the general good, and the sinkin addition to his salary of \$720, making an equivalent of \$864. littlenesses argues F. George Seager Held in \$400 Bail to Appear Next Week.

CHAUFFEUL'S CASE ADJOURNED!

George Seager, erstwhile chauffeur for D. D. Mann, was in police court vesterday morning charged with doing bodily harm to Miss Fanny White. The basis of the charge is an accident which occurred in College-street short-ly before midnight May 27, after Beag-er had taken Mr. Mann to the Union station. Seager had taken Miss White, another lady, and two gentlemen into the car at the Rosedale Hotel to drive them to the Humber. In College-street they ran into an eastbound street car driven by John Hobbs, and Miss White's arm was broken. Hobbs said that the car was going

about 20 miles an hour and wobbiling in its course. The night was wet and hat is how Seager accounts for the the car placed the speed at only 10 or 12 miles an bour. They also declared 12 miles an hour. They also declared that the steering gear was in bad shape. The case was adjourned a week, and ball for Seager placed at was adjourned a

FreeUntilCured

The Dr. Sanden Electric Belt gives New Strength and Vigor to Men and I Ask no Pay Until Cured

The highest mental and moral development, the greatest possible success in life, either financially or otherwise, can best be attained when the organs of the body are in a normal state of health-when the ambitions and efforts are backed by rugged, manly vigor. The man who is weak, who lacks nerve force and

energy, is certainly handicapped to a greater or less degree in every undertaking where a clear brain and an abundant reserve fund of nervous energy and vitality are essential-and these qualifications are required at the present day more than ever before. I have devoted my entire life to the minute study of

the causes and effects of nervous debility and those weaknesses of men which sap the vital energy. In nearly every case the trouble can be traced to some tax on the nervous system in former years, such as overwork, hard study, dissipation, indiscretions, etc., for all these things lower the vital forces and rob the constitution, and what is still more unfortunate, they generally do so at that delicate period of life when youth is merging into manhood, when Nature should be most assisted in her work of perfeet development.

DON'T USE DRUGS

It is in correcting the consequences of these unfortunate mistakes that the properly applied current of Galvanic Electricity gives the best obtainable results, because science tells us that electricity and nerve force are one and the same thing. I apply it through the famous Dr. Sanden Electric Belt, with Suspensory Attachment. It is worn about the body at night only, and gives new life and energy to every weakened organ, curing while you sleep. My plan of selling my Appliances should meet with the approval of every fair-minded man. It is not necessary

to pay in advance, or even to make a deposit. You can make arrangements to get a Belt suited to the requirements of your case, on trial, not to be paid for until you are cured, and I only charge the regular list price. If you are not satisfied with the results, you can send the Belt back to me, and that ends the transaction. Isn't that a fair offer? If you are weak and nervous; if you lack confidence and ambition; if you are easily discouraged and depressed:

if you are weak and nervous; if you lack confidence and ambition; if you are easily discouraged and depressed; if you are not the man you ought to be, you need Electricity. Your nerves are craving for it just as the growing fields crave sunshine and warmth. In the great and sublime effort nature is making to restore your strength, she needs some aid. Will you assist her? You can if you will. This book, profusely illustrated, contains valuable advice for men.

MY BOOK IS GIVEN FREE TO and outlines the proper course to pursue for the greatest possible development of the physical and mental powers. Write or call for it to-day. It is sent free, sealed, by mail.
