## PIQUEUR PEST IN PARIS PROMINENT

Paris, Nov. 28.—Following epidemics of coat slashes and vitriol throwing from which the capital has suffered during the last year, Paris now is afflicted by "piqueurs" which persons, presumably men, are stabbing women with long needles coated with a poison as yet unidentified. The wounds first appear black, and then are marked by a swelling which rapidly becomes a painful irritation.

Built to Nature's Needs

**ARCH DEFENDER SHOE**

NOT only in elegance and super-fineness do Arch Defender Shoes excel, but for the first time since shoes have covered the human foot, here is a shoe that is designed to mould to the foot like a glove.

Arch Defenders possess the following exclusive features:

- (1) Specially modified foot form inside.
- (2) Sealing steel arch support from heel to scaphoid bone.
- (3) Built on foot-shape last instead of ordinary flat foot last.

Note the moulded insole. Your foot fits snugly as a glove.

## NOVEMBER BEAUTY.

(Ottawa Journal.)  
Oh, the joy of seeing outlined against the blue autumn sky the tall pines that tower up from the riverbank, of smelling the pine needles that carpet the ground, and of lying down and indulging in all sorts of pleasant day dreams.

The graceful maple and elm, the lovely beech with its whitened leaves still clinging to its branches as though they regretted the fast-approaching winter days; all these trees are perhaps never so beautiful as when seen against the blue skies of November.

## The Merchandise You Buy ---And Where You Buy it

A MERE purchase can be made anywhere—that we admit. Only when one considers the unseen elements involved, does careful discrimination become essential. There is a certain something, an intrinsic security which the label of an establishment must constantly symbolize.

Because for sixty-three years we have sold only the best to a clientele that will accept only the best, every single piece of merchandise bearing our name is built up to a quality standard, not down to a competitive price. This holds true no matter how casual and slight, nor how studied and important, that purchase may be.

And in addition to the merchandise itself our customers may rely upon a willing courtesy that in every department is persistent but never annoyingly insistent.

Emphasizing our readjustment of prices as announced a few days ago we offer for the coming week—

- BLACK RUSSIAN PONY** with a splendid variety of trimmings—  
Costs made in \$200 values—Readjustment price ..... \$155.00  
Costs made in \$250 values—Readjustment price ..... \$175.00
- ELECTRIC SEAL** with four varieties of trimmings—  
Costs made in \$250 and \$275 values—Readjustment price ..... \$210  
Costs made in \$175 and \$200 values—Readjustment price ..... \$150
- MUSKRAT** with and without borders of Muskrat in reverse, and a choice of differing fur collars and cuffs—  
Costs made in \$175 values—Readjustment price ..... \$145.00  
Costs made in \$200 values—Readjustment price ..... \$155.00  
Costs made in \$225 values—Readjustment price ..... \$175.00  
Costs made in \$275 values—Readjustment price ..... \$225.00
- PERSIAN LAMB** with the softest Skunk or Black Lynx collars and cuffs—  
Costs made in \$250 and \$275 values—Readjustment price ..... \$175

Yesterday Today  
How prettier teeth came to millions

Have you noted the glistering teeth you see everywhere today? And the open smiles that show them? You can see that great change has come in teeth-protecting methods. If you don't know what that change is, we urge you to make this test.

**They combat the film**

These people—millions of them—are now combating film. Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. It absorbs stains, then forms dingy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

These troubles had been constantly increasing. Beautiful teeth were less often seen than today. And all because no old-time tooth paste could effectively fight film.

**The problem solved**

Then dental science, after long research, found two film combatants. One sets to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then dentists everywhere began to advise their use.

A new-type tooth paste was created, based on modern research. The name is **Pepsodent**. Then these two great film combatants were embodied in it.
