THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, JULY 6, 1922

## The Evening Times and Star

ST. JOHN, N. B., JULY 6, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act. Telephone—Private exchange connecting all departments, Main 2417. Subscription Prices—Delivered by carrier, \$4.00 per year; by mail, \$3.00 per year in Canada. By mail to United States \$5.00 per year. The Times has the largest circulation in the Maritime Provinces. Special Advertising Representatives—NEW YORK, Frank R. Northrup, 350 Madison Ave.—CHICAGO, E. J. Power, Manager, Association Bldg. The Audit Bureau of Circulation audits the circulation of The Evening Times.

### SAVING LIVES.

Mr. C. E. Turner, assistant professor of biology and public health in the Massachusetts Institute of Technology, says that probably the greatest opportunity for saving life in the next few decades will be found in health education. There is very great significance in this remark. Hon. Dr. Roberts has many times pointed out that if we in Canada would save the babies born in this country we would be doing a greater service than in getting foreign immigrants with no knowledge of or regard for Canadian ideals, and perhaps diseased in the bargain. The more we think about this assertion the more impressive it becomes. Reduce the death rate and develop healthy children born in Canada, and there is an immense contribution to the country's welfare.

Prof. Turner, in the address delivered by him before the National Education Association in Boston last week, was dealing with the subject of health in its relation to the schools. He pointed out that health progress must depend upon the individual, and that therefore "we must translate a considerable body of as yet unassimilated knowledge into the lives and habits of the average citizen. On this point he said:

"This task develops primarily upon our great system of public instruction and the present enthusiasm for the improvement of the school health programme is modifying and improving health teaching in two important respects. The first innovation is what might be called applied personal hygiene or training children in healthful living. Instead of merely giving children facts about physiology and anatomy they are given training in all the essential health habits under the stimulus of watching their growth and by various projects for motivation. The second development in health teaching which is immediately before us is the translation of a considerable body of new knowledge regarding health and disease into the public school programme. Much basic information accumulated by the public health profession in the subjects of hygiene, physiology and sanitation must become the property of the general public if it is to be useful in disease prevention."

Another speaker, Dr. C. E. A. Winslow, professor of public health in Yale School of Medicine also condemned the "dull and profitless memorizing of anatomical structures."

"We are adopting a system of teaching which will aim at habit formation and shall be vitalized by direct appeal to the imagination and competitive instinct of the child. This is an admirable tendency, but we must be careful not to swing the pendulum too far, and to remember that habit formation if it is to continue effective throughout life must rest upon a sound theoretical knowledge of the principles upon which hygiene is based. We must recognize also that whatever inspired genius may accomplish in a few individual instances the incorporation of hygiene as a vital subject in our schools throughout the country can only be accomplished by its recognition as a part of the formal curriculum."

The object of all this is not merely to save the life but to increase the physical and mental efficiency of all. Pre-natal care, baby clinics, medical inspection, education in health subjects, public health nursing, health clinics, standardization of hospitals and other portions of a complete public health programme should be matters of universal interest and assured of universal support.

The surrender of the insurgents in Dublin came after great damage had been done to property. The responsibility for the destruction rests upon them. They refused to accept the verdict of the people and rebelled against the constituted authorities. The success of the government forces in Dublin should have a healthy effect upon the rest of Southern Ireland. Most of the leaders of rebellion are now prisoners. It would be unfortunate if De Valera were not added to the list of those under lock and key. He is the arch-conspirator who has pursued an utterly indefensible course since the moment negotiations looking toward the establishment of the Irish Free State were begun.

Hon. G. Howard Ferguson has been telling the people of British Columbia that the Ontario Conservatives will go into the next provincial elections with a liquor policy more "generous" than prohibition. If the Conservatives were worse drubbing in Ontario than they got last time they could not adopt a more favorable policy. The people of Ontario are very pronounced in their views on prohibition, and pilgrims who go to British Columbia in search of the sign by which to conquer are merely deluding themselves and wasting their time. Ontario has settled the liquor question and wants nothing short of national prohibition.

Turn to the right will be the rule of the road in this province after December 1. A long needed reform has been accomplished.

### HYDRO BRINGS PROSPERITY.

Winnipeg is looking for large industrial growth as a result of hydro development. Mr. A. J. Nesbitt of Montreal offers this testimony:

"It is the history of all hydro-electric developments that once the power is available large industries can be induced to locate in the vicinity and I foresee for Winnipeg a great future as a manufacturing centre."

The experience not only of Ontario but of Quebec bears out this statement, although Ontario is the particularly bright and shining example because there the rule is power at cost, and private corporations do not figure in the case as profit takers. New Brunswick has adopted the Ontario policy and will therefore get the fullest possible benefit from the industrial expansion resulting from cheap light and power. The half-century number of the Toronto Mail and Empire, from which the Times quoted yesterday, says:

"The central portion of Canada is indebted for its great industrial expansion of recent years to its water powers."

The people of New Brunswick must take heed of this testimony. The Mail and Empire says further:

"The widespread distribution of electricity in Ontario is now taken more or less as a matter of course. A map of the province showing the transmission lines of the Hydro Electric Power Commission very clearly reveals how wonderfully the water powers of Ontario are being utilized for the benefit of the people as a whole. Hundreds of communities large and small are now supplied with electricity at such low rates that rich and poor alike share in its many advantages, such as safety, cleanliness and convenience."

It is because of such results as this that Premier Foster urges his fellow citizens in St. John to secure the full benefit of the Musquash development, and that Mr. Kribs, late of Sir Adam Beck's staff, and now chief electrical engineer for the New Brunswick Electric Commission, assures the people of cheap light and power without a dollar in civic taxes to provide it, and of an industrial expansion such as in Ontario has followed the introduction of hydro.

The Financial Post has issued a special supplement giving valuable information about each of the provinces of Canada. In introducing the excellent article on New Brunswick it says: "Scarcely touched are the resources of New Brunswick, not one of the largest of Canadian provinces but one of the oldest and one of the richest. Agriculture, fishing and lumbering are the predominant industries, while mining is becoming of more and more importance. The province has an all-year-round ocean port which is an invaluable asset. Provincial finances are sound, and the municipalities are in a position of enviable stability."

Toronto Globe—"The Saskatchewan court of appeal rules that a provincial legislature has no power to prevent export liquor from being transported by motor car. A law similar to that which has been declared ultra vires in Saskatchewan is on the Ontario statute books and is being enforced. If the court of last resort upholds the Saskatchewan judgment the dry provinces must find some other method of combating the liquor interests, and they have a right to look for every co-operation from the federal parliament. The speediest remedy would be a federal law forbidding exports to a prohibited country."

It is announced that Hon. Charles Stewart, minister of immigration, will confer with the governments of the four western provinces on the question of a joint immigration policy, to prevent overlapping and to make everything so satisfactory for newcomers that they will remain where they locate. The maritime provinces also need immigrants, and joint action is most desirable. The co-operation of the three governments, and by them with the federal department ought to be the policy here as in the west.

The Irish Free State government brands the De Valera group as they deserve when it describes them as engaged in "a conspiracy to override the will of the nation and subject the people to a despotism based on brigandage and ruthlessness, regardless of the people's inalienable right to life, liberty and security."

Canadians would be glad to see Premier Mackenzie King attend the League of Nations meeting in September, but the Dominion will be well represented by Fielding, Lapointe and Larkin.

Lord Robert Cecil says world disarmament has been brought definitely nearer by action taken by the League of Nations commission on disarmament.

It should be possible for the city and Fairville and the city and East St. John to arrange terms for a union that would be mutually satisfactory and beneficial.

The dollar fund to furnish the recreation hut provided by the Red Cross for Lancaster Hospital should grow rapidly. It is a most worthy cause.

### POSSESSION.

There's some of us has this world's goods,  
An' some of us has none—  
But all of us has got the woods,  
An' all has got the sun.  
So, settin' here upon the stoop,  
This patch o' pine beside,  
I never care a single whoop—  
For I am satisfied.

Now, take the pine on yonder hill,  
It don't belong to me;  
The boss he owns the timber—still  
It's there for me to see.  
An' 'twist the owner's of the same  
An' smilin' at its smell,  
I've got the best of that there game,  
An' so I'm feelin' well.

The boss in town unrolls a map  
An' proudly says, "It's mine."  
But he don't drive the timber sap  
An' he don't smell no pine.  
The boss in town he figgers lands  
In quarter-sections red;  
Lord! I just set with folded hands  
An' breathe 'em in instead.

The boss his forest wealth he read  
In cent an' dollar sign;  
His name is written in the deed—  
But all his land is mine.  
There's some of us has this world's goods,  
An' some of us has none—  
But all of us has got the woods,  
An' all has got the sun.

—Douglas Malloch, the Lumberman Poet.

### LIGHTER VEIN.

According to Experience.  
Father—Gracious! The baby swallowed a piece of worsted!  
Mother—That's nothing to the yarn she'll have to swallow when she grows up.

The Other View.  
He was just coming from his girl's house. "You seem put out," remarked a friend who met him.  
"I was," he said. "Her father came home earlier than usual."

Too Dear.  
"Yes," said the specialist, as he stood at Joe Mulholland's bedside. "I can cure you."  
"What will it cost?" asked Joe faintly.  
"Ninety-five dollars."  
"You'll have to shade your price a little," replied Joe. "I have a better bid from the undertaker."

His Part.  
"You say," asked the lawyer, "that you personally saw the quarrel between the defendant and his wife?"  
"I did, answered the witness.  
"What did the defendant seem to be doing?"  
"He was doing the listening."

## OCEAN LIMITED WRECKED; ONE DEAD

Campbellton, July 6.—The Ocean Limited coast train, which left Halifax at 7.40 o'clock yesterday morning for Montreal was wrecked by a cow at a late hour last night near the village of St. Moise (Que.), eighty-three miles west of Campbellton. Mail Clerk Matte, of Lewis, was killed, another mail clerk, name unknown here, was severely injured and the engineer, Ollie Matthews, of Campbellton, was seriously scalded. Although the passengers were badly shaken up none was killed. The train was on a long distance, and the wreckage had not all been cleared away by 1 o'clock this (Thursday) morning.

### SHIPPING

ALMANAC FOR ST. JOHN, JULY 6.  
A.M.  
High Tide...10.28 Low Tide...4.32  
(Time used is daylight saving.)

### PORT OF ST. JOHN.

The Nyhavn arrived at Queenstown yesterday from Puywash with a cargo of lumber.

The Mottisfont sailed from Havre for Montreal yesterday.

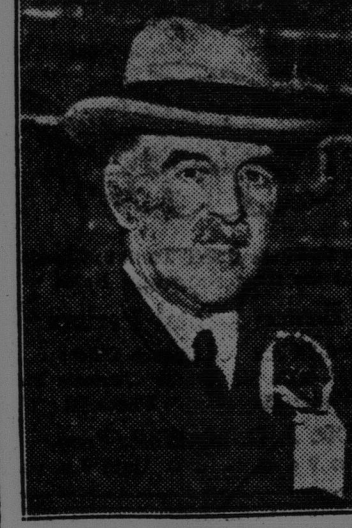

### TEXAS LEADS IN LYNCHINGS.

Twelve Recorded There in Six Months, Tuskegee Reports.

Tuskegee, Ala., July 6.—Twelve of thirty lynchings in the United States during the first half of the year were recorded in Texas, according to a statement of the Department of Records and Research of Tuskegee Institute. Mississippi was second to Texas with seven lynchings, while four were reported from Georgia. Arkansas had two lynchings, and one each was reported from Alabama, Florida, Louisiana, Oklahoma and South Carolina.

The number lynched during the period is six less than for the first half of 1921 and eighteen more than the number recorded for the first six months of 1920.

### FAVORS CATTLE EMBARGO.

Sir Arthur Griffith-Boscawen, British minister of agriculture, who says he will both speak and vote against the proposed removal of the cattle embargo.

### LOCAL NEWS

Despite weather conditions the Varsity Troupe visited the D. S. C. R. hospital, West St. John, to entertain the patients yesterday, and today the County hospital will also be favored with a visit.

Authority to dispose of the assets of B. A. Keith, of Annapolis, who made an assignment to the Canadian Credit Men's Trust Association, was granted at a meeting of the creditors yesterday afternoon in the office of the assignee, F. B. Schofield and S. F. Jamieson were appointed inspectors.

A postponement until fall of the experiment in Boy Scout circles of relieving a message by bicycle from the mayor of St. John to the mayor of Moncton has been made, owing to the fact that the Moncton troops are busy at present with summer camp plans. The St. John end was ready to go ahead but word was received from Moncton recently by Guy L. Short, provincial commissioner, asking for a delay.

Some excitement was caused on the Marsh Road last night when a horse driven by Dennis Knuckson, 41 North street, becoming frightened when a wheel of the carriage struck the car track, ran away. Mr. Knuckson held onto the reins and was dragged for some distance before the animal could be brought to a stop. He was covered with mud and his clothing was very torn, but he escaped any serious personal injury. The horse was not hurt.

The Duke of Rothesay, chapter, I. O. D. E. held a bridge and tea yesterday afternoon at the home of the regent, Mrs. William Allison, at Rothesay. Among those helping were Mrs. Allison, Mrs. William Allison, Mrs. DeB. Carriette, Mrs. F. Roach, Mrs. James Henderson, Mrs. Paul Blanchet, Mrs. W. R. Hibbard, Miss McMurray, Mrs. J. H. McIntyre, Mrs. Hugh Cannell, Miss Puddington, Miss Pitcher, Mrs. Thomas Bell and Miss Allison. Prizes were won by Miss Clarke, Mrs. Walter Gilbert, Mrs. Frank A. Smith, Mrs. Harold Mayes, Mrs. W. A. Clarke and Mrs. Arthur Bowman.

D. W. Kyle, grand priest grand royal arch chapter of New Brunswick, accompanied by George V. Stevens, deputy grand high priest, have returned from an official visit to several royal arch chapters in the province and covered 1,138 miles in their trip. The party left on Saturday, June 24, and many trying experiences were endured in their endeavors to get up the St. John river valley at flood time. Rain fell during most of the trip and fre-fre work in Maine were slightly better, but many muddy stretches were encountered.

Adila Temple No. 157, Dramatic Order Knights of Khorassan, held a special meeting on Tuesday evening to make final arrangements for the pilgrimage of Abou Ben, Adem Temple of Boston to this city for several days last week. The party is coming by boat with Dr. H. C. Perkins as Royal Vizier. Upon the evening of the day of arrival there will be a reception and dance in the grand ballroom. The next morning the combined temples with their ladies will go to Fredericton to visit the members of Adila Temple there. There will be a banquet and later an initiatory ceremonial. The third day will be marked by a clam-bake and sports at Gondola Point. The last day will be open for the delegates to do anything they wish and they will leave by the boat in the evening.

### SUGAR GOES UP 25 CENTS ON 100 LBS. IN MONTREAL

Montreal, July 6.—Another advance of 25 cents a hundred pounds in the price of refined sugar was announced here yesterday by the Canadian Sugar Company and the Dominion Beet Sugar Co., bringing the present price to \$7.25 a hundred pounds. This makes a total advance of \$1.35 a hundred since June 1.

### TENDERS FOR THE ALBERT SCHOOL

At a special meeting of the school trustees yesterday, tenders for the new Albert school, West St. John were opened. There were nineteen, ten for the work complete. The lowest tender for the work in full was submitted by H. O. Clark of this city, whose figure was \$151,085. This was \$700 lower than any other bid made. The combination that could be made, the awarding of the contract was left in the hands of the chairman, Chief Justice McKeown, Michael Coll. H. Colby, and the architect, F. Neil Brodie Smith and the school board at the next meeting.

Besides Mr. Clark's tender, others submitted were: Parsons-Ed Co., \$168,559; B. Mooney & Sons, \$159,835; Allan Construction Co., \$169,946; John Flood & Sons, \$170,000; R. A. Corbel, \$171,000; J. A. Green & Co., \$171,000; M. J. Bell, \$181,000; F. L. Boone, \$182,000; J. E. Kane, \$205,400.

Tenders for coal were considered, and the contract awarded to the Colwell Fuel Co. for American anthracite and Welsh coal at \$13.90 a ton, and soft coal at \$6.90.

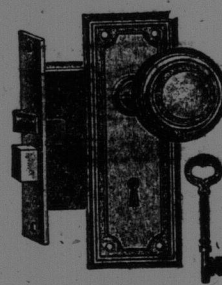

At the request of George E. Day, the use of the school buildings was granted to the Playgrounds Association on the usual conditions.

## BUILDERS' HARDWARE

If You're Going to Build—Build Right.

Put good materials into your building if you expect to be thoroughly satisfied.

In building a house you are building for the future and the life of your home depends to a large extent upon the kind of hardware and other material you put into it. The use of cheap materials will sooner or later be the cause of heavy repair bills, so that the building will cost just as much, if not more than good materials would have cost.

Good Builders' Hardware is one of our specialties—we buy it carefully—we choose discriminately because we realize that it pays to put good hardware into a home.

We shall be glad to help you make desirable selections.
