**INDOOR WORK REDUCES STRENGTH**

because confining duties, lack of fresh air and sunshine gradually weaken even a strong constitution, and the enfeebled system readily accepts sickness and disease.

Scott's Emulsion checks such decline. Its pure cod liver oil is nature's grandest medicinal food while its hypophosphites act as a building tonic. It refreshes the body, puts vigor in the blood, strengthens the lungs, rebuilds the nerves and invigorates the whole system.

If you work indoors, Scott's Emulsion after meals will prevent much sickness and loss of time, and often thwarts tuberculosis—it builds up and holds up your strength.

Shun Alcoholic Substitutes and INSIST ON SCOTT'S.

### MORNING NEWS OVER THE WIRE.

Philip MacLeod, Liberal-Conservative candidate in the federal by-election contest in Victoria, C. B., yesterday defeated J. S. Morrison by thirty-two votes.

At the annual dinner of the Fredericton board of trade members last night in the Y. M. C. A. hall there, more than 100 were in attendance, and optimistic speeches were made. Fredericton was forecasted as future railway and jobbing centre of the province. An able address was given by the president, J. D. Palmer.

In the findings of the committees appointed to investigate the charges of corruption made against members of the Quebec legislative assembly made public yesterday, Messrs Bernard, Begevin and Mosseau were adjudged guilty of having accepted money in connection with the passage of a certain bill. Mosseau received \$4,150 and the other two something less.

The school house at North Head, Grand Menan, N. B., was totally destroyed by fire last evening at a loss of \$8,000 covered by \$2,000 insurance.

The Greater New York Council of Longshoremen has ordered a strike of 28,000 members of the union to begin on Monday next unless the Bervind-White Coal Co. which supplies almost all of the trans-Atlantic steamship companies, pays its men more than \$20 a month.

The company employs about 6,000 longshoremen.

The house of lords yesterday adopted an amendment to the address in reply to the speech from the throne by a majority of 188 in favor of a general election on the Irish home rule question.

Albert McLaughlin, farmer, of Oakdale, Me., was found to death yesterday while driving.

Three persons died yesterday in New York from the cold. There is much suffering in the poorer districts of the city.

Schoolboys returning to their homes in Minneapolis, Minn., discovered a fire on the roof of a house, and through the use of snowballs had the fire pretty well out before the apparatus arrived.

### NO QUARTER FOR TAMMANY

(New York Herald)

There must be no compromise with Tammany, said Charles F. Murphy, President Wilson declared yesterday to Governor Glynn, who called on him with William F. McCombs, chairman of the Democratic National Committee.

The situation in New York is excellent as the result of the conference," Mr. McCombs said.

Publication of a letter from Richard Croker to the late John Fox, in which Mr. Croker said that Charles F. Murphy was a big handicap to the McCall campaign and that "the Hall" could not win under Murphy leadership, caused a stir among Tammany men.

Samuel A. Beardsley, attorney for the estate of Anthony N. Brady, told in the John Doe investigation of the payment of \$25,000 by the late financier to Charles F. Murphy, and corroborated Mr. Murphy's version of the transaction by testifying that Mr. Brady said he got back one of his \$25,000 contributions.

After a supper in the Y. M. C. A. building last night the directors met in monthly session, J. Hunter White presiding, and considered routine matters and other business. The monthly reports submitted were encouraging, those of C. D. Howard, physical director; D. D. Milligan, boys' secretary, and S. O. Watt, secretary, being well received. The general report showed a total of 687 members, four less than last year.

### English Beauty Tells Complexion Secrets

("Elise" in American Home.)

Through a fortunate meeting with an English lady, noted for her dazzling complexion, I recently learned the full meaning of that old adage, "Beauty is but skin deep." She taught me how to remove my muddy old skin, revealing the young and beautiful skin underneath. The process is so simple, harmless and inexpensive, I'm sure you'll be glad to know about it. Just get an ounce of ordinary macerated wax at any drug store and apply nightly, like cold cream, for a week or so. Every morning in washing off the wax, tiny particles of worn-out cuticle come off, too. The action is so gentle and gradual, there's no discomfort. It's a wonderful treatment, as it not only peels off the faded or discolored skin, but also all its defects, as chaps, roughness, freckles, pimples, blotches, blackheads.

I am indebted to the same lady for a remarkable wrinkle-removing formula. One ounce powdered saxolite is dissolved in a half pint weak acid. Used as a face bath, this is so effective that just one application causes the finer lines to disappear, and soon even the deepest ones go.

### Simple Home Treatment For Superfluous Hairs

(Beauty Culture.)

A very effective and simple home treatment for superfluous hairs is as follows: Mix into a paste enough powdered delatone and water to cover the hairy surface, apply and after 2 or 3 minutes rub off, wash the skin and every trace of hair has disappeared. This method is devoid of pain or danger and leaves the skin free from spot or blemish. Best results naturally follow when the delatone is purchased in an original package because its strength and purity are then assured.

### JOHNSON'S ANODYNE LINIMENT

Countless thousands of families have found it to be the surest and quickest remedy for Cuts, Wounds, Sore Throat, Bowel Complaint—internal and external ailments.

## Daily Hints For the Cook

### Poor Man's Pudding.

Butter a pudding dish. Over the bottom of dish, scatter half cup well washed raw rice, half cup sugar, a pinch of salt, a sprinkle of nutmeg. Then pour on one quart of milk. Bake in a medium oven one and a half hours. Don't stir at all, either before or after it goes into the oven. The time of baking may vary, but bake until the rice shows above the milk, and it is done. Every grain is separate and the milk is like cream. If the oven is too hot the milk evaporates and it is too stiff.

### English Bath Buns

Sift one quart flour into bowl, add ½ teaspoon salt. Make hole in centre and break in four eggs, then add ½ cup lukewarm milk, in which dissolve one yeast cake and ½ cup butter. Mix thoroughly with spoon and set aside to rise in a warm place 1½ hours. When light, turn out on floured board and sprinkle with five tablespoons sugar and three tablespoons chopped almonds, and work them into the mass by drawing the tips of the fingers lightly and quickly through the dough. Do not knead. Then drop by spoonfuls, ½ inch apart, into greased pans. Let rise 10 minutes. Bake in hot oven. This makes two dozen. Process takes about two hours and fifteen minutes.

### TROUSERS FOR TINY GIRLS.

"Look Just Like Brother" in London Streets This Winter.

Soon it will be difficult to distinguish small boys from little girls in the streets of London, for the latter this winter

25 Cents Per Pound Value

## "SALADA"

Reducing the Cost of Living—and yet, Raising the Standard of Quality.

Here's Your Opportunity Get a packet of your grocer To-Day"

Tea-Pot disappointment is impossible but you must be sure its "SALADA"

are wearing trouser-like suits. Little girls can be seen wearing cloth knickerbockers, prefer coats, and hats that make them look "just like brother."

On a recent cold day some little girls wore blue cloth knickerbockers, high-legged boots, and blue sailor coats with brass buttons. They looked very comfortable and bony, and wore the new waterproof sou'wester hats.

"Fantilets" are an innovation for both boys and girls and now being sold in London. They are made like tight-fitting trousers and garters all in one, and fit from the feet to the waist. Over these, which are effectively cut, in cloth, is worn a jersey and a great coat, so that the boy and girl are dressed quite alike.

**SALE! SPECIAL!**

**FIVE PIECE PARLOR SET**

**J. Marcus - 30 Dock St.**

**The Straight Line in Creating Demand**

**"A Straight Line is the Shortest Distance between Two Points"**

Whatever troubles old Euclid gave us in our schooldays his axioms were simple enough. In our business life to-day we show a lively appreciation of the truth of this axiom in cutting out superfluous efforts—in the saving of time and labor.

In making goods the straight line is "efficiency." It is the shortest distance between raw material and finished product.

**In Selling Goods, the straight line is Newspaper Advertising.**

It is the shortest distance between the seller and the buyer. Some manufacturers are applying the straight line in the making of their goods, but neglecting it in the selling of them. Some have no line of communication with the consumer at all—many let their message meander along by-paths of "chance acquaintanceship" instead of telegraphing it along the straight line of Newspaper Advertising.

**Newspaper Advertising is the Shortest Distance between the two points of "Supply" and "Demand."**

If you are doing a local business talk over your advertising problems with the Advertising Department of this Newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished without cost or obligation, by the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto.
