THE INVISIBLE STONE.

What's all this talk about breaking stone? Cannot you leave the stone-breakers alone? Their life is as hard as the stone that they break.

Leave them in peace for humanity's sake.

What if the stone that they break you can't find? Is not good effort oft cast to the wind? Even if the stone that is lost was not broke, Is not this loss fully met by the joke?

Hard is the life of the stone-breaker here? Bushels of 'bacca and oceans of beer? Ceaselessly breaking invisible stone— He is contented; pray, leave him alone!

Survey and Borings on The Ste at Ballast Wharf—A Talk With the Official in Charge

That actual building operations will soon be commenced in connection with the establishment of the Atlantic Sugar Refinery here is indicated by the fact that preliminary work was started this morning on the site of the proposed new plant at the Ballast wharf property. A survey is being made, lines are being laid out and borings will be made at once to ascertain the nature of the ground.

Alex. Allaire, M. E. of the Foundations Co. Ltd., Bank of Ottawa building, Montreal is in charge of the work and with him is John Buscher, who will act as foreman of the boring operations. G. Gray Murdoch, C. E., is in charge of the survey work.

When Alex. Allaire visited the site this morning these officials were at work with assistants, staking off the ground for the half dozen or more buildings which it is proposed to erect. A pile of lumber was also in evidence and will be used for building a shed for the workmen who are to be engaged in the work. The boring apparatus has arrived from Montreal and will be taken to the site today or Monday.

Mr. Allaire, in answer to the queries of a reporter, said he had been instructed by his principals to come here and lay out the site of the buildings and make borings to ascertain the nature of the ground in preparation for the pier that would be necessary for the foundation. His work, he said, was to contract for superstructures. He was not in a position to say whether a contract had been let for the buildings or not. Before any actual construction work could begin he said they would have to obtain full information about the nature of the ground. He has been making inquiries about the purchase of heavy timber to be used in order to compare the prices with the figures of Montreal dealers.

Mr. Allaire will return to Montreal this evening and will probably return in a week or ten days to see how the work is progressing. In the meantime Mr. Buscher will have a force of men at work erecting a shed and taking borings.

The time fixed for the commencement of work under the agreement with the city is March 20, and that Mr. Durant at present has now a well within the specified time limit.

This is Mr. Allaire's first visit to St. John and he expressed himself greatly surprised at the size of the city and the activity displayed. He thought the establishment of the sugar refinery here would be the means of attracting other industries.

McAvity, officer commanding the 62nd Regiment St. John Fusiliers, has called a parade of all officers, non-commissioned officers and men of the regiment for Wednesday evening, the 8th inst., at 8 o'clock, in plain clothes. TWO PRESENTATIONS

His friends in St. John will regret the departure of Warren Kilpatrick, who has been in the employ of Manchester, Robertson Allison Ltd. for several years, but who will leave this evening for Toronto, where he has accepted a position. Before severing his connection with the clothing store, he was made the recipient of a handsome hand bag by his fellow clerks in the men's and boys' clothing department.

Mr. Kilpatrick was the central figure last night at a happy gathering of the men boarders of Leinster Hall, where he was dined by them in Room 1, and where Wm. Johnson, on behalf of the boarders, presented to him a valuable meerschaum pipe. A round of speeches and toasts were given and a pleasant time spent. The toast to the King was proposed by George Moore; to the guest of the evening by Wm. Johnson; to the boarders by George Gumbin, and I. Ross, and Burt Mayes spoke for the ladies. Miss Wainman also contributed to the enjoyment of the evening.

THE NEW C. M. B. A. BRANCH.

The indications for the future of the new Branch #1 of the C. M. B. A. in the north end seem very bright, if a large membership and a keen interest may be taken as criterions. Another meeting was held in their rooms, St. Michael's hall, last evening, when several members were initiated, the president, J. T. Quinn, and the grand deputy, T. H. Kichang, officiating. The latter also delivered a stirring speech, and was tendered a hearty vote of thanks as were M. D. Stewney, and F. J. Casey for their services in helping in the organization of the new branch.
