STOPPED HER HEADACHES

Years Of Suffering Ended By "Fruit-atives"

112 Hazen St., St. John, N. B.

"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine 'Fruit-atives' made from fruit juices. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors, but nothing seemed to help me until I tried 'Fruit-atives'."

After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since."

Miss ANNE WARD.

See a box, for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-atives Limited, Ottawa.

MORE PRICES HIGHER

(Hardware and Metal, Oct. 23th.)

Price changes are numerous again this week and almost without exception are upward. Carborundum products show one of the heaviest advances, the new quotations being 25 per cent. higher than former figures. Clothes pins move up ten per cent., screen doors about seven per cent., and screen windows the same.

Advances are also shown in the prices of roller skates, crumb sweepers, apple picker baskets, round shank jobbers' drills, auto coaster wagons, Japanese hitching rings and Jellotone.

Ingot metals are reported firm. Spot lines continue very scarce.

Prices are firm, but within a week or two easier markets are looked for. Turpentine prices are holding unchanged. Deliveries are only fair and advances from the South are to the effect that factors are holding back looking for higher prices as supplies generally were never known to be so scarce.

CANADA GOOD MARKET FOR AUTOMOBILES NOW

The "A" industries are still doing the bulk of the buying as far as machine tools and supplies generally are concerned, says Canadian Machinery and Manufacturing News. In this case the recovery of the automobile and agricultural shops. There must be a very large market for cars in this country now, and prospects of tremendous sales in the spring as the matter of supply have been in existence only a short time are already planning to what extent they will build their extensions, and all this means that there will be a big market for tools and supplies.

The steel strike in United States has had the effect of slowing down the deliveries of material to this country, until at present it can be estimated as being 35 per cent. of normal, and slower in proportion. In some cases, though, material comes through well, as one of the shipbuilding concerns got a nice tonnage of plate across that only went to the mills in the middle of September. The recovery of production at the mills themselves is slow, and business is piling up at the mills, although it must be said the steel strike in United States has had the effect of slowing down the deliveries of material to this country, until at present it can be estimated as being 35 per cent. of normal, and slower in proportion. In some cases, though, material comes through well, as one of the shipbuilding concerns got a nice tonnage of plate across that only went to the mills in the middle of September.
