(Special to the Times.) Ottawa, Ont., June 11.-The Globic, and Mail to-day deal editorially with the result of the British Columbia elections. The Mail says that Martin was wind off the face of the earth. The electrical it says, was not only disastrous to Martin, but to Lieut.-Governor McIrmes. The Globe says: "The Martin government is now defeated, and thus we have a state of affairs under which, as 35 Wilfrid Laurier says, the Lieut Cournor will be found to have taken a very serious step. He dismissed a minister

which was not charged with dishonesty Kimberley gave Smith a majority of or flagrant wrongdoing of any kind. The dismissal was condemned by the legislature. He chose as his first minister gentleman who was immediately declared by an almost unanimous reselvtion of the legislature not to possesses confidence. It is therefore obvious that he assumed a grave personal responsibility and took a large risk, staking everything on an appeal to the people off may be contended that the stake was so large as to include his own official life, and that the people in rejecting Martin have pronounced against the action of the Lieut.-Governor."

The Ottawa newspapers, as well = those of other cities, agree that Martin has met with a crushing defeat. (Continued on page 6.)
