and was ordained priest by the late
Bishop Binney.

Bishop Dart.

The Right Rev. John Dart, D. D.,
D. C. L., died at the See House, New
Westminster, B. C., on April 17th. The
deceased bishop resided from Devon-
shire where he was born in 1837. He
was educated at St. Mary's Hall, Ox-
ford and made priest in 1861. He had
held the following positions: vice-prin-
cipal of St. Peter's college, Peter-
burgh, England; president of King's
college, Windsor, N. S. He was con-
secrated bishop in 1896, and was a doc-
tor of civil law from this university.

Faculty Additions.

During the past year two additions
have been made to the faculty at
King's. E. R. Howard, M. A., Esq., has
been appointed assistant professor of
chemistry and J. S. Turner, B. A., has
taken over part of the mathematical
department.

Tomorrow the annual meeting of the
alumni association will be held in
convocation hall, at 10.30 a. m. At
3 p. m., the house of convocation will
meet to elect members to pass degrees
to be conferred on Thursday. The an-
nual enconcia week cricket match will
be played tomorrow on the university
campus. The enconcia luncheon will
be given in commons hall at 1
p. m.

The chancellor of the university,
Mr. Justice Hodgson, of Charlottetown,
P. E. I., will not be able to attend
convocation this year and the de-
grees will be conferred by the vice-
president, Dr. Willetts.

Although no official announcement
has yet been made, it is understood
from good authority that a member of
the faculty will be elected to the
meeting of the house of convoca-
tion to be held tomorrow that three
doctors of civil law degrees will be
passed. These are: T. C. Allen, B. A.,
C. Fredericton, W. B. Wallace and
Judge McKewen. St. John. All large
social functions were of course, can-
celled on account of the late death of
the monarch, and at the same time many
small dances and receptions are being
given by the hostesses of Windsor, and
the week promises to be exception-
ally pleasant.

Tonight was to have witnessed the
largest gathering of the Halliburton
Club since its inception. Among the
speakers arranged for were Lieuten-
ant Governor Fraser and Mr. Justice
Longley. But this function has,
like the college play on Wednesday
night and the university ball which
was to have been held on Thursday
night, been called off.

Enconcia week began yesterday. It
was Baccalaureate Sunday and never
has there been a more memorable one
in the history of King's.

The college chapel was draped in
Royal purple and the student body
were in "university mourning." Special
hymns were rendered by the choir
in the morning and afternoon. Among

W. W. MAHONEY AGAIN KNOCKS STATE DEPUTY

Knights in Session At Moncton Elect Officers And Decide To Meet Next Year In Chat- ham.

Boston Woman in Testimony Before State Commission Recommends Rating For Dairies.

Special to The Standard.
Moncton, N. B., May 10.—The state
council of the Knights of Columbus
this afternoon elected officers as fol-
lows: State Deputy, W. J. Mahoney;
St. John; State secretary, C. G. Duff;
Charlottetown; State treasurer, A.
D. Chisholm; Antigonish; State ad-
vocate, J. J. Sweeney; Moncton;
State warden, Michael O'Brien; Har-
bor Grace, N. E.; State chaplain, Arch-
bald McCarthy, Halifax. A resolution
of sympathy on the death of the King
was adopted and it was decided to
meet next year in Chatham. New-
foundland delegates have gone to St.
John to spend a day or two on invita-
tion of State Deputy Mahoney.

Shafesbury Lodge, Sons of England
today passed a resolution of con-
dolence on the death of the King and
pledged loyalty and fidelity to King
George.

Well No. 3 of the Maritime Oil fields
near Hillsboro, which could not be
controlled when struck last Friday
owing to enormous pressure of gas,
was successfully capped today. Sec-
retary Wheeler today visited the oil
and gas fields and expressed his sur-
prised at the developments. Dr.
Henderson is at present in England.

Ben Lomond, Cal., May 10.—With
Mrs. Jeffries applying, J. J. Jeffries
roughed it for six rounds with Joe
Choyinski and Bob Armstrong, in the
Gymnasium today.

With his right hand blackened from
the rap he received on Monday, Jeff-
ries seemed anxious to give a good
account of himself. His two sparring
partners, the Boston contractor, who
has been over, Jeffries was faster than
at any time since he began training.
After three miles of rapid sprints on
the road, he announced that he had
taken off about 25 pounds since he
began training and now weighs 225.
Nothing was done during the after-
noon, but at about the eighth round
in a little fast baseball practice. Jeff-
ries worked out today was said to be
reassuring after his lumbering ex-
hibition on Monday.

He romped through the two clotting
matches as if he enjoyed it and in one
of the mix-ups playfully set Arm-
strong on his back as if he were a
punch bag.

San Francisco, Cal., May 10.—Jack
Johnson was out on the road again
today for another 12 mile jaunt and
took his camp followers along at a
faster clip than on the previous day.
He felt so well on his return to camp
that he tossed the matter of the
handicap before he gets into the
ring.

Johnson's trainers are highly pleas-
ed with the first work he has done
in the preliminary training work. It
is the best proof of his condition. John-
son weighed today and his weight
was 225. He had lost 25 pounds.
He had estimated that he would strip
at 226. "Guess the two days on the
road have taken off some weight,"
said the big trainer. "I want it to be
right for this fight, and any extra
weight Jeffries may have, he is wel-
come to it. He will need it into the
ring."

Police Officer Corbett showed some
of the fighting qualities which made
"Pompadour Jim" famous, last even-
ing when he tackled no less than six
men who were engaged in a desper-
ate fight on Douglas Avenue, and did
not let up until four were placed behind
the bars. The other two escaped.
The men had been drinking and in
some manner became engaged in a
fierce struggle. Officer Corbett hap-
pened along and endeavored to re-
store peace. His advice was not tak-
en kindly to, and he soon had to use
more stringent measures. The men
put up a tough fight, but the plucky
officer did not let up till he had land-
ed his men.

North End Early Closing.
A meeting of the North End Early
Closing Association was held in the
Portland Y. M. A. rooms last evening.
Thomas Armour presided. One
George Wetmore acted as secretary.
A large number of merchants were
present and the movement was dis-
cussed in all its phases. The general
sentiment of the speakers seemed to
favor the 8 o'clock closing scheme.
The general majority of the merchants
are already closing at 8 o'clock. One
or two merchants, however, refuse to
close and a strong committee consist-
ing of Messrs. MacKinnon, Brown,
McConnell, Wetmore and Turner was
appointed to confer with them and
ascertain their reasons for refusing
to come into the movement.

Church of England S. S. Association
was held in St. Luke's church last
evening. Rev. G. A. Kubring presided.
A large number of the clergy and
officers of the Sunday schools were

by Mr. Dibble. Miss Barlow of St.
John's (Stone) church read the other
paper. The teachers took a large part
in the discussion which followed. At
the close of the meeting the presi-
dent referred to the revival in Sun-
day school work. Adchesean Ray-
mond read the scripture.

Quebec, May 10.—Quebec has a silk
mystery. \$25,000 worth of silk goods
said to have been received in Quebec
six days ago and at once insured for
about \$22,000 have disappeared, the
discovery being made today by Ald.
Cummings, who, in his capacity as ap-
praiser for the insurance companies
interested, visited the Hanger in Val-
ter street in which the silk is said to
have been stored, to appraise the loss
sustained by a small fire in the Hanger
last night. Though the fire was a
slight one and extinguished before
hardly any heads had been gained,
and the boxes in which the silk is
said to have been stored hardly scor-
ched, not a yard of silk was found in
any of them.

French Astronomer Reports An
Addition of Two Degrees
Within Few Days—Cyanog-
an Gas May Affect Earth.

Paris, May 10.—Astronomers in
France are making observations on
Halley's comet that are attracting the
greatest interest. Maurice Hamy, of
the Paris observatory reports that the
length of the tail has increased from
five to ten degrees in three days.
Prof. Deslandres, of the University
of Dijon finds a reappearance in the
spectrum of a gas which was observed
in January and February, but which dis-
appeared in March. In his report he
says that the hypothesis that the gas
is liable to effect the terrestrial at-
mosphere would not be at all absurd.
On the other hand, Camille Flammarion
thinks that the tail of the comet is
simply an optical phenomenon pro-
duced by the flight through ether to
the wake of a ship at sea.

ent at the meeting and as the ap-
plications were read he testified that
the applicants were known as liquor
dealers and that they had given a
great deal of trouble to the police
and returned leaving Welsford on the
