AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns
Gray, Faded Hair Dark
and Glossy.

Almost everyone knows that Sage
Tea and Sulphur, properly compoun-
ed, brings back the natural color and
lustre to the hair when faded,
streaked or gray. Years ago the
only way to get this mixture was to
make it at home, which is messy
and troublesome.

Nowadays we simply ask at any
drug store for "Wythe's Sage and
Sulphur Compound." Top will get a
large bottle of this famous recipe
improved by the addition of other in-
gredients, at very little cost. Every
body uses this preparation now, be-
cause no one can possibly tell that
you darkened your hair, as it does it
so natural and even. You dampen
a sponge or soft brush with it and
draw this through your hair, taking
one small strand at a time; by
morning the grey hair disappears, and
after another application or two, your
hair becomes beautifully dark, thick
and glossy and you look years you-
nger.

happiness to thousands of women

LATEST TYPE OF TOURIST CARS
One of the features in Canadian
National Railway's Daily Service
Toronto—Winnipeg—Vancouver
The Canadian National daily trans-
continental train, Toronto-Winnipeg-
Vancouver made its initial trip from
Toronto, with one of the very latest
type of steel tourist cars as part of its
equipment. The first of an order of
twenty such cars in whose construc-
tion every point has been considered
for the safety and comfort of passen-
gers. This modern type of tourist car
with anti-telescopic device is of simi-
lar design to the standard sleeping
coach, the exception being they are
upholstered in leather instead of
plush.

Electrically lighted throughout, all
berths, upper and lower, are provided
with berth lamps. A new feature for
this class of car is that lamps have
been installed under the seats in the
aisles of the car, so that when the
ceiling lamps are turned on for the
night light may be provided under
berth curtains, a great convenience
for passengers when going through
the car.

Phosphorous push buttons can be
readily seen in the dark, should the
passenger require to switch on the
light or ring the bell, when the berth
curtains are closed when in use.
Separate berth curtains are provided
so that passengers in the upper berth
will not disturb passengers in the
lower.

A safety feature introduced is a
device for holding down the upper berth
which precludes any possibility of the
upper berth closing when in use.
Separate berth curtains are provided
so that passengers in the upper berth
will not disturb passengers in the
lower.

The kitchen has the latest steel
range, facilities for washing dishes,
and lockers enable passengers to store
their food. Lavatories have received
special attention, and provide greater
convenience than the older type. An
electric thermostat heating control
can be so adjusted as to regulate the
temperature of the car, thus prevent-
ing overheating.

Thus with the introduction of the
daily service of the Canadian National
train between Toronto-Winnipeg-Van-
couver, is the added convenience of
the very latest type of tourist cars for
second-class passengers who can en-
joy a transcontinental trip in every
comfort at minimum expense.
