## SIMPLICITY OF LOAN

is as Easy to Invest in Loan as to Buy Post Office Order—Vouchers Sold Over Counter and Pos Office Guarantee to Buy Back at Any Time.

By W. E. DOWDING.

London, June 23 (by Mail).—Although Mr. Lloyd George has left the Treasury for other and equally important fields of activity, the new War Loan shows that his spirit still "broods darkling" over our national finances. The ex-Chancellor is above everything a democrat, and each new departure of his, whether in finance or in legislation, has always carried the hall-mark of democracy. His annual budgets, his pension and national insurance schemes and land proposals are all instances of what I mean.

The most prominent feature of the new loan, there Gien Cove, July 6.-J. P. Morgan passed a O fore, is the opportunity it offers to the working men and women of the country to "do their little bit" in casting the silver bullets which are going to give us a final and definite victory over the enemy.

This, of course, is neither the place nor the time to discuss the economics of the latest War Loan, but there are two points in it which I would point to as ners over the telephone this morning, about O evidence of the serious desire of the Government t The first is its extreme simplicity, so far as the small lar amount; there is the same absence of formality details. The vouchers are sold over the counter as if they were so many cakes. The second induc to buy back the vouchers at any time and in any quan Mr. C. A.
