THE SUBMERGED DOUBLE-ACTING, NON-FREEZING FORCE PUMP.

THE SIMPLEST and most powerful in use. It is proved to be the Cheapest, most Effective and Reliable Pump.

It is the Cheapest its first cost being one-third less than any other Force Pump, of the same capacity, and never gets out of order. It is the most effective, because it never fails. It is the most durable, being composed of five simple parts, all of metal, has no leather packing but a very strong piston. It never freezes, since no water remains in the pipe when not in action. It furnishes the purest and coldest water, as it is placed in the bottom of the well, and being galvanised does not impart any unpleasant taste to the water.

This Pump is most useful in case of Fire, or for watering Gardens, as it throws the water a great height. Farmers, mechanics, and others would do well to have one of these Pumps on their premises. Price of Pump alone, \$16.00, pipe, hose, &c., &c., additional.

On view and for sale at the Agricultural Emporium, London.
