FOR A

Reliable Power

You know them better than we—a score of places where farmers are using power these days and making money by it.

The I. H. C. gasoline engines which can be had in varied styles and numerous sizes are ideal for farm purposes.

They are simple, easily understood and easily operated. They don't go on a strike and give you the trouble some gasoline engines do. Then, you will get all the power at which your engine is rated.

And you get this abundant power at a low cost. I. H. C. engines use gas, gasoline or alcohol, and are most economical in the use of fuel.

Here is one of the great points to consider in I. H. C. Engines. They are made to be run CANADIAN BRANCHES: Calgary, London, Montreal, Ottawa, Regina, St. John, Toronto, Winnipeg.

by people who are not expert mechanics. That means safety and simplicity and the least possible chance of their getting out of order.

You cannot afford to buy an engine you do not know to be dependable. We cannot afford to sell any other kind.

These engines are furnished in the following styles and sizes:

Vertical—2, 3 and 5 H.P. Horizontal—4, 6, 8, 10, 12, 15 and 20 H.P. Portable—4, 6, 8, 10, 12, 15 and 20 H.P.

Just look over your needs for a good reliable power and then call on the International local agent or write nearest branch house for catalog.

AN OCTOBER CHAT.

"I feel very fine in my new fall suit,"

A slim little maple said,

"It is fashionably made, of a wonderful shade,

In color a beautiful red."

Said a pine tree near with a scoff and a sneer

And scornfully shaking her head:

"In rich dark green I'd prefer to be seen

Than in any old shade of red."

Then the beech grass laughed to hear them chaff,

As the breeze swayed her up and down;

"Not in red or green would I be seen,

But only in deep warm brown."

So there they all stood at the edge of the wood

And talked in the crisp fall weather,

And the red and the green and the brown, I wern,

Made a beautiful sight together.
