

HOW TO BUILD A GOOD FENCE

Our new folder on "Erecting Fences" will tell you and if you will follow the instructions carefully when you are through you will have a good job.

It's full of valuable and interesting information on fence building and tells how to erect woven wire fencing in the quickest and most substantial manner.

No farmer, fence man or any one interested in fence construction should fail to write for a copy. It gives all the information required for building fences and we send it

FREE!

In addition there is also a complete and very interesting description of the manufacture of fence wire. Persons who have never had the privilege of visiting a wire mill will find this article of especial interest.

It also has an article quoted from a bulletin issued by the U. S. Department of Agriculture on the manufacture of concrete fence posts, showing how posts made of this most useful and durable material can be manufactured at home. Don't fail to write for a copy today. Ask for our folder called, "Erecting Fences." Remember it's free. Address **THE BANWELL HOXIE WIRE FENCE CO., LTD., Dept. B, Hamilton, Ont.**

WRITE FOR CATALOGUE AND CIRCULARS

THE MODEL GOODS Are Always Up-to-date.

Read one of many unsolicited letters we receive from our many satisfied customers:

Brantford, Ont., April 8, 1907.
The Model Incubator Co., Toronto:

Dear Sirs,—I am going to let you know what I have done with the Chas. A. Cyphers 1906 and 1907 brooders. Out of 265 Leghorn chicks placed in three brooders, I have lost one only to date, and chicks are very vigorous. I think this is all I need say, except that chicks were started on Model Nursery Food, and that there was 90 degrees of frost with a strong wind some nights.

I am, yours truly, E. C. APPS,
Valley Mills Poultry Ranch, Brantford, Ont.

Just Figure out the Cost

What's the use of putting up a barn that will last only ten or twenty years, when, for the same money, or even less, you can build one that is good for a generation at least, and is *lightning-proof, fire-proof and water-proof*?

Use "Acorn Quality"

Corrugated Galvanized Sheets

and both price and quality will be right. They will cost no more than an all-wood building. The process of corrugating, renders the sheets so rigid that a lighter frame may be used, than with any other structure. Sheeting boards are quite unnecessary and only wood strips are required.

Then, the cost for labor in applying Corrugated Sheets, is, by actual test, less than half what it would be for wood shingles. The economy effected by labor, sheeting boards, and lighter frame-work, more than makes up the difference in cost between present day wooden shingles and our "Acorn Quality Corrugated Galvanized Sheets."

Our lightning proof barns are in almost every locality in Canada. We will mail you, on request, a list of users in your own county. Get their opinion.

How the U.S. CREAM SEPARATOR Starts Itself

At the right is an exact copy of a photograph of a number 7 U. S. Cream Separator. Someone raised the crank to the height shown and had just let go as the photograph was taken. Now if another photograph had been taken about a minute later the crank would have been in the position shown by the dotted lines. In other words, the slight weight of the crank is enough to start the gears and bowl of the U. S. Separator turning. If the crank was raised enough times and allowed to lower itself each time it would get the gears and bowl going very fast. This would take some time so it is not practical, but it gives you an idea of how lightly and easily the U. S. Separator runs.

Other separators are advertised as "easy running" but the U. S. is easy running. When the weight of its crank will run a U. S. it certainly can't take much power on the part of the operator to do it.

We haven't room here to tell you more about the U. S. Separator, but if you want we'll be glad to mail you free a copy of our big, interesting, new separator catalogue. It tells all about the U. S. Just say, "Send catalogue number C 110." Write it on a postal if it's handiest, and address
