Each Moulthrop Chair Desk

is a self-contained unit, with a writing surface adjustable to the height of the pupil. It may be tilted to the angle most convenient to the individual. Text books, etc., find a convenient place in the drawer under the seat.

THE MOULTHROP

is being adopted by many schools, though it is equally essential for home study work. It gives the pupil a place to himself where he can concentrate upon the problem in hand. He is out of the way and is not cluttering up the table with his books and papers.

THE MOULTHROP DESK

is of solid oak, very strongly made, yet it is not expensive. Your furniture dealer or stationer can supply you.
