

The Methods of Packing

C. & B. goods are the most scientific and up-to-date known, and that is ONE reason why C. & B. goods are superior to any ordinary brands and why every storekeeper who looks to his interests should stock them. It is admitted that on the packing depends the preservation and quality of the goods. Carelessly packed foods are a menace, not only to the users, but also to the storekeeper who sells them. It is, therefore, imperative that every storekeeper should stock only goods which can be relied upon in every way. With C. & B. goods you can be certain of the taste and quality and need not fear any complaint from the consumer. Our new Vacuum Glass Jars of Galantines, Veal and Ham, Chicken and Tongue, and Brawn are the acme of perfection in the art of food packing. Send an order in for a trial lot to-day.
