

TALKS ON TRACTOR FUELS

By The Imperial Oil Company, Limited

AT the Eastern Canadian Tractor Demonstration November 1916 more than half the engines ran on kerosene. You can probably use kerosene in your tractor, and if so, you will save 33 1/2% to 50% in fuel cost; and 500 prairie tank stations (there is one near you) can supply you with whatever fuel you require. Be sure to get SILVERSTAR KEROSENE, ROYALITE COAL OIL or PREMIER GASOLINE.

THE HECLA WARM AIR FURNACE

A Cheery, Healthful, Homelike Atmosphere

is helped by the happy home folk, the familiar surroundings and moist, pure air. You cannot easily have the first two without the last. The air in every room should have the snap and vim of outdoor air. It must be supplied by a furnace with a capacity for heating the air instantly as it passes. Know these "HECLA" points.

THE STEEL RIBBED FIRE POTS with a heating surface capacity three times greater than that of any other furnace.

THE INDEPENDENT CRATE BARS let you touch up the fire just where it needs it - an economical feature.

THE CAST-IRON COMBUSTION CHAMBER designed to do its work thoroughly, saving fuel and making heat it cannot burn out, as steel chambers do.

These are only some of the ways in which a "HECLA" cuts down the coal bills. A big point is the ease of operation and care of the "HECLA" - a few minutes, morning and night, and you're through.

Prove these things by a visit to the house of a "HECLA" owner. He'll tell you.

Investigate our guaranteed plan for Heating Homes. You should have our book "Comfort and Health" in any case.

Protect Your Grain WITH AN Eastlake PORTABLE Granary

from fire, lightning and rodents. Set up an "EASTLAKE" Portable Granary - metal covered and as light as a drum. Every section the same, hence no trouble in erecting. Two doors made of heavy galvanized iron, flax proof and rain proof, closed and securely locked. Two grain chutes with cut offs that can be locked shut. Heavy galvanized, 24-gauge steel, corrugated and curved to make it rigid, is used for the body. Roof consists of 26-gauge galvanized steel and every sheet makes erection easy. Capacity 1,015 Canadian bushels. Fully illustrated pamphlet mailed on application.

F.O.B. WINNIPEG \$98.00 | F.O.B. SASKATOON \$107.00

Write for Pamphlet to Department G.G.G.

Saskatoon Hardware Co. Ltd.

Saskatoon - Sask.

If you do not see what you want advertised in this issue, write us and we will put you in touch with the makers.

Engine and Automobile Owners

Do you want to save 15 to 25% of the Gasoline or Kerosene you now use? If so you should purchase a Crouch Vaporizer

Adaptable to all classes of Gasoline or Kerosene Engines and Autos Has been tested on brake and in the field, and is saving some engine owners \$2.00 a day on their fuel. We also handle a kerosene attachment which will make your gasoline engine burn kerosene and work equally as well as it does now on gasoline and at half the cost.

PRICE OF VAPORIZERS:—\$15.00 on tractors and portables over 15 h.p.; under 15 h.p. \$8.50; Automobiles \$5.00.
