**PERT PARAGRAPHS.**

Doing nothing is equivalent to do-  
ing wrong.

If you are hen-pecked you need not  
crow about it.

Some ambitious people rise from  
nothing to something worse.

Dad—Don't know. Why is it?  
Son—He eats best when he has not  
a "bit" in his mouth.

Patient—What shall I take to re-  
move the redness from my nose?  
Doctor—Take nothing—especially  
between meals.

According to the advertising col-  
umns of the Toronto papers, the Sell-  
ers Kitchen Cabinet Co. of Canada,  
one of the latest additions to South-  
ampton's industries, has assigned.  
The plant and other assets of the  
Company are being offered for sale  
under the Bankruptcy Act. The Sell-  
ers Co. located at Southampton two  
or three years ago, and is said to be  
a Canadian organization of the big  
American Company making the Sell-  
ers cabinet.

The resourcefulness of the Irish is  
shown in their method of weighing  
without scales. "To weigh a pig,"  
said an Irishman the other day, "all  
ye have to do is to lay a plank across  
a sawhorse, place a big stone on one  
end of the plank and the pig on the  
other, then shift the plank until the  
two things balance. Then ye guess  
the weight of the stone and ye have  
the weight of the pig."  
Son—Why is a horse the most cur-  
ious feeder in the world?

Your independence might look like  
impudence in your neighbor.  
Markdale Standard: Mr. Harvey  
Heimbecker of Dundalk has accepted  
a position with the E. T. Hill & Co.,  
Limited, and Mr. Chas. Pietsch of  
Hamilton, is located at the Chevrolet  
garage. Both of these new arrivals  
are fast hockey players and the col-  
wave the first of this week may be  
attributed to the rocky talk in town.  
It looks as though Markdale would be  
srowing some speed on the ice next  
winter.

When contracts are awarded they  
are often so altered from the original  
proposal as to be almost unrecogniz-  
able, and this reminds one of the mine  
accident that started McCarthy on  
his long journey into space. His  
friend, Pat Ford, was sent ahead to  
break the sad news in a gentle way  
to Mrs. McCarthy. When that lady  
came to the door, Pat said, "Are  
you McCarthy's widow?" "Sure  
I'm Mrs. McCarthy," said she with  
confidence, "but I'm no widow!"  
"The devil you're not!" announced the  
tactful messenger. "Wait till you  
see what they're bringing up the  
stairs."

**NOT LEARNING TRADES**

Very few boys to-day are learning  
trades, and the question arises, why  
will take the place of the carpenters  
and masons and printers and plum-  
bers and other tradesmen of the pre-  
sent day when, in the course of a few  
years, they retire from the field?  
One result will be that the public will  
have to put up with a great deal of  
indifferent work. Another will be  
that the young man who, differing  
from his fellows has taken pains to  
learn a trade will be in great demand  
and will receive splendid wages. The  
boy of to-day who sees ahead a few  
years has a great opportunity of mak-  
ing himself worth while.

**FARMERS GETTING HYDRO**

Farmers living west of the town in  
the vicinity of the Hydro substation  
can now get hydro power and three  
prominent Brant farmers, J. L. W. A.  
and Edwin Tolton have already signed  
up, and will have their residences and  
farm buildings wired shortly. They  
also expect to use the juice for small  
jobs around the place. Three horses  
power is the amount commonly used  
by farmers and for this amount we  
understand the minimum rate is  
\$37.50 per year. In addition to this  
the farmer has to pay for wiring his  
buildings. The lines can be extended  
for several miles in every direction  
from the substation, providing that  
at least three customers can be ob-  
tained for every mile.—Telescope.

**THE WESTERN FAIR.**

September 10th to 17th.

The management of London's Ex-  
hibition have mailed out thousands  
of Prize Lists, Hangers and Maps  
throughout Ontario. There are many  
attractive features in the Prize List  
this year. \$6,000 in cash has been  
added to what was already a liberal  
list. One of the new features this  
year is the boys' and girls' calf com-  
petition, which is creating consider-  
able interest. \$1,000 will be given in  
prizes in this event alone. The boy  
or girl competing must be a resident  
of Canada, between the age of ten  
and seventeen. They must have been  
and cared for their calf at least  
four months previous to the Exhi-  
bition and must show it themselves.

All information regarding any de-  
partment of the Exhibition obtained  
by writing the Secretary, A. M. Hunt  
General Offices, London.

**The**  
**Belrobe**  
**Method**

If you can't have all  
the frocks you  
want—

You can have  
more than you  
planned.

Because the wonderful new invention  
called The BELROBE METHOD

**Saves from 1/4 to 1 3/8**  
**yards of material**

on every gown you make, which  
means a cash saving of the price of  
that amount of material.

The BELROBE METHOD is a time-  
saver, a money-saver and a material-  
saver. The BELROBE METHOD shows  
you how to

**cut out**  
**put together**  
**fit and finish**

by pictures and directions the frock  
you make.

Think of it—no more worry about  
cutting out a frock! All you need  
do is follow the layout, and in the  
least possible time and from the least  
material your frock is ready to be  
put together.

next suit. Prices reasonable.

**T. A. MISSERE, - MILDMAV**  
**TAILOR AND GENT' FURNISHER.**

Fat—I have just come from Sunday  
School and a little girl there smiled  
at me.

Skinny—Oh, gee, that's nothing.  
When I first saw you I laughed right  
out loud.

The population of Canada, taken  
by the census enumerators in June,  
will soon be announced. The popu-  
lation of some of the cities has al-  
ready been announced and with one  
exception there have been increases  
in all these urban centres. It is ex-  
pected that the population of Quebec  
province has increased so much with-  
in the past ten years that when the  
number of people is divided by 65  
which is Quebec's stationary repre-  
sentation in the Federal House un-  
der the British North American Act,  
that the unit of representation for  
the other provinces will be 40,000.  
This will cut Bruc County's repre-  
sentation in the Dominion Parliament  
down to one member, for by the mu-  
nicipal census of 1919 the population  
of this county had fallen from 50,032  
in 1911 to 42,105 in 1919. In Grey  
County the municipal census of 1919  
is given as 58,035 as compared with  
65,891 in 1911. How can Bruce and  
Grey expect two members each?  
Not with 40,000 as the basis for one  
member. Grey and Bruce may be  
combined for three members and  
they would not be up to the unit re-  
quired. In many ridings where can-  
didates have been nominated it may  
be necessary to hold another conven-  
tion after the redistribution of seats  
after the next session of Parliament.

**\$15,000 FIRE AT MILVERTON**

A disastrous fire broke out at Mil-  
verton on Monday evening about ten  
o'clock when five large stacks of un-  
threshed flax belonging to Mr. Wm.  
Appel were entirely consumed. They  
contained about 150 tons of flax  
worth about \$100 per ton. Mr. Appel  
had commenced operations about  
three weeks ago and had between  
twenty and thirty hands employed in  
threshing and spreading flax on ad-  
joining fields. Three stacks had just  
been threshed and spread and employ-  
ment was assured throughout the fall  
and winter for a considerable number  
of men. There was some insurance  
on the property, but it is said to be far  
from covering the loss.

It was the first fire since the in-  
stallation of our waterworks system  
and although no fire brigade has been  
organized the hose and reels were
