Inside the power house turbines and generators are in rera, the commander of the revolu- position. The turbines are of the horicontal type, two wheels in each case, and the generators of the three-phas eral Berti obtained a large number of alternating type, and step-up transformers will be used to raise the current for transmission. The arrival of more plant is awaited, and upon reere the work of the erecting engineers will have been completed.

"FOUND DROWNED."

Verdict of Coroner's Jury in the Case of Z. Bordeau.

(Special to The Miner.) EHOLT, B. C., Aug. 28.-The coro ner's adjourned inquest in connection with the death of the French Canadian woodcutter, Z. Bordeau, whose body was found in Loon lake last week, was continued yesterday and concluded today. A man who had been working with the deceased had been brought from Nakusp to answer inquiries, but no information throwing light on the movements of deceased for a month prior to his death was obtainable from him. In the absence of any evidence pointing to how the deceased came to be in the water the jury arrived at a verdict of "found drowned."
