SAVING COPPER

No more striking example of the
importance of conservation could be
given than that contained in a report
of the imperial munition board. In
making the turnings on the copper
bands of shells produced in Canada
for the British ministry of munitions
a large quantity of copper scrap is
accumulated. This is refined and
cast into ingots. Up to date 10,000
tons of copper has thus been re-
claimed, representing a value of ap-
proximately \$5,000,000.

Steel scrap is also being contin-
uously recovered in large quantities.
The present annual value of which is
approximately \$5,000,000.

PRICES STILL SOARING

Upward movements in wholesale
and retail food prices were again re-
corded by the Labor Department dur-
ing July. In wholesale prices the
increases were chiefly in dairy pro-
ducts, fresh and canned vegetables,
textiles and lumber. There were de-
creases in tallow, live stock and
meats. Retail prices increased in
meats, eggs and potatoes, with slight
decreases in milk and dairy butter.
Coal, wood and coal oil and rent
showed slight increases.

The index number of wholesale
prices for July reached 234 as com-
pared with 230.6 for June and 242.6
for July, 1917. The cost of a weekly
supply of food at the middle of July
averaged 13 in some sixty cities,
as compared with 12.77 for June
and 11.62 for July 1917.

MADE CONCESSIONS.

By Courier Leased Wire
London, Aug. 17.—Germany has
made concessions to Austria on the
Polish question. In consequence of
the strong stand taken by Emperor
Charles and the Austro-Hungarian
Government, according to informa-
tion received by the correspondent
of The Daily Mail at The Hague to
which The Mail gives much promi-
nence.

Worth Over \$600 an Acre.

Nowhere are allotment prospects
so bright as in London is the opinion
of Mr. Gerald W. Butcher, superin-
tendent of the Vasant Land Cultiva-
tion Society, whose plot holders last
year raised \$60,000 worth of crops
on 500 acres of land.

Neatness, method and systematic
cultivation are the chief characteris-
tics of the new allotments in London,
he says, and they compare very fa-
vourably with the older allotments
outside London and in the provinces.
In the London district, said Mr.
Butcher, the society gives preference
to people with large families and to
discharged soldiers who wish to cul-
tivate a bit of kitchen garden.

Mr. Butcher estimates that allot-
ment holders throughout Britain will
this year produce £15,000,000 worth
of food.

PEOPLE OF WESTERN SIBERIA NEED GUNS AND AMMUNITION

Entente Considering Means of Dispatching Weapons to New-Found Allies

MOVEMENT SPREADING

By Courier Leased Wire

Washington, Aug. 17.—The press-
ing needs for arms and ammunition
by the people of western Siberia who
have arrayed themselves against the
forces of German and Austrian pri-
soners and the German influenced
Bolsheviks is being considered in
the Allied capitals, according to in-
formation received here to-day. The
answer of the Allied nations to this
appeal has not been disclosed, but it
can be stated on high authority that
the United States government is
anxious to be of whatever possible
assistance.

The people of western Siberia,
with the aid of the Czech-Slovaks,
proclaimed their independence on
July 4th. They are reported to have
thousands of well trained and local
troops who only need equipment to
begin active resistance to the Ger-
mans. The people have never ac-
cepted the surrender to Germany un-
der the Brest-Litovsk treaty, and
have refused to permit the Bolsheviks
to blip from this district millions of
tons of supplies that are stored there.
Most important of all, however,
are the mines of the Ural Mountains,
that the government of western Si-
beria control. These mines produce
more than ninety per cent of the
platinum of the world. There is also
gold and copper and other materials
much needed in the conduct of the
war. In another part of the country
are extensive coal mines, the opera-
tion of which, it is believed, is being
consistently maintained by the gov-
ernment.

Propagandists at Work

Amsterdam, Aug. 17.—Sixty pro-
pagandists belonging to labor organ-
izations supporting the Bolsheviks
were left Moscow for the front,
where the Bolsheviks are fight-
ing the Czech-Slovaks, according to
a Moscow telegram by way of Berlin.
The object of the propagandists is to
stimulate the military spirit of the
Soviet troops in their campaign.
Addressing the delegates in a fare-
well speech, says the message, the
state of which is not given. Frater
Lévine urged them to the utmost ef-
forts to raise the spirits and morale
of the troops to the highest level and
thus bring about the suppression of
the Czech-Slovak movement.
"You must imbue them with the
consciousness of the danger and the
need of every honorable man sup-
porting the Soviet Republic," Lé-

vine is quoted as saying.

According to the Vienna Neue
Freie Presse, War Minister Trotsky
is also touring the same front, urg-
ing the people to fight against the
enemy.
