

MASTER WORKMAN SMOKING TOBACCO

The Business Man says:

It's Good Business to Smoke

"Master Workman" TOBACCO

This world - fact - can now be obtained for 15¢ a cut at all the best Stores.

This label has no "second grade"

THERE'S only one quality of Canada Cement. It is the highest quality that can possibly be made with modern equipment, scientific methods and rigid inspection by expert chemists.

The Canada Cement you buy for a garden walk is the same cement that is sold by the trainload for great dams, elevators and bridges. The engineers in charge of these great works have ample facilities for testing the quality of cement.

Canada Cement

comes up to their most rigid requirements.

The farmer has not these facilities for testing the quality of cement. He must buy a product upon which he can depend for a grade that is always of highest quality, and that therefore does not need to be tested.

You can place absolute reliance upon the quality of Canada Cement.

It's always the same and always the best. The large output—which enables us to keep the price down, enables us also to maintain the factory equipment and organization that keeps the quality up.

A Canada Cement label appears on every bag and barrel of genuine Canada Cement. See that it's on the bags and barrels of cement that you buy.

WRITE for our free book, "What the Farmer Can Do With Concrete." It has told a hundred thousand Canadian farmers of the money-saving and profit-making possibilities of concrete.

Kings County Man Will be on The Great Canadian Polar Expedition

Kenneth Chipman Joins the Steffansson Party

Turo News

Kenneth G. Chipman, brother of Rev. O. N. Chipman, once pastor of Great Village Baptist Church, will accompany Vilhjalmar Steffansson on the latter's expedition to the far north this summer. Mr. Chipman is a 1908 graduate of the Boston School of Technology, and following his graduation was engaged with the Dominion Coal Company at Gilce Bay. Leaving Cape Breton he entered the Dominion Government survey, and last summer was stationed in the Rocky Mountain district. After spending a season in the West he returned to Ottawa in the winter to prepare his report on field work.

The Steffansson expedition is to be financed by the Canadian Government and that is how Mr. Chipman happens to be attached to the party. Although he is only 26 years old he is assistant topographer of the Geological Survey of Canada and for several years has been engaged in mapping the Island of Vancouver on the Canadian Rockies.

Mr. Chipman was born at Berwick, N. S. where his mother still lives. He has a brother in New York and a sister, Mrs. G. Wildes Smith, who lives at 1463 Beacon St., Brookline. So it was that he came to New England for much of his education. He was graduated from the Newton High School in 1903 and then took up courses in mining engineering and metallurgy at the Massachusetts Institute of Technology.

The Steffansson expedition, consisting of the explorer and about a dozen scientists, is expected to sail June 10 from Victoria, Vancouver Island. The craft purchased for the trip, the steam whaler Karpk, of 320 tons, is now outfitting at that port. Part of her stores will consist of a ton of pemmican a food consisting of meat, raisins, spices and a fatty ingredient for use in the Arctic.

It was originally intended that the Museum of Natural History of New York and American Geographical Society should share in the results of the expedition, but when the Canadian Government decided to finance the entire project this plan was abandoned.

The party will first sail to that part of Siberia off Behring Straits, where a landing and a brief trip into the interior will be made. Then the party will sail eastward along the northern coasts of the American continent to Fort McPherson at the mouth of the MacKenzie River.

Here the party will divide Steffansson and his ship will sail north to a mysterious land of which the blonde Eskimos told him. He will spend three years at least in exploration there.

Young Chipman and his party will debark at Fort McPherson and map the land to the eastward, including the home of the blonde Eskimos, possibly going into Victoria Island to the North. Mr. Chipman expects to have his work completed in 2 1/2 years. If this is accomplished, his party will return south overland, following the MacKenzie River across to its source a two months' trip.

STRENGTH FOR WEAK STOMACH

Can Only Be Had Through Rich Red Blood

When the blood is poor and thin and the stomach in consequence is imperfectly supplied with oxidized blood and nerve force, the digestive process becomes slow and fermentations of the food goes on, with the formation of gas and certain acids.

The pressure of the gas causes pain in the stomach; sometimes it affects the heart. When the gas is belched out through the mouth the patient is temporarily relieved, the sour risings in the throat and the burning sensations in the throat, and stomach are caused by the acid fermentations. There are plenty of things to neutralize these acids or to "sweeten" as it is called, but they do not cure the trouble. Pure rich blood which will tone up the stomach and enable it to do the work nature intended it to do, is the only road to a cure. Dr. Williams' Pink Pills make new, rich, red blood—that is why they cure even the most obstinate cases of indigestion. The following is a bit of proof. Miss Minnie Greene, of Hall's Bridge, Ont., says: "About a year ago I was greatly troubled with my stomach. Everything I ate caused me pain and distress. I would feel as though I was starved, but when meal time came the sight of food caused a feeling of loathing. There were days when I could not even hold milk on my stomach, and my head would ache so that I could hardly keep from screaming. Only those who have suffered from stomach trouble know the torture I suffered. I tried almost every remedy recommended, but found not the least benefit until I began taking Dr. Williams' Pink Pills. These I used for a couple of months and they worked a perfect cure and I am again enjoying good health and able to eat freely all kinds of food."

If you are suffering from indigestion or any other trouble due to poor watery blood, begin to cure yourself to-day by the use of Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Fisherman Found Adrift of Banks in Serious Plight

Sydney, N. S., May 12.—The Newfoundland fishing schooner Edith Hardy arrived at North Sydney yesterday for bait, having on board two French sailors picked up on Wednesday last on the Banks after being adrift in an open boat without food or water for nearly four days. They had strayed from their ship, a French fishing brig, on the previous Sunday. When found they were in a famished condition from exposure and hunger. They were taken in charge by the French consul, Lasroix.

The Nova Scotia Conference of the Methodist church meets this year in New Glasgow. There will be no changes in Methodist pastors in Halifax this year, but next year Rev. Robert McArthur, Rev. G. W. F. Glendinning and Rev. John Gee will all go to other charges.—Ex.

The Middleton Outlook says:—"A man from Kentville was fishing in the Nictaux river one day this week and we understand caught three salmon. [This was one of Kentville's lucky fishermen and we have a lot more of them. As he is very modest we will withhold his name for the present.]"

Change Of Name.—An attempt has lately been made in the United States to eliminate the word Protestant from the title of the Protestant Episcopal Church. The proposed elimination has caused some agitation. A protest has been forwarded to Bishop Tuttle the presiding Bishop of the Church urging that it would be impossible and to the disadvantage of the church's growth to drop the name so long and honorably borne. 15 of the most prominent rectors of the diocese of New York signed the protest against the change, Dr. Courtney, the former popular Bishop of the Nova Scotia diocese headed the list of protectors.

NA-DRU-CO LAXATIVES

are best for nursing mothers because they do not affect the rest of the system. Mild but sure. 25c. a box at your druggist's.

NATIONAL DRUG AND CHEMICAL CO. OF CANADA, LIMITED. 163

Small seeds sown out of doors will germinate sooner if covered with a coarse gunny sack.
