

Production and Thrift

"GAIN or no gain the cause before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle."—HON. MARTIN BURRELL, Minister of Agriculture.

THE FOLLOWING STATEMENTS ARE BASED ON REPORTS CONTAINED IN "THE AGRICULTURAL WAR BOOK, 1916," PUBLISHED BY THE DEPARTMENT OF AGRICULTURE, OTTAWA, ONT.

LIVE STOCK—The herds and flocks of Europe have been greatly reduced. When the war is over there will be a great demand for breeding stock. Canadian farmers should keep this in mind.

MEATS—In 1915 Great Britain imported 664,508 tons of beef, mutton and lamb, of which 364,245 tons came from without the Empire. Out of 439,420 tons of beef only 104,967 tons came from within the Empire.

The demands of the Allies for frozen beef, canned beef, bacon and hams will increase rather than diminish. Orders are coming to Canada. The decreasing tonnage space available will give Canada an advantage if we have the supplies.

DAIRYING—Home consumption of milk, butter and cheese has increased of late years. The war demands for cheese have been unlimited. The Canadian cheese exports from Montreal in 1915 were nearly \$6,500,000 over 1914. Prices at Montreal—Cheese: January 1915, 15 1/2 to 17 cents; January 1916, 18 1/4 to 18 1/2 cents. Butter: January 1915, 24 to 25 1/2 cents; January 1916, 32 to 33 cents.

EGGS—Canada produced \$30,000,000 worth of eggs in 1915 and helped out Great Britain in the shortage. Shippers as well as producers have a duty and an opportunity in holding a place in that market.

WRITE TO THE DOMINION DEPARTMENT OF AGRICULTURE AND TO YOUR PROVINCIAL DEPARTMENT FOR BULLETINS ON THESE SUBJECTS

Tens of thousands of Canada's food producers have enlisted and gone to the front. It is only fair to them that their home work shall be kept up as far as possible. The Empire needs all the food that we can produce in 1916.

Excellent Farm For Sale

Situated at Waterville near station, post office and stores, 80 acre orchard giving 500 bushels of apples, tillage pasture and hay land, will cut 1000 cords of hard and soft wood and timber. Fine house, large new barn and other buildings. A fine location, soil excellent, and will be sold at price little in advance of what it would cost to put up new buildings. Part may remain on mortgage. For full particulars and price, address H. G. HARRIS, Kentville.

Planting Weak Seed Corn

Although seed corn has tested fairly well at the Ottawa Laboratory, corn growers whose seed has not been tested would do well to take special care this season that their seed is of strong vitality. Owing to unfavorable ripening and harvest weather some of last year's seed corn crop may be low both percent and vigor of germination. This seed should not be planted until the soil is warm and the weather at its best to encourage the growth of the young corn plant. The rate of seeding may be increased, but no amount of fairly weak seed is likely to give a good stand of plants unless the conditions of growth are most favorable.

NEAR DEATH'S DOOR.

Mi-o-na cures dyspepsia. If any of the readers of this paper are suffering from stomach troubles of any kind, J. D. Clark, Druggist, will sell you a box of Mi-o-na for 50 cents with an absolute guarantee of relief or money back. Neil Murray of Huron Road, Goderich, Ont., says, "I have suffered with indigestion for over four years and had been given over as incurable by many doctors. I had become a nervous wreck through loss of sleep, and whatever I eat did not remain on my stomach for over two hours. I would suffer with vomiting spells that would almost kill me perspiration as large as beads would break out all over my body and leave me in so weakened a condition that I would be unable to stand, not a night's rest in over six months and was so weakened and run down that my family thought I would die. My heart was greatly weakened and would flutter and sharp pain would come through my head and cut off my breath. I was reduced in weight from 150 to less than 110 pounds. Doctors would give different causes for my trouble, yet none of them gave me the slightest relief. I commenced treatment with Mi-o-na and when half of the first box was used I could eat my meals without suffering the dreadful vomiting spells. I used about ten boxes in all, and am entirely cured. My stomach is as strong as ever and there is not the slightest trouble with digestion. I have gained about 40 pounds in weight, am strong and healthy and like a new man. I will always speak highly of Mi-o-na, as it cured and I believe kept me from sure death when all else failed."

Big Battles In Progress on All Fronts

Battles of heavy proportions have been in progress in all the war theatres except the Balkans. Successes for the Entente Allies and the Teutonic Allies have varied. Four vessels—an Italian steamer, a French barque and two British steamers—and reported to have been sunk by submarines. All their crews are believed to have been saved. Dr. Von Bethmann-Hollweg, the German Imperial Chancellor, has returned to Berlin after a visit to army headquarters, where he discussed the American note to Germany concerning Germany's submarine warfare with the German leaders. The Chancellor's early return is taken to indicate that Germany's reply has been formulated.

On the Verdun front where for two months the Germans and French have been almost continuously in battle, the Germans, according to an estimate of the French War Office, up to April 22, had used thirty divisions, or about 600,000 men, in the fighting or in reinforcing units which suffered heavy losses.

The Germans claim the capture of French trenches in the Verdun region southeast of Hancourt and west of Dead Man's Hill, while Paris records the taking of several German positions in the Avocourt wood. Hill 304 is again under the heavy bombardment of the Germans.

Artillery duels have everywhere featured the fighting in France and Belgium, being particularly severe on the Belgian sector between Nieupoort and Dixmude and south of the Somme, where the French has concentrated its fire on German trenches.

Trenches taken by the Germans on the British on the Langemarck-Ypres road have been evacuated owing to floods, which made their consolidation impossible.

The Germans are still using their big guns against the Russian skull bridgehead on the Russian front and farther south have repulsed a Russian attack in the Lake Naroev region. The annihilations of a German scouting party near Lake Vygonoykovskoye and the destruction of an Austrian post north of Czartorysk are told of in the Petrograd official communication. Ten German aeroplanes have bombed the Russian aviation station on Osel Island, in the Gulf of Riga, at the entrance to the Baltic Sea.

The Italians and Austrians have fought a sanguinary engagement on the Carso front near Selz, which the Italians captured 360 meares of Austrian trenches and took a number of prisoners and a quantity of rifles and other war stores. While the Russians report that in the Caucasus region near Achkala, fifty miles west of Erzerum, they have captured an important sector of the Turkish position, Constantinople says that south of Bitlis the Turks have defeated the Russians and sent them in retreat toward Bitlis. In an engagement east of Mush, the Russians were again to debouch south from Trebizond was stopped by the Turks. Fighting is in progress between the Turks and a Russian detachment which landed on the Black Sea coast ten miles west of Trebizond.
