TURN DOWN EFFECT.

A DAY IN THE LIFE OF THE LUNENBURG FISHERMAN.

The Men Who Supply the World With Its Codfish Have a Hard and Dangerous Life-Fifty Tons Is the Average Size of Schooners-Squid Is the Favorite Bait-Casting Is All Done From Dories.

Like that of a policeman, the life of a "Banker" is not a happy one. It is a long record of toilsome endur-ance, of simple heroism, of the bearing of incredible hardships, of but scant reward.

The great banks of Newfoundland are a rich harvesting ground, and year in, year out, thousands of men exploit them to the tull. Not alone do the fishing towns of Canada and the United States send their repre-sentatives to the warfare of man against nature; Scotland sends its quota, so does France; in fact, during a good season few seafaring countries but are represented there in some form or other. Cod is the spoil, the wily, elusive cod; valuable as a food, exacting of chase; cheap

as to price.
On the principle of fitting the back to the burden, Bankers do not fare were attacked by a tiger. The party were working in the Cachar district of Assam, and the tiger appeared at the camp of Surveyor Gopal Singh. forth in little luggers or smacks They ship themselves aboard large, seaworthy schooners, capable weathering the hardest gales that eve blow.

It sprang at the surveyor and one of his Khalasis, but fortunately touched These schooners vary in tonnage neither of them, and disappeared as suddenly as it had come. Three days but fifty tons is a fair average size neither of them, and disappeared as suddenly as it had come. Three days later the tiger returned, and seized a Khalasi, who was washing his cooking pots in a stream 20 yards from the camp. A native, armed with a stick, rushed to the rescue, and tried to beat the tiger off. When other men arrived the brute dropped its part of it. Their real work is to catch

few minutes it was back and in spite of the shouts of the natives it seized Imagine yourself for the none aboard a schooner out of Lunenburg. the plucky native who had gone to the rescue of the first man. Once sel, once possessed of a good turn more it was driven off, and again it of speed, for she has been a racer in returned, this time to seize a third her day, though now her glory has Khalasi. Frightened away again, the beast left the camp, but the party sat in good turn when the holds are full beast left the camp, but the party sat up all night surrounded by a chain of fires. At daybreak they proceeded and the homeward race for marke commences. The captain is a grizzled to a Lushai village. An armed party set off for the abandoned camp to veteran, with a down east drawl that you could cut with an axe. But he has a reputation for being able to play the clusive cod at his own game; collect the goods left behind. They found that the tents, bedding, blankets and bags of rice had been dragto "think cod," in short, which means that he can place himself in the posi-tion of the fish, and meet every move ged about by the tiger, and on a sight-rule and plane-table were marks of the brute's fangs. The first man tion of the fish, and meet every move they make.

It is not a very long journey to the flerwards.

Banks, for the schooner is fast. Once there, the skipper begins to cast about for fish, watching the crested waves narrowly as if he could read their Through indiscretion in eating green fruit in summer many children become subject to cholera morbus causcan. There are certain signs and tokens, known to the Banker, which indicate the presence of cod, or, failing their presence, the direction in which they have traveled; and these signs your skipper reads as an open book. The schooner slips away on its own appointed course, and morning shows a deserted sea.
"Waal, I guess we're here or here-

When a boy marries, two opinio abouts," says the skipper, and the word is passed for work to commence. The schooner's decks have been filled prevail at the home he is leaving: His mother thinks he is throwing himself with a number of small boats called dories; double-ended craft, a cross between a ship's dinghy and a Canaaway, and his sisters think the girl dian canoe; easily managed by one man, fairly safe in rough weather, and as light as a feather. **Beware of Ointments for Catarrh** that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In Meanwhile the spare hands have been busy for days in baiting vast lengths of cod-line—stout, tough stuff, strong enough to hold a runaway whale in its flurry. Squid or cuttle-fish is the far the bait, for cod loves cury, and is taken internally, acting directly it the blood and mucous surfaces of the system. buying Hail's Catarrh Cure be sure you get genuine. It is taken internally and made in Tol Ohio, by F. J. Cheney & Co. Testimonials free.—Sold by Drucytist. Price, 75c per bottle.

Take Hail's Family Pills for constipation. squid as a to at loves the May fly At stated invervals along the line hooks are firmly hitched, and each hook receives its piece of bait, after which the line is coiled away into Industry pays debts; despair in shallow tubs; one tub to each dory, -Franklin and the material is ready. Anger begins with folly and ends

The

The complete equipment of a dory consists of a small anchor, a coir cable, for anchoring the boat; a heavy maul for stunning big fish as they are hauled aboard; a gaff, an Eyes Are Relieved by Murine axe; a compass, a stock of provisions, a tin horn for fog signals, a pair of sculls, and rowlocks, lamp and oil. when Irritated by Chalk Dust and Eye Strain, incident to the average School Room. A recent Census of New York All is in readiness, and a start is made at once, for the longer you wait the greater possibility of other schooners encroaching on your chosen ground. Each line is fitted with City reveals the fact that in that City alone 17,928 School Children neede Eye Care. Why not try Murine Eye Remedy for Red, Weak, Weary, Watery Eyes, Granulation, Pink Eye and Eye Strain? Murine Doesn't Smart; Soothes Eye Pain. Is Com-pounded by Experienced Physicians; floats and sinkers at intervals, and your dory is swung outboard single whip from the masthead. lower yourself into it as it touches the water, fit bottom boards and thwarts Contains no Injurious or Prohibited Drugs. Try Murine for Your Eye Troubles. You Will Like Murine. Try in place, receive your impedimenta,

Arrived at the spot you have select ed, you commence to throw out you lines, which sink from sight as you pull back on the way you have come, until the entire line is submerged, after which you pull along to your first float, grapple the line—and probably receive some cruel jags from the hooks in so doing, and under-run the has, for a trifling wager, imposed on himself a curious task. TEACHING HORSES TO JUMP. TO THE MOTHERS

There Are Three Methods Used-Coan ing, Lunging and Driving There are three methods of teaching horse to leap-coaxing, lunging and driving. In the coaxing method the young horse is turned into a small Health. paddock having a low hedge or hurdle across the center. In plain view of the pupil'a rider on a veteran jumper should take him over the burdle sev

eral times. The trainer then goes to the opposite be at the other side of the hurdle and the lesson repeated. If this be done is daily the hurdle may be gradually

The second method is termed lunging. A long rein or cord is attached to the bit, and the animal is exercised in a circle in which a hurdle has been placed or a shallow ditch dug. A long lashed whip, used only to keep him in motion or lightly applied at the proper moment, will keep him up to his work. Soon the horse will enter when the dropsy had set in and that my case was hopeless. Up to this time two doctors had attended me, but notwithstanding I kept growing worse. It was at this juncture I began using Dr. Williams' Pink Pills, and after taking a few boxes I was much improved. I kept on using the Pills until I had taken eight boxes, when my health was completely religiously the life of the hero through all his when my health was completely re-

The third method, driving, is exactly what its name implies. At first the obstruction should be slight. Any open space will answer the purpose, an earth or sod surface or tanbark being preferable. Long reins, a bopless silence. If Dr. Williams' hopeless silence are given a feir trial they

All things considered, the driving nethod is the quickest and surest way of teaching the horse to leap. When he has become somewhat proficient, having thoroughly learned what is required of him, the saddle may be called into requisition and the practical lessons begun.

Almost any young horse can be taught to leap. Of course his proficiency will depend on the care bestowed on his training and on his general characteristics of wind, limb and nerve. An ordinary cob or Morgan will attain the proficiency of an Irish hunter, but any borse that is used for a saddler. Il be of far greater value to his own-er if he can be taken occasionally for a cross country ride and put over ditches and low obstructions.

Ethics and Morality. If a woman's husband has been silly enough to take more wine than is good for him, morality would lead her to send him to bed. Ethics would lead her to send him to Coventry. And ethology would probably lead her to send him to a penal settlement for in-

tocratic neighborhood in which I live) in',-Boston Globe, morality would lead him to go out of the house for an hour or so and give her nerves a chance. Ethics would probably induce him to go out of the town and write to her from a garden city that their temperaments were incompatible. What ethology would make him do I hardly dare to think .- is sick, and when he isn't we are Chesterton in Illustrated London News. afraid he is unconscious."

The pastor and his wife had called upon a member of the congregation, a widow with a small but exceedingly lively boy, and were on their way seems to be a very intelligent woman

"And very positive in expressing her "On the contrary," said his wife, "she struck me as being strongly negative."
. "Negative? How?" "Everything she said to her little boy began with a 'Don't, Johnny!"-"-

Exchange. Sympathy of the Flowers. More or less credence is still given n England to the old belief in the sympathy of the vegetable kingdom for human suffering. "I prayed all night," writes a gardener whose employer was very sick, "and the flowers on my window sill drooped, and I said

to myself they were dead. But toward

morning they picked up, and I was

sure enough the master was better.

And the same thing had happened to

the flowers I had sent to his bedroom

They were dying, and they came to life again. And I knew when those flowers picked up that the master was better." The Pins. "Oh, dear." sighed her husband's wife, "I can't find a pin anywhere. I

wonder where all the pins go to anyway?" "That's a difficult question to answer," replied his wife's husband, "because they are always pointed in one direction and headed in another."

Painter's Colic. Mamma-What's the matter with Fido? Tommie—Oh, I was playing with my soldiers, and he came in and insisted upon licking the whole army. -Yonkers Statesman.

Take a rest. A field that has rested gives a beautiful crop.-Ovid. Unreasonable. "Your baby cries a great deal at

night. Can't you do anything for it?" The Result the Same.

"Gimme some of that prune pie."
"Son, you've had two kinds of pie "Then another kind won't matter. There's only one kind of tach Origin of the Drama—Women's Ardu-

HUGO AS AN ARTIST. The Great French Writer's Opinion of

His Own Drawings. When Victor Hugo's "Marion Deorme" was read before the troupe of the Porte-Saint-Martin theater, the actor Laferriere, then a young man, protested against the insigni assigned him, in which he would have only ten lines to recite. Hugo promptly reduced him to silence by thundering, "Ten lines of Victor Hugo are

something not to be refused—for they endure." Hugo attached a similar exaggerated significance to everything be did and to every object that was in any way associated with him. For instance, he considered his draw

ings, which were for the most part commonplace enough, of sufficient importance to make them the subject of a testamentary provision. In his will of Aug. 31, 1881, he wrote, "I give my drawings and everything which shall be drawn by me to the National Library of Paris, which will be one day the Library of the United States of

the following manner: If a blot of ink chanced to fall on his paper while he sentmindedly and made additions to it instinctively under the influence of a species of subconscious direction until he had produced a sinister moonlight scene or a "venerable bourg dom inating with its bristling ruins the uddering waters of a river of legend." He elaborated with great care, however, during his irksome exile at Guernsey certain crude impressions he had transferred to his sketchbook during his journeys in the valley of the Rhine. Furthermore, being a great lover of children, he drew figures of the most extravagant sort for the amusement of the young people of his household,-Alvan L. Sanborn in Book-

Ending a Letter. The simplicity of "Yours" as a letter ending would have astounded Jeremy Taylor, whose letters to John Evelyn often wind up with perfect triumphs of complexity in this respect. His best is, "Believe me that I am, in great heartiness and dearness of affection dear sir, your obliged and most affectionate and endeared friend and servant," or "Your very affectionate friend and hearty servant." Even in his shortest perorations of the kind the "affectionate" and the "servant" are always the two indispensable words Probably no man, woman or child would combine these two at the end of a letter today.-London Tatler.

A Division of Labor. The following dialogue at the Bow county court deserves to be recorded: Witness-One day I had some shrimps to sell, and I asked the plain tiff to help me. He said, "I can't push the barrow because my arm is bad. but if you like I'll come along with

Counsel Why was that?
Witness Well, it's like this, sire A man can often shout when he can't shove.--London News.

Aunt Carrie's mocking bird's a peach except that he won't sing.

We've tried him since he came, and he will eat most anything.
We've fed him soap and camphor balls
and ple and pumpkin seeds,
But still he just won't sing, because he
don't get what he needs.

souff and turpentine,

when he ate blue paint he chirped
and sure was doing fine,
he was such a lazy bird he wouldn't eat no more,
And now he's lying in his cage, all spread out on the floor.
So when Aunt Carrie comes she'll have to ask—that crazy thing—
We wouldn't tell her for the world—the

FLOWERS FOR VASES.

Roses Look Best In Bowls That Show Different forms should be used fo lifferent flowers. A flat, circular dish is needed for water lilies, and as these flowers are large the vessel should be Anaemia is simply lack of blood. It was formed by reason of the upheaval, saucer is pretty for the roselike blossoms of the balsam or old fashioned touch-me-not, a still smaller flat plate for pansies. The tall spikes of gladioluses or long stems of carnations must have all vases or slim necked pitchers to sustain their brittle forms, while great bunches of lilacs or snowballs need vessels both broad and deep.

Roses look best in the regular rose bowls that show the blushing beauties from stem to finish. In fact, all flow ers with short stems require low, broad vessels, flaring at the top, so as to allow the graceful drooping of mixed leaves and blossoms. Not more than four or five shapes are really necessary to the best effects in flower vases Either flat or low, circular vessels. which may be widely fluted upon the edges to break the too great uniformhighborn lady. This necessitates her spending the night in her state dress, reclining her head on a wooden block, the sides rise from the bottom are preferable All forms which bulge out below of

> bit or other animal, with growing bulbs etrius, who found that face, is the type of all that is hideous. The Japanese use bamboo, which from its irregular surface loses the stiffness of the cylindrical form. We have no bambeo to use, and imitations mentation of any sort and of a single uniform tint. No color should be em A pure neutral gray is pretty for the purpose, as it affords an agreeable contrast with the shade of green in leaves and with almost all tones of

Next in order of value comes pure pale buff, not inclining to orange, but its use is more limited than that of gray. Opaque white flower vases are sometimes effective by contrast; but as a rule, the contrast is too strong. All colored glasses are to be rejected and colorless glass as well, since, as a rule, flower stems are unsightly. Of course there are exceptions to these rules. Some prominent bulb dealers offer gay earthenware vessels that are really quite graceful and pretty.

SOME EDIBLE WEEDS. Wild Things of the Fields That Make Good Salad.

The custom of utilizing our common veeds for pot herbs and salads is one Europe."

Colonial times, and it is a valuable one him! Some people might call his dress affectation, but to me it simply been produced more often than not in who has not the city markets to draw is the unconscious expression of a

we are all familiar with the dan-lellon and horseradish though every vertigo)—Yes, as I was saying, he one may not know that the tender one of our most prosperous painters shoots of the latter make good salad greens. Muddy Vision in Christianity. When a bill that required safety levices in factories was recently pendbefore a state legislature, an oficer of a great association of manufacturers sent to the members a cir-cular that called attention to the bill, and inquired, "How will this affect your business?" When the first Chrisare in the slightest degree bizarre in that the slightest degree bizarre in the shape should be avoided. The old Ephesus, some nineteen centuries ago, fashioned bulb vat, shaped like a rab a well-to-do silversmith named Demsticking out through holes in the sur was reducing the sales of the silver shrines and images of the goddess Diana, opposed the new movement vigorously by calling together his fellow business men and declaring:—
"Sirs, ye know that by this business have no bambeo to use, and imitations we have our wealth." He added as in glass, china and earthenware are like all imitations, offensive to good ligion was also being endangered. taste. Flower vases should be of some opaque material, and good glazed known writer and lecturer of Northearthenware is really very suitable for western University, has just written the purpose. Let it be without orna. a severe arraignment of the muddy vision of many otherwise good Christian men of today in matters wherein genuine Christianity would diminish ployed that does not harmonize with financial profits, in a searching distribution of flowers and leaves cussion of "Demetrius: the Pious Business Man," which appears in the Sunday School Times. He even dares to suggest that there is an adroit silversmith in each of us whose prejulice confuses our moral vision.

> An Oil for All Men .- The sailor, the soldier, the fisherman, the lumber-man, the out-door laborer, and all who are exposed to injury or the ele-ments will find in Dr. Thomas Eeectric Oil a true and faithful friend. To ease pain, to relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it has no equal. Therefore, it should have a place in all home medicines and those taken on a journey.
