## Paine's Celery Compound.

A POSITIVE CURE FOR DISEASE

t is a Fame and Reputation That No Other Medicine Can Boast of

It is not what is said in the newspapers about Paine's Celery Compound but what it does-its life-saving work, that explains its world-wide fame and pularity.

It is well that all should know that Paine's Celery Compound is not an or-dinary patent medicine ranking with the nervines, sarsaparillas, bitters and pills of the day. Paine's Celery Comound is as far beyond these common remedies as the effulgent light of the mid-day sun is superior to the tallow

Paine's Celery Compound possesses extraordinary powers and virtues for bealth building and life-lengthening. Professor Edward E. Phelps, M. D L. D., its discoverer, gave this marvellous medicine to his profession as positive cure for sleeplessness nervous-ness, wasting strength, dyspepsia, rheumatism, neuralgia, kidney and liver troubles. Since its introduction, ens of thousands have been raised rom sickness and disease to perfect health and vigor. No other medicine in the world was ever so highly honored and recommended; no other has ac-complished such a blessed mission amongst the sick. When the honest physician is called upon to prescribe for weak, rundown, overworked, debilitated and ailing men and women, he

invariably recommends the use of Paine's Celery Compound. At this time no household can afford to be without Paine's Celery Com-pound. It is within reach of all classes. It makes the sick well, and the cures are permanent. Strengthen purify and regulate the system at once with this greatest and best of all remedies, and you will be in a condition to resist all invasion of disease.

The attention paid to unconsequential things causes us to overlook many that are great.

## MISS VIRGINIA GRANES

Tells How Hospital Physicians Use and Rely upon Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM: - Twelve years continuous service at the sick bed in some of our prominent hospi-tals, as well as at private homes, has given me varied experiences with the diseases of women. I have nursed some

President of Nurses' Assoc most distressing cases of inflam and ulceration of the ovaries and womb. I have known that doctors used Lydia E. Pinkham's Vegetable Compound when everything else failed with their patients. I have advised my patients and friends to use it and have yet to hear of its first failure to cure.

"Four years ago I had falling of the womb from straining in lifting a heavy patient, and knowing of the value of your Compound I began to use it at once, and in six weeks I was well once more, and have had no trouble since. I am most pleased to have had an opportunity to say a few words in praise of your Cograhal Compound and ulceration of the ovaries and womb tam most pleased to have had an oppor-tunity to say a few words in praise of your Vegetable Compound, and shall take every occasion to recommend it.\*— Miss Virginia Granes.—\$5000 forfeit if
