THE ASSEMBLY ROOM
We understand that the Assembly
Room in Harkins' Academy is about
completed, and will in the very near
future be ready for the pupils to hold
their exercises therein. Carpenters
have been engaged for the past few
months getting this large room in
shape, and a large amount of money
has been expended on same. Har-
kins' Academy is now equipped with
a room, which for a number of years
has been badly needed and we feel
confident that our teachers and
scholars will appreciate in no small
degree, the addition of this beautiful
Assembly Room.

Now that the school has been eq-
uipped with this spacious room, would
it not be a most advisable plan for
the Board of School Trustees to en-
gage the services of some musical
teacher to teach the children
one of the most beautiful studies
that can be taught. It would not
only be most helpful to the children,
but would also provide one of the
greatest pleasures in life, which they
in turn would be in a position to
pass along to the general public in
entertainments which they would
in future give. We hope something
will be done in this matter, as it is
a most vital one. The expense would
be small.

CONSERVE THE WATER
The Public has heard for a long
time from our Town Fathers, of the
necessity of conserving the town's
water supply, but it has been left to
our present Town Council to devise
the latest method of doing so, viz:
to increase the rates charged the two
printing offices. How this is going
to conserve the water supply is more

CASTORIA

Signature of *Dr. J.C. Williams*

than we can fathom. The two print-
ing offices have been accused of wast-
ing an enormous quantity of water,
which is absolutely without founda-
tion, and to prevent them from wast-
ing water our present Town Council
has increased the rates charged, in
our own particular case, 150%. Last
week we had a visit from the Town
Engineer, and after a thorough exam-
ination, that official was satisfied
that in so far as the Union Advocate
Office was concerned, we were not
wasting water, but simply using the
quantity necessary for operation
purposes. The printing offices in
this town are ready, willing and an-
xious to do all they possible can, in
the matter of conserving our present
water supply, but we fail to see how
the Town Council are going to ac-
hieve this purpose by increasing the
rates of only the printing offices.
Our Town Council, as do all other
citizens, know full well that there are
places in this town that use far more
water than they are entitled to or
pay for, but nothing is done to pre-
vent them from doing so, their rates
even are not advanced, such as has
been done to the printing offices.
Why such discrimination? The two
local papers do more in the way of
boosting and advertising our town
than any other agency, and it does
not cost the town one cent, but never-
theless, when the Town Council want
to conserve the water supply, they
boost our rates 150%. Is this fair
treatment? We do not think it is.
The two printing offices are perfect-
ly willing and prepared to pay their
proportionate share of the water used
by them but they do object when they
are discriminated against. The
new method devised by the Town
Council is to our way of thinking,
more of a money making scheme
than it is of a water conservation
one, and if this is the intention of
the Town Council, we fail to see why
the water rates of others using water
are not increased proportionately, in
accordance with the increase given
to the printing establishments. There
would be some wisdom in this move,
which would be commendable, but
when they raise the rates on only
two users of water in order to con-
serve the water supply, it is rather
too weak a theory for the public to
countenance.

The members of our Town Council,
do not require to be told by us or
by any one else, as they are quite
well aware of the fact, who it is that
is using so much water unnecessarily,
but for some reason or other their
rates are not advanced. Play the
game fair and the printing offices
will not protest. Now that the Town
Council have invented an entirely
new method of conserving water, it
is their duty to use all alike. We
wonder if they will do it? We will
await and see.

We are satisfied that if they do, a
considerable increase in money will
be received, but very little water
will be conserved.

REGAL The Big Value in FLOUR for Bread, Cakes & Pastry

Kozy Korner Slippers
AT
MacMillan's Cash Shoe Store.

LIMITED**

**Pallid Cheeks
And Dull Eyes**

Tell the Story of Watery Blood
—How to Regain a Good
Color and Health

To be run down in health and to
lose their attractiveness is the double
misfortune of many young girls.
Their pallid cheeks and dull eyes tell
everyone that they are doomed to
days of wretched headaches and are
victims of breathlessness and blood-
lessness. The anaemic girl, if she
neglects her health, may be a suffer-
er all her life; for an active happy
woman cannot be developed out of a
bloodless, consumptive looking girl,
without the help of new, rich red
blood.
Bloodlessness must not be neglected.
Plenty of good air, a nourishing diet
and rest will help you, but the cure
you need most promptly is new blood.
Good new blood in abundance, such
as makes all the difference between
sound health and poor health to girls
and women, is supplied by Dr. Wil-
liams Pink Pills. Their one mission
is to make new blood which reaches
every organ and every nerve in the
body, bringing to anaemic girls and
women new color, bright eyes, an
elastic step and a feeling of joy in
Pink Pills to young girls is shown by
the cure of Miss Bessie Clarke, R. R.
No. 1, Stevensville, Ont. who says:
"Two years ago while studying for
the entrance examination, my health
broke down and I fell away to a mere
shadow of my former self. When the
day for the examinations came, I
should have been in bed instead of
trying them, but I went on with the
work and when through was almost
on the verge of collapse. I thought
then that a rest would help me, but
I did not regain my strength. Then
my mother was advised to have me
try Dr. Williams Pink Pills, and
after taking them for about a month
I found myself restored to health,
with good color and a change for the
better, which people who know me
readily noticed. I am very thankful
for what Dr. Williams Pink Pills did
for me, and hope my experience will
benefit some other weak girl."
You can get Dr. Williams Pink Pills
through any dealer in medicine, or
by mail, postpaid, at 50 cents a box,
or six boxes for \$2.50 from The Dr.
Williams Medicine Co., Brockville,
Ont.

**Conspicuous by
Their Absence**

A meeting of the Farmer, Labor
and Independent candidates at the
last provincial elections was held in
the Imperial Block, Moncton, Wed-
nesday afternoon, Nov. 17th, at a
9 o'clock.
The chief object of the meeting
was an interchange of views on ques-
tions of provincial policy. The ques-
tion of co-operating in the house with
either of the government or opposi-
tion parties was discussed and an un-
animous decision was arrived at not
to enter into any agreement with
either party looking to affiliation.
On motion of G. D. Guphill, Charlottetown,
and J. A. R. Blinson, Westmorland,
A. Chase Fawcett, Westmorland
was unanimously elected as tempo-
rary leader of the combined forces.
Many questions under discussion
will be presented to the annual con-
vention of the United Farmers of
New Brunswick, which it is expect-
ed will take place before the sitting
of the legislature.
The accredited delegates from
the Westmorland County Independ-
ent Labor Party present submitted
proposals for a province-wide affilia-
tion of the two groups for political
purposes, which proposals were dis-
missed.
Meeting adjourned at 8 o'clock.
From 8 to 10 p. m. an informal

meeting of Farmer and Labor repre-
sentatives was held at the same place
and discussed questions of mutual
interest.
A conspicuous fact in connection
with the meeting was that the mem-
bers of the Northumberland County
were not present. The members from Te-
noris, Charlottetown and Charlottetown were on
hand, also the delegates candidates
from York and Kings.
