TORYISM RUN MAD.

Our Tory newspaper friends find pleasure in quoting from French Canadian papers, any evidence of opposition to imperialism, and hold those of the Liberal party up as disloyal. Now the Liberals do not claim all the loyalty of the country; that absurd position is left to the Tories, but we submit that nothing so rank and dieloyal as an extract which we publish below has emanated from any French Canadian Liberal. It is from a Tory newspaper, Le Trifluvien, published at Three Rivers, Quebec, and is a gem in its way. Possibly this Tory newspaper has been studying recent speeches of its leader, Sir Charles Tupper, and its article shows the startling result of following a prenicious ex-

ample. Le Trifluvien, after having alluded to the Queen's Jubilee in 1897, says: "Sir Wilfrid Laurier, forgetting his origin, betraying his fellow-countrymen and trampling underfoot the sentiments of a whole nation who merited his gratitude, had the cynicism to declare that he would be happy only on the day when he would be permitted to sit in the Imperial Parliament. It was all up with us French-Canadians; we were decrived, betrayed by a brother. Who among us, before that shameful and humiliating declarathe person of our representative a traitor and a new Judas? Who at that time in London a perfidious renegade called Laurier? Unhappily, it was only too true. Sir Wilfrid Laurier had become a perfidious man, a traitor, a renegade and a Judas in the eyes of his fellow-countrywith care by Sir Wilfrid, has grown and the husks of flattery that the Grand Master, Israel (Mr Tarte), has just reiterated in London the shameful declaration made by Sir Wilfrid in 1897. 'The French Canadians,' said he' would like to be pure English, and in order to make their position regular they require nothing more than to be represented in the Imperial Parliament.' One must be a degenerate to utter such absurdities. Yet these are the men, both devoted partisans of the Imperialism, which we repudiate as a hideous monster, who represent us at Ottawa. Both united for evil, traitors to our interests and to the sentiments of French-Canadians, sit in the Canadian Parliament under the title of representatives of our race. Let us awaken and prepare for the combat. Let us withdraw our confidence

plished a national and meritorious Tories in some parts of Canada denounce Sir Wilfrid Laurier and Mr Tarte as disloyal, but here we have a leading Tory newspaper calling them Judases because they are loyal to the Queen, and advocates of Imperial Unity.

GENEROUSLY TREATED.

A correspondent of the Montreal Herald finds that New Brunswick is dealing more liberally with her soldier boys in South Africa than any other Province. When the first contingent started for the front, movement was inaugurated to collect money sufficient to pay each man from this Province 50 cents daily for six months. The response was so generous and spontaneous that it was found possible to continue this liberal grant to the men of the second contingent, as well as to those who went out to fill vacancies on the first contingent. At a meeting of the subscribers to the fund on Monday, it was reported that \$15,990 had been received and that promised grants by the Provincial Government of \$5,000 and the City of St. John of \$2,000 left only \$2,260 more to be raised by public contributions to enable the payment to every New Brunswick soldier at the front of \$3.50 per week for the full year of his enlistment. This sum will be collected.

The beirs of those who die in Africa will receive their proportion. Already a large amount has been paid out on orders from the men, mothers or other legal representatives getting the \$3.50 weekly. Others will have a good sum to their credit when they get home.

The correspondent however, forgets to add that the soldiers who went from Fredericton, have had their lives insured for \$1,000 each by the city council.

The Australian federation bill has bad its first reading in the Imperial House of Commons, and Mr. Chamberlain in introducing it made the important announcement that the government purposed to introduce into the House of Lords forthwith a scheme to appoint for seven years a representative each of Canada, South Africa, Australia and India to be members of the privy council and who would act as lords of appeal. Life peerages would be conferred on them so that they would continue to sit in the House of Lords although they would not as judges be paid

Lord Roberts has already captured two Orange Free State capitals and British Sir troops are dangerously near the third. Where President Steyn will locate when Lindley has been captured, is bothering a great many people. Probably he and Kruger will make a hurried start for Delagoa Bay thence to Europe before Brit ish guns are heard thundering at Pretoria. Kruger is reputed to be a multi-millionaire, and if he escapes the hands of the British will probably spend his closing days among the respectable Dutch in Holland. If he is captured he ought to be hanged, for causing all the loss of life And for the First Time Raises and treasure in South Africa.

The Boer peace delegates are promised a grand time in the United States. This is presidential election year, and every politician who is anxious to catch the Dutch, German and Fenian vote, will do his best to hospitably entertain and flatter Presi dent Kruger's emissaries. The practical result for the Boer republics, however, will amount to nothing. Not even the interposition of the American army and navy could prevent Britain annexing the Transvaal and Free State when the war in South Africa is over.

The Canadian Military Gazette, which cannot be accused of friendliness towards the Minister of Militia, rises to remark To Hon Mr Borden is certainly due the credit of securing proper recognition by the issue of medals to those who assisted in repelling the Fenian invaders. Other ministers made promises, but he is the only one who followed the matter to a successful conclusion. He was quite modest in his references at the Montreal distritution the other night-an example that many others might follow."

The Moncton Liberal Club Monday evening enjoyed a treat in the shape of a vigorous and eloquent address from Firman McLure, the talented voung M. P. for Colchester, N. S. Speaking of the improved I. C. R, Mr. McLare said the Maritime Provinces owe a debt of gratitude to that strong man whom New Brunswick gave to the government, Hen.

Mr. Calkin has been a most successful educationalist and his position will be bard to fill.

There is a Canadian trade preference in England as well as a British trade preference in Canada. The British war office has been buying our hay, horses, saddlery and canned goods for South Africa, and now they have ordered 30,000 military uniforms from a Cana-

dian manufacturer. Sir Chas Tupper's political friends are angry because Sir Richard Cartwright has discovered a relationship between the Tory leader and Kruger. The Boer president is yet to be heard from.

The proposed constitution of the Austra lian confederation provides that the Senate shall be elective, a plan that should be adopted in Canada.

FAMINE IN INDIA

Hearfrending Details of Starvation

London, May 16-Dealing with the famine in the central provinces of India, which have an area equal to that of Australia and a population of nearly eleven millions, and which were formerly most prosperous, the Daily Chronicle correspondent at Bilashur writes:

"The demand for government assistance is unparalleled. In one district forty persons are dependent on the sirdar for their daily bread. In two others the percentage is over thirty. In the whole there are 15,000 people in no other sources of subsistance than govern-

Three miles out from Bilashur, 1.500 persons are busy adding to the long list of links constructed by famine labor. Further on stone breaking is in progress and peasants who have never before handled any implement save those of husbandry, wrestle manfully with crowbars and boring tools. When the rock is broken women and youngsters busily ply tittle hammers. An able bodied man earns three cents, women two cents and a half and children two cents.

They then approached another farm, also flying a white flag, but when within forty yards of the erclosure, they were fired upon by fifteen or sixteen Boers who were concealed behind the farm wall. Two of the men were killed, Lt. F. B. Walten was wounded, and Lt. A. B. Everton and two non-commissioned officers were taken prisoners. THE GREAT WEST.

An Interesting Chat With Ernest L. Crewdson.

WHO HAS RETURNED HOME AFTER A

Sojourn of 18 Months in the Pacific Province.

FORMER FREDERICTONIANS WHO ARE PROSPERING IN THE WEST.

Ernest L. Crewdson, who removed to British Columbia in the fall of 1898, has returned to Fredericton, and although as yet undecided as to his future course, his many friends will be glad to know that he will in all probability remain here. He is being heartily welcomed back to his native city, and does not hesitate to say

that he is glad to be with his old friends and relatives once more. In conversation with a Herald representative, Mr. Crewdson stated that the Pacific coast cities, from Vancouver to San Francisco, were very much over crowded, and it was exceedingly difficult for a clerk or professional man to secure employment. The surplus population is composed largely of young men who have returned from the Atlin and Yukon districts after an unsuccessful search for the yellow metal. Most of them came back poor in pocket, but rich in experience, and are now ready and willing to take hold of almost anything that offers in the way of employment. The mining districts in the interior of the Pacific province, Mr. Crewdson thinks, offer excellent opportunities for the man who is not adverse to roughing it, and has a little spare capital at Lis disposal. He

would not, however, advise the man without capital to go there. Mr. Crewdson has been absent from Fredericton about eighteen months. He remained for some weeks at Silverton, B. C., and afterwards removed to Butte City, Montana, where he was offered and accepted a lucrative situation. A stay of a few months in Butte satisfied him, however, and he resigned his position and returned to British Columbia. For the last year he has been a resident of Revelstoke, a hustling railway centre on the the line of the C. P. R. The population of the town is largely made up of people from eastern cities, and Mr. Cewdson has nothing but good words for the place and its inhabitants. During his stay at Revelstoke, Mr. Crewdson identified himself with the Methodist Church choir, and on the eve of his departure the other members of the choir presented him with an address and silver shaving set. He held a Incrative position at Revelstoke as manager of a leading business

house, which he resigned to return to Mr. Crewdson, during his absence came n contact with many former Frederictopians, who are comfortably located in the west. He did not meet Mr George Hatt, who removed to the west from this city some months ago, but frequently had letters from his son, Harold, who has a good situation.
