Mr R. L. Borden, Leader of the Opposition, has arranged for a tour of the Dominion. He will address public meetings in the different parts of Canada from Cape Breton to British Columbia.

Nothing new has developed since our last issue, in connection with the bill for the amendment of the British North America Act, now passing through the Imperial Parliament.

Glancing at the report of the proceedings of the second Provincial Conference, relative to the increase of subsidies to the Provinces from the Federal Treasury, held at the city of Quebec, in December, 1902, our eyes fell upon paragraphs of much interest.

representatives at the Conference of 1902, as at the Conference of 1906, did nothing to convince those assembled that we were entitled to special treatment and increased subsidies.

The Graft Root.

Graft is the most pernicious weed in the fair fields of Canadian life, blighting, cursing, choking out, morally paralyzing.

The root of graft is greed. It is based on the soil of selfishness. It exists because of the desire of men to enrich themselves at the expense of others.

Public graft springs from private greed. Wherever a citizen may be found who is willing to take advantage of an opportunity to add to his wealth without making adequate return for it, may be found a fibre of the root.

This graft root may be traced to its blossom in public position to the daily affairs of private life.

the other day. You worked at it four hours. You charged for five. Graft! Yesterday you took a walk. You admired the beauty of the city, the luxuriant and brilliant flower-boxes on the verandas, the neat lawns, the spreading shade trees.

So runs the root, in its finer fibres—very fine, perhaps, but a part of the root, nevertheless. So stirs the spirit of graft among the people. So originates the curse that we are compelled to deplore at its political climax.

Pulp and Pulpwood.

(Ottawa Citizen)

The New York Sun, which for years has maintained a deep and intelligent interest in Canadian affairs and particularly in those questions which affect the commercial relations of the two countries, has already taken note of the movement in this country looking to the conservation of Canada's spruce forests.

The point of special importance is not so much the possibility that Canada may impose an export duty on pulpwood as the certainty that unless proper steps are soon taken there must occur an exhaustion of spruce supply in Canada as well as in this country.

The danger, grave and impending, can be averted only by State or by unaided action, and only by the conservation of the existing forests and an extensive planting with a view to the remote future.

Hail Laurier.

(Montreal Gazette)

Sir Wilfrid Laurier has returned to Canada under anything but happy circumstances. He went abroad to attend a conference of representatives of the divisions of the Empire.

If there was little in what he did in England to create in Canada enthusiasm for Sir Wilfrid Laurier's return, there is, moreover, little in the situation in Canada to cheer his heart for the work he has to continue.

doubtful if in the history of Canada any three months produced such a volume of changed and changing opinion as those which elapsed between the time of his departure and his return to his country.

Steamer Ashore.

Halifax advices of Saturday say:—Another ship came to grief on the Cape Sable coast yesterday, when Pickford & Black's liner Orion crashed on the rocks off Seal Island.

It is not in the federal field alone, either, that the situation is bad for Sir Wilfrid Laurier and what he represents. He need refer to the Ross Government in Ontario as his right arm. For its rottenness the people of Ontario chopped that arm off at the shoulder.
