Nervous Prostration

Mrs. Conrad Schmidt, R.R. No. 17, Milverton, Ont., writes: "Two years ago last spring I was run down, had nervous prostration, and was in a terribly nervous condition. I could not sleep or eat, could scarcely count the nights that I passed without sleep, and if I did eat, had sick headaches and vomiting spells. My limbs would swell so badly that it hurt me to walk. I would jump up in bed, awakened by bad dreams. In fact, I was so bad, thought I could not live, and started to use Dr. Chase's Nerve Food without much hope. "It was not long before I began to improve under this treatment, and I can truthfully say it has done me a world of good. It took some time to get the nervous system restored, but I kept right on using the Nerve Food regularly, and gradually gained in health and strength. I have a fine baby boy now. He weighed 12 lbs. at birth, and, though my friends were anxious after the condition I was in, I got over that fine, and now weigh 120 lbs. Before using the Nerve Food I was a mere skeleton."

The original of this testimonial is on file in our offices for your inspection, or you may write to Mrs. Schmidt for confirmation of her cure. 50 cents a box, 6 for \$2.50, all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations disappoint.

DISTRESS IN EAST COAST TOWNS DISCUSSED IN COMMONS.

LONDON, May 30. Distress in East Coast towns as the result of the war, was discussed in the Commons to-day. Members for the constituencies affected, made an appeal for the relief by the Government. It came out during the debate that Zeppelins had visited Yarmouth more than thirty times. Tourists at Yarmouth and other resorts, who in former years numbered thousands, have dwindled almost to none. Many residents of the towns have departed, while others, chiefly with children, proceeded to interior places each night. Arthur Fell, Conservative member for Great Yarmouth, pointed out that forty per cent. of the people of Grimsby, dependent in the past on visitors for their living, are now

without this means of obtaining a livelihood; and thirty per cent. depended upon fishing, which also has been interfered with. Shopkeepers had been hard hit. Sir Edward Beatty, Liberal member for Lowestoft, said that the town had been ruined by the loss of visitors.

MEAT PRICES SOARING.

LONDON, May 30. There is now believed to be a possibility of the people of the British Isles being placed on meat rations. Captain Pretlyman, Parliamentary Under Secretary of the Board of Trade, in the Commons to-day said there was no actual shortage existing. High prices arose from deficiency due to the requirements of the forces in the field. The Government, he said, was reviewing the situation carefully.

SENTENCED TO LIFE IMPRISONMENT.

DUBLIN, May 30. Professor John MacNeill, President of the Sinn Fein Volunteers, who last week was found guilty of complicity in the Irish revolt, has been sentenced to life imprisonment. The sentence is confirmed.

ST. PIERRE BULLETIN.

PARIS, May 30. On the left bank of the Meuse,

bombardment increased yesterday during the evening between Mort Homme and Cumieres. The enemy shortly after launched a very strong infantry attack, in which was engaged a new division recently on this front. On our left all the enemy's assaults launched on the east slope of Mort Homme, where we established our lines, have all been shattered by our fires. Further east in Caurettes Wood region, after several unsuccessful attempts, in which the enemy suffered very heavy losses, we have brought back our advanced elements south of the Bethincourt-Cumieres Road. Finally at our right, the Germans did not succeed, though they repeated their efforts to dislodge us from the borders of Cumieres Village. Bombardment continued fiercely during the night. On the right bank of the Meuse was activity of artillery in the region west of Douaumont fort. A relatively calm night on the remainder of the front.

GERMAN ATTACKS REPULSED.

PARIS, May 30. All attempts of Germans to gain ground on the remainder of the positions under attack were repulsed. The Germans maintained heavy artillery fire west of Fort Douaumont.

BULGARIANS AND GERMANS ENTER GREEK TOWN.

PARIS, May 30. The Havas correspondent at Athens reports that the Greeks are fortifying Demir-Hissar section with great haste. Bulgarian and German officers are said to have entered the town. The Bulgarians continue their concentration of troops. Engagements between patrols are occurring in the Klindir-Orsovo sector.

BULGARIAN ACTIVITY.

LONDON, May 30. Great activity on the part of Bulgarians following their occupation of several Greek forts in the vicinity of Demir Hissar, is reported in a despatch from Salonika. Official information has been received to the effect that important Bulgarian forces are being concentrated at Neuroko, in the Bulgarian-Greek border, as well as at Xanbia. There have been no further developments in Demir-Hissar region. The town remains in the hands of the Greeks, although the inhabitants have departed. The advance lines of the Entente Allies on the Vardar and the hamlet of Klindir are being bombarded.

MAKING FURTHER PROGRESS.

LONDON, May 30. The British force which is invading German East Africa from the southwest, and which yesterday was reported to have penetrated twenty miles into German territory on the front between Lakes Tanganyika and Nyassa, has made still further progress, according to an official statement issued to-night. The report says: Continuing his statement of op-

erations, sent on May 25th, Brigadier-General Northey telegraphs his operations against New Laugeberg have been successful. The enemy has been compelled to evacuate the town. We occupied it to-day, capturing large quantities of ammunition, food and stores of all kinds. The enemy garrison, which is holding Maroma, twenty-five miles E.N.E. of Abercorn on the Rhodesian border, has been invested.

AUSTRIANS RENEW OFFENSIVE.

ROME, May 30. The Austrians have resumed the offensive of the Fesler valley, along the Upper Astico, in Southern Tyrol. They attacked the Italian positions south of Posina after violent artillery preparation, but, according to last night's official statement from the War Office, were unable to dislodge the defenders.

PROPOSAL DEFEATED.

WASHINGTON, May 30. By a vote of 150 to 114, the House to-day defeated the proposal to add two battalions to the naval bill building programme.

AFTER ROOSEVELT.

KANSAS CITY, Mo., May 30. An open pocket knife was thrown at Colonel Roosevelt to-day, as he rode the Memorial Day parade. The knife struck the rear of his automobile, and was found later in the street. Roosevelt was not told of the occurrence. The police had no report of the matter, and no arrests are expected.

CELEBRATES MASS FOR FALLEN IRISHMEN.

NEW YORK, May 30. Solemn Mass of Requiem for Irishmen who fell in the recent revolt in Ireland, or who were executed for taking part in it, was celebrated in All Saints Cathedral to-day. Members of the Ancient Order of Hibernians attended. Inside the altar rail stood color bearers, with the American flag, the green flag of Ireland, and the flag of the short-lived Irish Republic proclaimed by Sinn Feiners.

TERRIBLE SUFFERINGS OF GENERAL TOWNSHEND'S FORCES.

NEW YORK, May 30. The Evening World to-day publishes the following: Bombay, India. Stories of the terrible sufferings of British and Indian soldiers and inhabitants of Kut el Amara, before General Townshend gave up the gallant defence of the place, have been brought here by wounded and diseased prisoners, who were exchanged for Turkish prisoners. They were frightfully emaciated. The whole garrison would have perished if Townshend held out a few days longer. When capitulation was signed, only six mules were left for the army, and 20,000 of a civil population. When Townshend tried to send Turkish civilians out into the Turkish lines, they hanged forty of them, warning the others to stay and consume the British food. Diary of the siege shows that the only suffering was for food. Before surrender, dead officers' kits, valued at eighty dollars, was paid for a box of cigars, and \$20 for fifty American cigarettes. In February, rations only consisted of a pound of barley meal, bread, and a pound and a quarter of mule or horseflesh. In April it was four ounces of bread and a pound of flesh. The supply of bread for British soldiers was sold lower, since the Indians would not eat meat because of their religion. Disease spread among horses about a hundred, and 2,000 being killed because there was no grain for them. The fattest were kept forty-five days for food. In February scurvy appeared. The British aeroplanes dropped seeds. Townshend turned the army into gardeners. Mill-stones, too, were dropped from aeroplanes to grind flour. Starvation furnished delicate wild rabbit supper. Grass was cooked as vegetables, and ginger root boiled acted as a substitute for tea and coffee. Later the aeroplanes dropped some corn flour, cocoa, sugar, tea and cigarettes, but this went to the wounded alone.

The "Bum" Nuisance.

Editor Evening Telegram. Sir—On all sides can be heard complaints from citizens about a gang of idlers who never work and are day after day holding up people from the streets asking for money to buy drink. There is not a man in the community, I venture to say, who is not disgusted with these hooligans, and who does not wonder why the police authorities do not start in and round them up. Winter and summer, day after day, this nuisance is in evidence on our streets, and the gang seem to have reached the stage that if stringent measures are not taken to deal with them they will soon take charge of the town. I know that now and again some of them are arrested, but they seem to have no dread of the Penitentiary and come out after serving a short term and start in at the old game again. Surely, as those fellows are well known to the court officials, some way of dealing with them that would have the effect of making them dread being arrested can be devised. Giving them plenty hard labour for a month or two would in my opinion soon teach them a lesson. I ask the Inspector General or Mr. Pringle to bestow favour on a citizen by doing something to rid the community of this gang of professional bums. Queen Street and Adelaide Street seem to be their headquarters and I would ask that the police pay special attention to these localities and I assure them that the citizens who are daily bored to death by this nuisance will be thankful to them. Now I do not want the Inspector General or Mr. Pringle to read this and then forget it. On the contrary I want them to give this matter their immediate attention, for too long have we put up with it. Citizens have enough trouble just at present without being subjected to a nuisance such as this. I refer to and one that would not be tolerated in any other community for a single day. Yours truly,

"MEASLES."

Hundreds of children are suffering from "Measles" at the present time, and one has to be very careful in trying to avoid the complications that often follow. A heavy "cough" is very prevalent, and the present epidemic, and "Pneumonia" is the great danger. Avoid this by keeping a bottle of "Stafford's Phoratoxone Cough Cure" on hand. Stafford's Drug Store (Theatre Hill) is open every night from 7.30 to 9.30. The above preparation is manufactured only by DR. F. STAFFORD & SON, St. John's, Nfld.

Here and There.

"Stafford's Liniment."
"Stafford's Prescription "A."
"Stafford's Phoratoxone Cough Cure."

ANOTHER CANDIDATE.

It is understood that Mr. J. J. Mullaly is a prospective candidate for the forthcoming Municipal election.

TOWN QUIET.

The police had an unusually quiet time last evening and up to midnight not a single arrest was made.

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunate, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once: Go to an active drug store and get a bottle of Bon-Opto tablets. Dissolve one Bon-Opto tablet in 1/2 glass of water. With this harmless liquid solution bathe the eyes two to four times daily, and you are likely to be astonished at the results right from the start. Many who have been told they were blind, or nearly so, or who wear glasses might never have regained them if they had cared for their eyes in time. Save your eyes before it is too late. Do not become one of those victims of needless eye-glasses are only like crutches and every few years they must be changed. If you get clear, healthy, strong magnetic eyes through the prescription here given. The Valma Drug Co. of Toronto, will fill the above prescription by mail, if your druggist cannot. A prominent City Physician to whom the above article was submitted, says: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to me, and I am confident that it can be obtained from any good druggist and is one of the best preparations for the relief of eye troubles for regular use in almost every family."

Our Volunteers.

Nine young men enlisted yesterday. Drill on the Parade Grounds and practice at the Southside Range were engaged in during the day. The new additions are: Wm. Carpenter, Port Blandford; Angus Brenson, Sound Island; Herbert Wiseman, Shoal Hr.; T.B. Ernest Gooney, Black River; P.B. John Blackmore, Bell Island; Wm. Jos. Kent, Bell Island; Patk. Bennett, St. John's; Patk. Ryan, St. John's; Harold Brushett, St. John's.

Running Nose Colds Cured. Sneezing Stopped Instantly

The worst of a cold is how suddenly it comes. No time to hurry to the drug store, croup develops, the lungs are affected with pneumonia or tuberculosis and it's too late. Keep Catarrhozone on hand—it kills colds instantly. Something magical about the way it cures catarrh and bronchitis. Catarrhozone is the best remedy because it cures in nature's way; it heals, soothes and restores permanently. Carry a Catarrhozone inhaler in your pocket, use it occasionally and you'll never catch cold—that's worth remembering. Beware of dangerous substitutes meant to deceive you for genuine Catarrhozone which is sold everywhere, large size containing two months treatment costs \$1.00; small size, 50c.; sample size 25c.

Fishery News Caplin Near Burin.

The Board of Trade has just received the following: From W. R. Andrews (Great Jarvis Head to Pass Island)—The total catch is 1,000 qtls., with 100 for last week. Seven traps, 200 dories and skiffs and 3 boats are fishing. Balt is scarce, and the lobster fishery is poor. The fishermen are using trawls and cod-nets for the first time on a large scale, and it is hoped this will open a new era of prosperity in Hermitage Bay. From A. J. Pearce (Twillingate to Trump Island)—Owing to the loose ice only about 4 traps have yet been put in the water and these have done fairly well. The catch to date is 202 qtls. If the ice keeps off the land and the weather proves favorable, prospects will be pretty bright. No regular fishing has been commenced yet owing to the prevailing E. winds and rough water. There is a sign of caplin at Fox Cove, near Burin, at which place bankers will go for baiting in about a fortnight ago a large number of our bankers baited with herrings at Cape North and for which they paid high prices so that the striking in of the caplin so early will be of great advantage to those interested in the banking voyage.

Ladies' Sample Summer - Dresses,
SUPERIOR QUALITY—DAINTY DESIGNS.
EVERY DRESS DIFFERENT.

If you wish something extra chic and something that will bear the Mark of Quality, invest in one of these.
Price: \$6.00 & \$6.50 each only.
These Dresses are made of the very finest Muslins in White and Coloured makes, and worth in the ordinary way \$9.00 to \$12.00 each.
Besides these Sample Dresses we also have some specially smart styles in

Ladies' Am. Silk Bengaline Dresses
\$6.50, \$9.50 & \$10.00 each.
And a lot of BLOUSE ROBES in extra special values, around \$3.00 and \$4.00 each.

Spring Suitings!

Have just opened our new Spring Suitings. We were fortunate in securing a splendid range of English Worsteds and Irish and Scotch Tweeds. Notwithstanding the scarcity of the woollens and the drawbacks in freights, we are able to show as good a selection as before the war. The latest in cut, the best in make. Write for samples and self-measuring cards.
