"We learn that a Dutton newspaper man was badly poisoned by rubbing his chin while handling \$100 bills. We feel relieved now. Our chin has been hurting us for some time, and all the while we have been swearing at Cunio about it. Since we have found out the trouble we shall simply hire one more cashier and everything will be lovely." The foregoing is from the Bruce Herald, Walkerton. We would inform Mr. Herald that if only handling \$100 bills would poison our chin, or make it hurt, that it will never trouble us; it is the getting of bills, of any denomination, that will make a person's chin hurt.

Mr. Jas. Galbraith, who lives near Iona Station, met with a heavy loss on Tuesday afternoon. He was having his clover threshed by a steam thrasher, and about 3 o'clock a spark from the engine blew through a crack into the barn, where it soon began to burn the straw. The efforts of the men to extinguish the fire proved of no avail, for the fire made rapid progress, not stopping till nearly everything was burned. The thrasher, lost nearly all his grain, hay, etc., which will be a heavy loss. The barn was insured in the London Mutual, but for what amount we have not ascertained.

A very pleasing feature of above tea-meeting was the calling of the pastor, Rev. C. C. Veteran Violinist.

James Babcock is perhaps the best known violinist in the county of Elgin. For the past 25 years he has travelled the bow, and perhaps he has played for more dances than any man in the Southern Counties. Ten years ago Mr. Babcock was a very strong man, weighing about 200 pounds. He was in great demand at raisings, being the foremost man in lifting the heavy timbers that a few years ago were considered necessary to strengthen a building, and at night he furnished the music for the dance. This was frequently kept up every day and night for a week at a time. Mr. Babcock feeling no bad effects from the extra work. But the extra strains told at last. Seven years ago as he was lifting a heavy timber he sprained his back, and from that day until about six months ago he has been getting worse, and at intervals he would have to walk the floor all night. The local physicians not giving him any relief, he tried the best doctors in Detroit, Buffalo, New York, and other places, but all of no avail. From weighing 200 pounds he was reduced to 113 pounds. As was told he had Bright's disease of the kidneys. He made up his mind he would soon have to take a trip to that Golden Shore where doctors and medicines are not needed. After trying patent medicines he was induced to try Partridge's Kidney Cure. The effect was wonderful. He said, "I had no faith in it, but concluded to give it a trial, as it was highly recommended to me. After taking the medicine a week the pain entirely left me. The high-colored burning urine, of which I had no control, changed to its natural color, my strength returned, and I felt like a new man." Partridge's Kidney Cure is for sale by all druggists.

WHAT IS CATARRH?

Catarrh is a mucous-purulent discharge caused by the presence and action of the vegetable parasite amoeba and the internal lining of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted cornucopia of tubercle, the germ poison of syphilis, mercury toxæmia, from the retention of the effete matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back of the throat; causing ulceration of the throat; up the nasal tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease, by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Some time since a well known physician of forty years' standing after much perplexing, succored in discovering the necessary combination of ingredients which never fail in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers Messrs. A. B. Dixon & Son, 35 King street west, Toronto, Canada, and get full particulars and treatise free by enclosing stamp. Toronto Mail.
