

Slaves to Rheumatism

Freed by "Fruit-a-tives"

"Fruit-a-tives" cure Rheumatism and Rheumatic pains by removing the poisons which cause the disease. Rheumatism means poisoned blood. Too much urea or tissue waste is retained in the blood, owing to defective action of the bowels, kidneys or skin. The retained urea becomes uric acid, which inflames nerves and joints and thus rheumatism is produced.

Max R. H. Drayton, Sanitist, Marie, Ont., writes as follows: "I think 'Fruit-a-tives' are fine. I am using them for Rheumatism, and never feel it since I started to take them."

Fruit-a-tives

or Fruit-Liver Tablets.

"Fruit-a-tives" cure Rheumatism by greatly stimulating the action of the liver, kidneys and skin. "Fruit-a-tives" make each of these vital organs do its share of nature's work properly. "Fruit-a-tives" rid the system of excessive urea and uric acid—and so purify and enrich the blood and build up the general health, that there can be no rheumatism.

"Fruit-a-tives" are fruit juices, concentrated and combined by our discovered process, which makes them much more powerful medicinally. Then tonics and internal antiseptics are added and the whole compressed into tablets.

If your druggist does not have them, don't take substitutes. Send prepaid on receipt of price—see a box of 5 boxes for \$1.50.

FRUIT-A-TIVES LIMITED, OTTAWA.

be produced.

To Mr. Ross, Hon. Mr. Green said the total area of Kaien Island was about 20,000 acres. The settlement still has a reversionary interest in a large area of the island, and on the mainland. They also have an interest in land other than that which may be sub-divided as a townsite. With respect to this and the foreshore the agreement places the government in a better position than could have been the case if dealing with ordinary stakes. Apart from the question of townsite the land is not of any great value. Consequently a terminus creates its value. It is third class land, which is rated at \$1 an acre. That price was paid by a draft purchased by Mr. Morse and handed over by Mr. Bodwell. When he spoke of Mr. Anderson being an associate of Mr. Larson, he meant working with him. He now believed that Mr. Anderson was a business associate of Mr. Larson, but he had no knowledge of the terms. With reference to the telegram from Mr. Hays to Mr. Bodwell it was procured because the government caused his producing evidence. The fact he was acting directly for the G. T. P. at no time would they have made a deal with anyone else.

Mr. P. L. S. had no knowledge of how many deep sea harbors there were to the north of Vancouver Island. He considered they got more than an acre because they also secured valuable reservations at the expense of the company establishing the terminus.

Mr. J. F. Ritchie, P. L. S., was the next witness. He had been on Kaien Island in 1904 with Mr. Anderson and Mr. Matthews. Had been up a month ahead of them. Had been digging coal claims on the mainland. Was only on the island two hours, landed at Lisianski harbor. Met Mr. Anderson and Mr. Matthews at Cape Caution. Was only shooting on Kaien island; he asked no questions. It is a rough hilly country with much water. The portion of the island he saw is low-lying. The western edge of the portion colored green is about 2,500 feet high. There is some level land on the green lots. He did not survey all the lands granted to the G. T. P. He surveyed 443 and 444. He made the latter survey in September and October, 1904. He found 10 stakes on 443, but there were some S. A. script stakes on 443, on the southern side. The claim was 490 acres. Did not remember the name on the stake. Also saw stakes on lot 251 on the island, at the northwest corner, could not read the writing. Saw other stakes. He surveyed 905 for Mr. Anderson under S. A. Scrip. He saw no other stakes. He surveyed 480 but did not stake. The same as 440. Mr. Anderson was with him part of the time. He staked all this ground himself. In February 1905, long after the survey of 405. This applied to all the lots colored brown, all were for Mr. Anderson, and all were staked under S. A. Scrip.

He dealt with Mr. Anderson only. He was employed and paid by him. Did not meet Mr. Larson in this matter and had no knowledge of his motives. He acted simply as surveyor. Mr. Anderson never told him that he was acting for some one else. Had known Mr. Anderson for ten years. Capt. Bunker was in charge of the Fern when they went upon her. Witness was never acquainted with any interest in these lands. He did not know where they were going until they reached Kaien Island. He was simply employed as a surveyor. Mr. Hays and Mr. Morse were there. From the south to the north of lot 251 along the line of the railway was good level land.

GOVERNOR BRADY RESIGNS.

Washington, Feb. 14.—President Roosevelt this afternoon received and accepted the resignation of John G. Brady as governor of California. Brady's resignation was handed to the President on behalf of Governor Brady by Judge Peck of New York.

No announcement of the successor to Governor Brady has yet been made but it is known that the President has in mind the man he desires for the office. It is not unlikely that the appointment, when made, will go to Lieutenant D. H. Jarvis, former chief of staff of the cutter service, who conducted a relief expedition several years ago to a party of whaler in the "Barrow", and who is now general manager of the Pacific Canning Company on the north Pacific coast.

MR. LAWSON OF BOSTON.

New York, Feb. 14.—The Evening Post today says that Thomas W. Lawson has withdrawn from the insurance policyholders committee, and that definite efforts were made today to bring a new insurance policyholders committee. Mr. Fish has been very active in the investigation of the affairs of the Mutual Life Insurance Company.

JAPAN'S FINANCES.

London, Feb. 14.—The Times today published a dispatch from Tokio saying the Finance programme of the cabinet which has passed the lower house will undoubtedly be endorsed by the upper house. A 20 per cent increase in the war debt, which will aggregate \$911,000,000 in 1907, will be completely paid off by 1950 during which interval there will be operations of conversion. The programme shows that the domestic debt, now amounting to \$287,500,000 will be entirely discharged in 1922.

A HIGH IDEAL.

London, Feb. 14.—The Irish parliament today at a meeting, today declared against the members of the party using their position to secure government appointments by means of patronage and others. Such use of their influence, says the resolutions adopted, would be both inconsistent and improper.

Brave Woman At Cape Beale

Valencia Investigation Reveals Heroine Who Stayed at Her Post.

Newspapermen and Navigators Give Evidence at Yesterday's Three Sessions.

(From Thursday's Daily.) The investigation of the boat house into the wreck of the Valencia was continued yesterday when three sittings of the commission were held. At the morning session the testimony of Percy P. Goddard, the first officer of the Salvor, and J. W. Lorimer, staff correspondent of the Colonist who went to the wreck, was given. The commission was held at 4:30 on Wednesday at the office of the newspapermen and navigators. Three sessions were held at the office of the newspapermen and navigators. The commission was held at 4:30 on Wednesday at the office of the newspapermen and navigators. Three sessions were held at the office of the newspapermen and navigators.

The investigation of the boat house into the wreck of the Valencia was continued yesterday when three sittings of the commission were held. At the morning session the testimony of Percy P. Goddard, the first officer of the Salvor, and J. W. Lorimer, staff correspondent of the Colonist who went to the wreck, was given. The commission was held at 4:30 on Wednesday at the office of the newspapermen and navigators. Three sessions were held at the office of the newspapermen and navigators.

A Heroine Acknowledged At the close of yesterday afternoon's proceedings the commission paid a glowing tribute to the zeal and undaunted fortitude of Mrs. Patterson who held her post at the Cape Beale light during the storm. She was the only woman on the ship, and she remained at her post throughout the entire duration of the storm.

The commission then adjourned to 4:30 to permit the calling of Frank Cook, a diver, who went to the wreck on the Salvor on Monday night. He was accompanied by the Salvor. His story was as follows: "About 10 o'clock on Tuesday we met the Salvor on Monday night. The weather was too thick to communicate. The next morning the Salvor came and we were able to stand by till dark when the Salvor went to Bamfield. The Salvor reported it would do so. Capt. Christensen said he could not go with us as he had to attend to the Salvor. The Salvor and I returned to Bamfield where a rescue party was despatched over land.

Investigating the Kaien Island Grant

Hon. R. F. Green Completes His Evidence and Produces Documents.

Mr. Ritchie P. L. S. Tells of Location and Surveying of Island.

(From Thursday's Daily.) In a comparatively short session the committee completed their examination of the chief commissioner and learned all that Mr. Ritchie knew about the matter under enquiry. Mr. Green in his first examination was very frank in his statements and was able to show that the lands sold to the G. T. P. had been classed as third rate, and valued under the Land Act at \$1 an acre, in selling at this price to the company the government was getting an enhanced value by reason of the terminus increasing the value of all land in the vicinity.

Mr. Ritchie deposed that much of the land in the government reserve was as good as that sold to the G. T. P., and would become available for sale at good prices when all the terminus was developed. He said that the lands secured by Mr. Anderson under Scrip, African scrip were not superior to the other adjoining lands. Mr. Gordon announced that the only other witnesses on the list were Mr. Bodwell (recalled), Hon. R. McBride, and Mr. James Anderson who will be called in the order named. The next meeting of the committee will probably be held on Friday evening, Mr. Macdonald not being willing to re-examine Mr. Bodwell until he had the transcript of the evidence before him.

The Kaien Island enquiry was resumed at 8 o'clock last night. Mr. Gordon in the chair and Messrs. Ferguson, J. A. Macdonald and Dr. Young being present.

The chairman announced that he had asked the deputy attorney general to attend as advisory counsel to the committee.

With respect to the representation of witnesses by counsel, Mr. McLean said that was in the hands of the committee, but only in the case of important witnesses should it be necessary to refer to Hon. R. F. Green said that he met Mr. Morse and Mr. Wainwright of the G. T. P. in Portland in 1902, prior to the election. He never met any representative of the G. T. P. in Tacoma. Never met Mr. Lindsay in Portland. His interview at Portland had no reference to Kaien Island or the acquisition of lands in this province.

Had nothing to do with the purchase of the steamer Fern, had never been on board.

Hon. Mr. Green produced the applications on file for land on Kaien Island. Mr. Macdonald asked for the terms in connection with the "kelp" mineral claim on Kaien Island located by one Silliman. Mr. Gordon said that the order in council of 1891 and the map showing the original location and reserve should

be produced. To Mr. Ross, Hon. Mr. Green said the total area of Kaien Island was about 20,000 acres. The settlement still has a reversionary interest in a large area of the island, and on the mainland. They also have an interest in land other than that which may be sub-divided as a townsite. With respect to this and the foreshore the agreement places the government in a better position than could have been the case if dealing with ordinary stakes. Apart from the question of townsite the land is not of any great value. Consequently a terminus creates its value. It is third class land, which is rated at \$1 an acre. That price was paid by a draft purchased by Mr. Morse and handed over by Mr. Bodwell. When he spoke of Mr. Anderson being an associate of Mr. Larson, he meant working with him. He now believed that Mr. Anderson was a business associate of Mr. Larson, but he had no knowledge of the terms. With reference to the telegram from Mr. Hays to Mr. Bodwell it was procured because the government caused his producing evidence. The fact he was acting directly for the G. T. P. at no time would they have made a deal with anyone else.

Mr. J. F. Ritchie, P. L. S., was the next witness. He had been on Kaien Island in 1904 with Mr. Anderson and Mr. Matthews. Had been up a month ahead of them. Had been digging coal claims on the mainland. Was only on the island two hours, landed at Lisianski harbor. Met Mr. Anderson and Mr. Matthews at Cape Caution. Was only shooting on Kaien island; he asked no questions. It is a rough hilly country with much water. The portion of the island he saw is low-lying. The western edge of the portion colored green is about 2,500 feet high. There is some level land on the green lots. He did not survey all the lands granted to the G. T. P. He surveyed 443 and 444. He made the latter survey in September and October, 1904. He found 10 stakes on 443, but there were some S. A. script stakes on 443, on the southern side. The claim was 490 acres. Did not remember the name on the stake. Also saw stakes on lot 251 on the island, at the northwest corner, could not read the writing. Saw other stakes. He surveyed 905 for Mr. Anderson under S. A. Scrip. He saw no other stakes. He surveyed 480 but did not stake. The same as 440. Mr. Anderson was with him part of the time. He staked all this ground himself. In February 1905, long after the survey of 405. This applied to all the lots colored brown, all were for Mr. Anderson, and all were staked under S. A. Scrip.

He dealt with Mr. Anderson only. He was employed and paid by him. Did not meet Mr. Larson in this matter and had no knowledge of his motives. He acted simply as surveyor. Mr. Anderson never told him that he was acting for some one else. Had known Mr. Anderson for ten years. Capt. Bunker was in charge of the Fern when they went upon her. Witness was never acquainted with any interest in these lands. He did not know where they were going until they reached Kaien Island. He was simply employed as a surveyor. Mr. Hays and Mr. Morse were there. From the south to the north of lot 251 along the line of the railway was good level land.

To Mr. Ross, witness said that the general character of the green portion was about the same as the surrounding level land, but white only two or three square miles was splendid land, and would become valuable if a terminus was established on the north or south. The crown grants were issued on his surveys. He thought the town would be established at the north end of the island.

The Salvor was accompanied by the Salvor. His story was as follows: "About 10 o'clock on Tuesday we met the Salvor on Monday night. The weather was too thick to communicate. The next morning the Salvor came and we were able to stand by till dark when the Salvor went to Bamfield. The Salvor reported it would do so. Capt. Christensen said he could not go with us as he had to attend to the Salvor. The Salvor and I returned to Bamfield where a rescue party was despatched over land.

SPECIAL TODAY—Glass Tumblers, \$1.00 per doz. Good value at \$1.50.

BOOTBLACK HELD UP AT REVOLVER POINT

Savo Bootblack is Relieved of \$75 by Two Masked Men Last Night.

(From Thursday's Daily.) George Ferriet, the Italian bootblack who keeps the stand at the Savo Theatre, was held up last night and \$75 taken from him by two masked men, at the point of a revolver.

Ferriet lives on Glenford avenue, in the outskirts of the city, and was proceeding home last night with \$75 in his pockets. About 10 o'clock, when opposite Rogers' milk ranch, two men sprang out in front of him and temporarily ordered him to throw up his hands. At the point of a revolver, one of the masked men held a pistol to the victim's forehead and the other drew a revolver and sent a bullet into Jones' brain.

Plans for the Reorganization of the Intercollegiate Railway.

Census Commission is to be organized for work in the Provinces.

New Detention Building migrants to Be Built Outer Wharf.

OTTAWA, Feb. 13.—The works department on made a considerable reduction in staff of carpenters and laborers, so as to bring the department up to the requirements of the year.

Arch. Blue, census commissioner, is to be organized for work in the Provinces. The census of 1906, which is to take place during the spring. The schedules are being prepared, and are now being sent out to the provinces. This enumeration is necessary in determining the amount of money which the western provinces receive for the next five years, has been prepared for a number of years.

which is to be taken by the census. Among items of information to be called for will be name and works, when established, operation in 1906, value of plant, working capital, etc. The census is to be taken in 1906, and will be the most complete yet taken. It is a heavy penalty for failure to comply with the request, and the schedules are being sent out to the provinces.

The Intercollegiate Railway has no intention during the year of extending its operation in 1906, value of plant, working capital, etc. The census is to be taken in 1906, and will be the most complete yet taken. It is a heavy penalty for failure to comply with the request, and the schedules are being sent out to the provinces.

The "New Parliament" of Ontario is to be opened in Toronto on Monday, and is to be a success. The opening in Toronto was unauthorized and incorrect. The opening in Toronto was unauthorized and incorrect.

Ventilating the Commons Chamber is being stalled, under the direction of Durley McGhill. The Commons chamber is being stalled, under the direction of Durley McGhill.

Mr. Bryce, who returned from his recent trip to the States, says that a new building for immigrants is being erected at the outer wharf, Vancouver. Mr. Bryce, who returned from his recent trip to the States, says that a new building for immigrants is being erected at the outer wharf, Vancouver.

Among the changes which the intercollegiate railway proposes to make, is to increase its rates for distances over 200 miles. Under that distance passengers are to be charged the same as the Eastern Railway. For distances above 200 miles rates are lower. It is intended to reduce the rate for the Eastern Railway. Rates will also be added to the scale which prevails on the Eastern Railway.

Arrangements have been completed between the finance department and the banks to undertake redemption of the United States silver plan will go into effect on Monday next.

The writ for the election of a House of Commons for North Ontario has been issued. McKenzie, appointed to the bench issued today. Nominations will be held on Monday next. March 1st.

For Sabbath Observance Montreal, Feb. 13.—Archbishop of Montreal today issued an important letter placing on the bishops and priests prohibitions regarding ball games and other like contests on the Sabbath. The letter is in accordance with the spirit of the church.

Fur Trader's Arrival Edmonton, Feb. 13.—P. Cunniff fur trader, arrived from Lesser Lake with 24 packs of furs valued at \$25,000. He made the trip of 300 miles in ten days. Freighters in the north have had a bad winter outlook.

Quebec Elections Quebec, Feb. 13.—The civic election here today resulted in the success of the civic reform anti-Park. The city candidates were elected by large majorities, while the party who got through had a narrow margin.

Toronto, Feb. 13.—Sir Wilfrid Laurier and Lady Laurier arrived in Toronto from Ottawa. The Premier was today rendered luncheon by Senator Jones, whose guest he is sending him. He is a member of the Literary and Scientific Society, and is receiving them with propriety. Sir Wilfrid Laurier arrived in Toronto from Ottawa.

Toronto, Ont., Feb. 13.—The Rev. David Kennedy, one of the oldest and best known citizens of Toronto, died at his residence, Kenyon Park, Parkdale, Saturday.

Farmers Protest Kingston, Feb. 13.—The farmers of the Frontenac region have tested against increased duty on requirements and against the increased indemnity and pensions.
