**THIS BABY TO BE "PERFECT WOMAN"**

Minneapolis, Oct. 10.—To become the world's most perfect woman physically is the future mapped out for Margaret Terry Hudson Grant, two years and two months old, by her father, Richard Grant, director of track athletics of the University of Minneapolis. Ever since she was three weeks old the baby has been training for the place she is expected to fill. Systematic exercise under the careful supervision of her father, who himself was formerly a track star at Yale and who has "made" many Minnesota athletes, is as much a part of little Margaret's daily life as the food she eats.

The exercises have already had wonderful results. Some of the ways in which Margaret differs from other two-year-olds are these: Every part of her body is perfectly formed. She has a normal chest measurement of nineteen inches and an expansion of nearly two inches. Her biceps muscles measure five inches. She could walk when she was ten months old. She could swim when she was eight months old. She weighs twenty-eight pounds, without an ounce of fat on her little body. She can walk up three flights of stairs and back without stopping.

The little girl, who has just begun to talk, delights in her exercises. The more common of these include a wand drill to strengthen and develop her chest muscles; exercises on a horizontal bar, consisting of a cane held in the hand of her father, to which she can hang for forty-five seconds; swinging back and forth while holding to her father's finger, and reclining on the floor and rising without touching her hands to the floor.

**REVENUES OF CANADA ARE SOARING**

Report for Half Year Ending September breaks all Records

Ottawa, Oct. 10.—The semi-annual financial statement issued today showed that the revenues of Canada were never so buoyant. The national debt in six months has been reduced by no less than ten and a half millions of dollars. The revenue for six months from March 31st to Sept. 30th, breaks all records, reaching \$81,378,550. This is an increase of \$17,309,176 over the six months of 1911. The increase is no less than 27 percent, which is the record. It is estimated that the figures for the year will touch the unprecedented sum of \$170,000,000.

The half year's revenues consists of Customs, \$56,455,140; excise, \$10,152,014; post office, \$4,850,000; public works and railways, \$6,720,570; and miscellaneous, \$3,200,911. The expenditure upon the consolidated fund for six months was \$63,934,539 against \$25,933,456 last year. The expenditure on capital account was \$11,671,983, against over twelve millions last year. One of the largest reduction in capital expenditure is on the Transcontinental, although Major Leonard has been rushing construction. The net debt on Sept. 30th 1912, stood at \$313,508,876, compared with \$323,038,768. During Sept. alone there was a reduction of about three millions.

**\$100 Reward, \$100**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**WHEN RAILROADS RACED**

The manager of the Canada Atlantic was ambitious—says Edward Hymas, writing in the Canadian Magazine on E. J. Chamberlin, the new president of the G.T.R. When he had succeeded in putting his track in good shape, he went into the market to secure a couple of "roadsters." He would build, he said, a pair of black flyers that would stover this 120 in 120 minutes. When he placed the contract for these two locomotives the main specification was that they should make seventy miles an hour with a full train. In a little while the new engines were delivered at Ottawa and tried out. They delivered the goods. They actually hoisted the line at a mile a minute, and to test them, they were speeded up to eighty miles an hour. The big competitor, with its splendid track and rolling stock, was amazed at the speed of the little line. Presently the two roads—three, in fact, because the Grand Trunk was made a part of the route—got together and slackened the mad-dening speed. A few years later the little line was absorbed by the Grand Trunk System.

**MOTHER OF LARGE FAMILY**

Tells How She Keeps Her Health—Happiness For Those Who Take Her Advice.

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sensitive Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, Lydia E. Pinkham's Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has helped her.

"I am always ready and willing to speak a good word for Lydia E. Pinkham's Vegetable Compound. I tell every one I meet that I owe my health and happiness to your wonderful medicine."

—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy for women's ills known.

**LARGE WATER POWERS**

A report has just been filed at Victoria, B. C., on the water power of the Willow river, about 17 miles east of Fort George. At this canyon it is proposed by the Fort George Power Company, Ltd., a company which has undertaken the work of development there to develop cheap power for manufacturing and other purposes. In the development scheme a dam is planned to create a service reservoir which will be the means of maintaining a constant head of water on a turbine to be installed in a power house situated on the lower fall of the dam. In addition, a smaller dam will create a local storage reservoir. According to the report 40,000 or 50,000 horse power might be obtained with a sufficient storage. Such an asset should prove an important factor in the industrial growth of this Grand Trunk Pacific townsite, closely situated as it is the sources of supply for raw material.

According to an English dietary expert, growing children should eat to repletion. The maximum of leaving off hungry at a meal must not be applied to them.

**GETS MARRIED ON STOLEN MONEY**

After Short Married Life Bridegroom gets Penitentiary

Windsor, Ont., Oct. 7.—A month ago Charles H. Doss, aged 22, of Leamington, stole \$50 from his former employer in order to marry Miss Grace Dodge, of Leamington. The wedding took place and the young couple went to Detroit to live. Doss was located and arrested for theft, brought back to Windsor and committed for trial. He was arraigned before Mr. Justice Britton at the Sanwich assizes, found guilty, and sentenced to two years in Kingston. Doss was without counsel. His bride, who is but 18 years old, was not in court, and her parents say she will have nothing to do with her husband after his release.

Prof. Father—"There is one good thing about that young man that called to see you last night, he is healthy."

Daughter—"That is real nice, but how do you know?"

Prof. Father—"I heard you say when you met him in the hall, 'Oh Billy, how cold your nose is!'"
