Seeing the score the Toronto gun club team made at Woodstock last week certain members of the Toronto rowing club think that they could about equal that themselves and they, therefore, have requested The World to propose two matches, the first at shooting live birds and the second at rowing. The proposition is that a team of five members and ex-members of the Toronto rowing club resident in the city shall shoot against a like number of representatives or ex-representatives of the Toronto gun'club, also residents of the city, and that in the spring as early as possible, four of the five on each side shall row a mile and a half or lenger distance four eared race on the bay, the prize in each case to be a side of heef to be given to either the Boys' or Girls' home. If the T. G. C. members object to the rowing race they can be accommodated with the shooting match alone. A reply to The World office will lead to arrangements being made for an interesting competition.

From the New York Sun, Dec. 18.

"The meanest fraud recently brought to light in this town," said a Harlem physicians and their patients. There has been for a some time a scarcity of vaccine virus here abouls, owing to the great demand along the Canadian border. Taking advantage of this, unscrupulous druggists have prepared quills with Croton oil instead of vaccine matter. The sore produced by Croton oil is so much like that of the genuine virus that ordinary people would never know the difference. I have no doubt that there are a good many people in town who suppose they are safe from smallpox infection, when they have simply been vaccinated with an irritant."
