

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion."—Mrs. HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble.

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated.

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial."—Mrs. STEPHEN J. MARTIN, Chesterville, Ontario, Canada.

WATFORD, MAY 3, 1912.

Picked Up Ambergis.

Through his curiosity to know the nature of a substance he found on the beach near Valdez, Alaska, Gus Olson, a laborer, is richer by at least \$400. The substance in question has turned out to be a gigantic chunk of ambergis weighing 220 pounds, and worth approximately \$400. So far as can be ascertained the lump is the largest ever found, the next in size being one weighing 182 pounds, found in the Bahamas. Owing to the great demand for it by perfume makers, the ambergis is worth about \$20 a pound.

The substance, which is a secretion from the intestines of the sperm whale, is being held by Olson, until he can ascertain the true value of his find, as it may be worth a higher price, owing to the quantity.

Mr. and Mrs. Wm. Martin, of Yarwouth, were thrown out of their buggy while driving to St. Thomas and badly injured. The horse took fright at a traction car and collided with a telegraph pole. The buggy was demolished.

Berlin, Ontario, has decided to hold its cityhood celebration on Wednesday, July 17. The Made-in-Berlin exhibition will commence on July 15 and continue during the week.

Mark Fortune, Winnipeg capitalist, took out \$25,000 insurance on January 5, before he left Winnipeg for Egypt, payable in double that amount if he was killed by accident. He was lost on the Titanic.

An Easy Medical Degree.

Time was when medical degrees were obtained at St. Andrews without all the difficulties of today, and the story is told concerning a learned professor of old, who had advised a particular student whom he had never seen in the flesh and of whose work he knew but little, to call upon him at his house so that he might be examined for his degree. The morning was a beautiful one, and the learned gentleman found it impossible to resist the attractions of the links. Before setting out, however, he had left a message with one of the maidservants, and a conversation like the following ensued on the arrival of the student at the appointed time: "Are you the gentleman who was to call this morning about a degree?" asked the girl on opening the door. "I am," was the reply. "Well," said the maid, "I was to tell you that it was all right. You have passed!"—Scotsman.

Not Just What He Said.

A well known parson, preaching to a crowded congregation at a church where in his younger days he had been curate, alluded to the many changes that had taken place. He contrasted the attendance with that of days gone by and remarked, "At one time in this church there was not a soul—er—person in the gallery."

Next day, in a report of the service which appeared in one of the local newspapers, the minister was reported to have said, "At one time in this church there was not a sober person in the gallery."—Exchange.

Seizing His Opportunity.

Wife—Mrs. Bowen's house is strictly up to date, with electric appliances throughout. All she has to do is to touch a button and almost any desired result is accomplished. Husband—Well, you would never be able to get results in that way, my dear. Wife—Why not? Husband—Because you seem to have a horror of touching buttons. Just look at my clothes.

Deafness Can Not be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

WANTED AN EXCHANGE.

A Curious Adventure in Which the Czar Nicholas Figured.

The Czar Nicholas was very fond of masquerade balls and one night appeared at one in the character of his Satanic majesty, with grinning face, horns and tail, and seemed to enjoy the character very much.

About 8 o'clock in the morning he went out and, throwing over him some furs, called a cab and ordered the coachman to take him to the Quai Anglais. Being very tired, he fell asleep. When he awoke he found the coachman had taken the wrong direction, for the Quai Anglais was in the most fashionable part of the city, while around him were only miserable hovels.

Nicholas began to remonstrate, but the driver, paying no heed to him, drove through a stone archway into a cemetery. Then, taking a long knife from his girdle, he opened the door of the cab and said:

"Give me your money and your furs or I will kill you."

"And do you give me your soul," cried Nicholas as he threw off his furs and disclosed his personification of the evil one.

Overcome with terror, the coachman fell senseless on the ground, while the emperor himself drove the cab back to town and afterward used more care in the selection of a coachman.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the well-known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D. D. D. Prescription.

MOROCCO CITY.

Magnificent in its Site and in its Historic Ruins.

Morocco city, the capital of the southern half of the Moroccan kingdom, is a far more interesting city than Fez. Architecturally its monuments, including the famous Kutubia tower, the counterpart of the Giralda in Seville; the famous mosque of Muley Abdallah and a hundred other ruined or semi-ruined edifices surviving from the days when the city had 700,000 inhabitants and was one of the great capitals of Islam, are the most considerable and magnificent in Morocco. Equally beautiful is the site of this city in the upper valley of the Tensift river, surrounded in a half circle by the great wall of the grand Atlas mountains, whose snowcapped peaks are seen beyond a foreground of large farms and fertile fields.

A city far less given over to war, with a population less ferocious, less fanatical than that of Fez or Mekinez, Morocco city has been much more frequently visited by Europeans than its northern rivals. Geographically Morocco city is the real gateway to the Sahara. By the Giall pass one road climbs over the Atlas mountains to Taflet, and the caravan route continues to Timbuktu. A second road descends to the Draa, crossing the Atlas chain, while a third leads to Tarudant and the Sus country. Close communication with the south has left its mark upon the people, who are darker and show more patently the infusion of African blood than the Berbers and Arabs of the north.—London Standard.

Queen Ants.

The queen ant has apparently not had justice done to her by naturalists. Dr. W. M. Wheeler's view is that by comparison with the queen bee the queen ant is by far the more admirable creature. In many important respects they are diametrically opposite. The queen bee is, it is pointed out, a degenerate creature, unable to nourish either herself or her young, to visit flowers, to build combs or to store them with honey. With the queen ant quite the reverse is the case. She is held to be a perfect exemplar and embodiment of her species, and the worker ants suffer from incomplete and retarded development. The queen ant is a very industrious and intelligent worker. She forms an exceedingly interesting subject for study.—London Globe.

IT IS A LIVER PILL.—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Farnelee's Vegetable Pills. Their operation though gentle is effective, and the most delicate can use them.

BRONCHITIS

To Whom It May Concern Bluevale, Ont., May 4, 1910—"I was sick for two years with chronic bronchitis and a consequent run-down condition. I received no benefit from doctors or from a trip which I took for my health, and I had to give up work. Vinol was recommended, and from the second bottle I commenced to improve. I gained in weight and strength, my bronchial trouble disappeared, and I am at work again.

It is the combined action of the curative elements of the cods' livers, aided by the blood-making and strength-creating properties of tonic iron contained in Vinol which makes it so successful in curing bronchitis.

Vinol is a constitutional remedy for chronic coughs, colds, bronchitis and pulmonary troubles—not a palliative like cough syrups.

Try Vinol. If you don't think it helps you, we will return your money. T. B. Taylor & Sons, Druggists, Watford
