

- Effect of Rodding Concrete***; F. E. Giesecke. 118.
 Electric Station Industry in Canada—Central*. 593.
 Electrical Engineers—Calvert Townley Addresses Toronto. 419.
 Electrolysis of Concrete*. 199.
 Ellis—Honor to Dr. W. H.†. 269.
 Employ—Technical Men in Government†. 390.
 Employment for Engineers—Administrative and Commercial†. 581.
 Enamelled Wire in Canada—To Manufacture. 353.
 Engholm, F. G.; Present Status of Reinforced Concrete Design*. 151.
 Engineer and Reconstruction—The British†. 602.
 Engineer as an Arbitrator, The; William S. Wollner. 362.
 Engineer—Education of the Highway; Brig.-General C. H. Mitchell. 523.
 Engineer on the Construction of a Hydro-Electric Plant—Duties of a Young*; H. S. Slocum. 375.
 Engineering and Contracting—Cost Keeping in†. 201.
 Engineering Battalions: Their Work in the War*; Gen. Sir Arthur Currie. 203.
 Engineering—Chemistry and; T. Linsey Crossley. 402.
 Engineering—Chemistry and*; T. Linsey Crossley. 417.
 Engineering Conference—A Notable†. 537.
 Engineering Fees—Schedules of. 425.
 Engineering in Canada—A Generation of; R. O. Wynne-Roberts. 170.
 Engineering Institute Council Discusses Salaries and Unionization†. 411.
 Engineering Institute Elections. 128, 216, 483.
 Engineering Institute of Canada†. 217.
 Engineering Institute of Canada, Annual Meeting of. 127, 187.
 Engineering Institute of Canada Committee of Policy. 509.
 Engineering Institute of Canada—Program for Toronto Branch of. 179.
 Engineering Institute's Annual Meeting. 167.
 Engineering Institute's Committee on Policy*; J. B. Challies. 473.
 Engineering Legislation for Province of Ontario—Advisory Conference Committee on. 365.
 Engineering Legislation Making Progress. 354.
 Engineering Legislation Passes in Alberta and New Brunswick. 420.
 Engineering—Park*; Reginald B. Evans. 337.
 Engineering Principles to Water Works Operations to Offset Increased Cost of Labor and Materials—Application of. 416.
 "Engineering Profession Act"—British Columbia's. 511.
 "Engineering Profession Act"—New Brunswick's. 465.
 Engineering Profession Retrograding?—Is the**;
 Romeo Morrisette. 357.
 Engineering Publicity—New. 186.
 Engineering—Science and†. 185.
 Engineering Society Settles Civic Dispute†. 269.
 Engineering Standards' Association—Canadian. 419.
 Engineering Students—Practical Training for. 403.
 Engineering—The Economic Basis of†. 537.
 Engineers—Act Incorporating the Manitoba Association of Professional. 385.
 Engineers—Activities of Provincial Sanitary; Fred A. Dallyn. 109.
 Engineers—Administrative and Commercial Employment for†. 581.
 Engineers—Alberta Bill for Registration of. 324.
 Engineers—American Institute of Chemical. 442.
 Engineers and Officials—Rare Opportunity for Water Work†. 581.
 Engineers—Architects and†. 515.
 Engineers—Big Demand for***; C. H. Mitchell. 471.
 Engineers?—Big Demand for**;
 H. P. Heywood. 390.
 Engineers—Big Demand for**;
 T. Kennard Thomson. 429.
 Engineers—Calvert Townley Addresses Toronto Electrical. 419.
 Engineers—Code of Ethics for the American Society of Mechanical. 561.
 Engineers—Compensation of; O. C. Merrill. 421.
 Engineers Demand Action on Salaries—Toronto. 285.
 Engineers' Fees. 527.
 Engineers Honor—Two Men Whom†. 581.
 Engineer's Letters—An; P. B. McDonald. 435.
 Engineers Organize Union?—Should Professional. 281.
 Engineers Should be Increased—Compensation of*. 248.
 Engineers to Discuss Formation of Single National Association—U.S. 491.
 Engineers—Trade Unionism and**;
 Charles A. Mullen. 119.
 Engineers—Unionization of**;
 John H. Ryckman. 329.
 Engineers Will Incorporate Saskatchewan. 441.
 English Firms Use Canadian Shop†. 167.
 English Machinery—To Manufacture. 158.
 Essex Border Utilities Commission—Unit Cost of Labor and Construction of Intercepting Sewer for*; Charles W. Tarr. 156.
 Ethics for the American Society of Mechanical Engineers—Code of. 561.
 Evans, Reginald B.; Drainage of Exhibition Park, Toronto*. 401.
 Evans, Reginald B.; Park Engineering*. 337.
 Evans, Reginald B.; Some Experiences in Foundation Failures*. 237.
 Executive Meeting—Association of Canadian Building and Construction Industries. 356.
 Exhibition Park, Toronto—Drainage of*; Reginald B. Evans. 401.
 Exhibits—American Water Works. 462.
 Expenditures—Ontario Hydro's Proposed. 366.
 Explorations and Surveys in the Canadian Northwest—Early; Roger Fyfe Clarke. 327, 340.
 Explosions—Dust*; Hon. Ralph B. Chandler. 107.
 Extensions Held Up—London Water Works. 587.
 Extensometer Tests of Concrete Beams. 483.
- ### F
- Factory Wastes—Operating Experiences With Activated Sludge Process for; George W. Fuller. 367.
 Failures in Concrete Construction**;
 A. C. Irwin. 515.
 Failures in Concrete Construction**;
 R. E. W. Hagarty. 411.
 Failures in Concrete Construction**;
 T. D. Mylrea. 417.
 Failures—Some Experiences in Foundation*; Reginald B. Evans. 237.
 Federal Aid Allotted to Provinces. 164.
 Federal Aid; A. W. Campbell. 275.
 Federation of Construction Industries in the United States—Growth of the. 228.
 Fees—Engineers. 527.
 Fees—Schedules of Engineering. 425.
 Ferry—Steel Bridge Replaces Batiscan*; F. Benoit Painchaud. 348.
 Field Survey Troops: Their Work at the Front*; E. W. Berry. 317.
 Fill—Hamilton Controllers Recommend. 403.
 Filter Plant—Amherstburg***; Foundation Co., Ltd. 141.
 Filtered Water—Alumina Hydrate in Mechanically; Norman J. Howard and Frank Hannan. 461.
 Filtered Water—Alumina in Mechanically†. 471.
 Filters at Toronto—Drifting Sand**;
 Ransome-ver Mehr Machinery Co., Ltd. 233.
 Filters—Sandwashers of Drifting Sand*; William Gore. 563.
 Financing a Provincial Highway System; A. W. Campbell. 557.
 Findlay, Wm.; Value of the Local Association in a Nationwide Highways Movement. 525.
 Fire—Protection of Wooden Bridges from. 247.
 Fire—Protection Systems—Pollution From†. 131.
 Fireproofing of the American Concrete Institute—Report of Committee on. 505.
 Flood Control at Winnipeg†. 349.
 Flood Prevention Projects—Grand Valley Board Requests Commission for. 408.
 Flood Prevention Projects to Protect Winnipeg*; Douglas L. McLean. 333.
 Floors of Concrete Buildings—Recommendation for Practice in Testing; W. A. Slater. 484.
 Flowability of Concrete and its Measurement by Means of the "Flow Table**"; G. M. Williams. 545.
 Flow in Uniform Channels When the Water-Surface is not Parallel to the Invert; Prof. Alex. H. Jameson. 191.
 "Flow Table"—Flowability of Concrete and its Measurement by Means of the*; G. M. Williams. 545.
 Foley, Timothy§. 538.
 Footings—Standard Method of Computing Combined*; N. E. Helff. 536.
 Foreman, A. E.; Organizing Provincial Highways Departments. 549.
 Forms—Pressure of Concrete Against; E. B. Smith. 321.
 Foundation Co., Ltd., Amherstburg Filter Plant***. 141.
 Foundation Failures—Some Experiences in*; Reginald B. Evans. 237.
 Franchise in Edmonton—Seeks Power. 163.
 Brazil Formation—Moving Pictures of. 232.
 Front—Field Survey Troops: Their Work at the*; E. W. Berry. 317.
 Fuel—Lignite Briquettes Said to be Cheapest. 566.
 Fuel Research in Great Britain. 553.
 Fuels on Railways—New. 556.
 Fuller, George W.; Cost-Plus Contracts for Water Works Construction. 599.
