## WORK AND WAGES.

### LABOR NOTES AND NEWS FROM ALL QUARTERS.

Interesting Items, Facts and Figures—A Bird's-Eye View of the World of Industry.

CANADA

MESSE. GARSON & PURCELL, contractors for the system of waterworks at Galt, are pushing the work, with great vigor, in the formation of limestone rock on which the town is built does not admit of rapid excavation. A very large force of men is employed. The engine and pump house are being pushed forward.

Low water is reported from all the streams in the Upper Ottawa district, and it is expected that a drive is likely to be brought down this season. A large drive is stuck at Flood-Wood Junction, in spite of all attempts to get it through. Large amounts of lumber may be seen floating around the hotels in Lower Town, on the Ottawa.

An attempt has been made at a meeting of representatives of the boat and other trade of Quebec to arrive at an amicable settlement of the difficulty which exists between the laborers and the masters and their employers. The latter insist, however, upon adhering to their union as a rule, and the manufacturers are said to be importing machines which will enable them to dispense with labor.

All lumber mills in and around St. John, N.B., have been shut down, with prospects of remaining idle the balance of the season. On Monday the mill-owners posted notices in connection with the strike of July 13, ten hours would constitute a day's work. On seeing these notices the men struck and the same day they held a large labor meeting over in this city. A large number of men were packed to the doors. Resolutions were unanimously carried, pledging resistance to the demand for a return to the ten hours and calling on the public to stand by them against this attempted outrage. It was decided to send a strike strike against the St. John river, except Gibson's, and to send a strike strike against the St. John river, except Gibson's, and to send a strike strike against the St. John river, except Gibson's.

UNITED STATES

St. Paul bakers won ten hours, old wages, without a strike.

Chicago architectural metal workers struck for eight hours, and \$2.49.

Illinois has passed law prohibiting the employment of children under 13.

The Patterson Coal Company's breaker, near Ashland, Pa., was blown over on the 26th ult. Five were killed.

The first work of the World's Fair buildings was begun on June 23rd in Chicago.

From the vital statistics of the large cities in this country it is estimated that at least 10,000 children starve to death every year.

The International Brotherhood of Boiler-makers and Iron Ship-builders, in connection with the St. Paul, Minn., case, has had its wages raised since the passage of the McKinley bill. It would be an excellent attraction at a summer resort.—Herald.

New York milliners average \$2.50 a week; shirt-makers, \$3; underwear-makers, \$4; leather workers, \$4.50; men's clothing-makers, \$4.

The Arizona copper mines at Butte, Montana, have been producing \$25,000,000 worth of copper in the world, and is the richest copper mine in the world, and is the richest copper mine in the world, and is the richest copper mine in the world.

It is rumored that the miners displaced by closed workmen at Tacoma, W.T., are said to be armed with rifles, and any attempt to resume work at any of the mines will result in a gathering of a centine force of armed men at Franklin, Wash.
